WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; and additions to and deductions from contracts:

FIRE DEPARTMENT.

The Mayor has approved a contract, made without advertising, with the American British Manufacturing Company for rebuilding, renickeling and installing new boiler in Fire Engine No. 34, at a cost of \$1,530. Notice of permission to award in *City Record*, November 29, 1913.

In view of the representations contained in the following correspondence, the Mayor has approved a contract with the American-LaFrance Fire Engine Company for furnishing one Type 18 standard,

85-foot, motor driven, two-wheel front drive tractor, American automatic ladder truck; two Type 10 standard combination chemical engine and hose motor cars; two Type 12 standard triple combination pump, hose and chemical motor cars, and two Type 18 standard, motor driven, two-wheel front drive tractors attached to steam fire engines, all for the sum of \$41,847.65 and seven pieces of old horse apparatus formerly used in the department.

BOSTON, December 3, 1913.

HON. JOHN F. FITZGERALD,

Mayor of Boston:

DEAR SIR.—I am in receipt of a letter from the American-LaFrance Fire Engine Company extending the time until December 29, 1913, in which the city may purchase automobile apparatus as per my letter dated November 6, 1913.

In this connection I would call your attention to the urgent and serious need

of motor apparatus, and particularly an aerial ladder in the Roxbury section. In this section there are hotels, factories and apartment houses which are so high that the ordinary extension ladders will not reach them, and in case of a fire such as occurred last night the only means of bringing the people to the ground would be by an aerial ladder.

I therefore urge upon your Honor to approve the purchase of this apparatus.

Yours very respectfully,
CHARLES H. COLE,
Fire Commissioner.

BOSTON, November 6, 1913.

HON. JOHN F. FITZGERALD,
Mayor of Boston:

DEAR SIR,—Permission is hereby requested to purchase, without advertising, from the American-LaFrance Fire Engine Company, Inc., of Elmira, N. Y.:

One (1) Type 18 standard, 85-foot motor driven, two-wheel front drive tractor, American automatic ladder truck;

Two (2) Type 10 standard combination chemical engine and hose motor cars;

Two (2) Type 12 standard triple combination pump, hose and chemical motor cars;

Two (2) Type 18 standard, motor driven, two-wheel front drive tractors attached to steam fire engines;

All for the sum of \$41,847.65 and seven (7) pieces of old horse apparatus now on hand, provided the contract is entered into on or before November 29, 1913.

In addition I request permission to buy, without advertising, one (1) Type 10 standard combination chemical engine and hose motor car for the sum of \$4,725 and one piece of old horse apparatus, provided the above contract is signed before November 10, 1913. The American-LaFrance Fire Engine Company agrees to deliver this car not later than January 15, 1914.

My reasons for requesting permission to make this purchase without advertising are as follows:

First.—Motor fire apparatus is not a staple nor standard product and the lowest bidders are not necessarily the proper ones to accept.

Second.—I have received better bids from all motor fire apparatus companies privately than I received by public advertising last year.

Third.—The last purchase was made through public advertisements and I know that most of the firms privately made lower offers for the same apparatus to other cities and towns in the country than they did to Boston by public advertising. Large corporations cannot afford to make public bids on low prices if such bids are unaccepted and become public property. I request to make the contract with the American La-France Fire Engine Company for the following reasons:

First.—This is the only company that manufactures all of the apparatus above described in its own factory.

Second.—All fire apparatus should be, if possible, of one standard; the Boston Fire Department has purchased from this company 88 per cent of its motor fire apparatus.

Third.—Motor engines and pumps are of such delicate mechanism that it makes for efficiency to have one standard, so that men on one company can drive the apparatus of any other company in the department.

Fourth.—The American La-France Fire Engine Company is the lowest bidder on the total above described apparatus and

is also the lowest bidder on any two or more different types of the above apparatus.

Fifth.—This company has a large and well organized factory. Its financial standing is good. It has sold more apparatus this year than any other company in the country. It has a branch in Boston where broken parts may be quickly replaced, which is a necessity for fire apparatus.

Very respectfully yours,
CHARLES H. COLE,
Commissioner.

PARK AND RECREATION DEPARTMENT.

The Mayor has approved a contract made without advertising with the Pennell, Gibbs & Quirin Company for decorating the two outside porches of the bird house at Franklin Park, at a cost of \$1,043. Notice of permission to award in *City Record*, November 22, 1913.

SCHOOLHOUSE DEPARTMENT.

The Mayor has approved a contract, made without advertising, with the Otis Elevator Company for installing elevator in the Public Latin Annex, at a cost of \$980. In making request for authority to award, the Commissioners state:

December 15, 1913.

HON. JOHN F. FITZGERALD,
Mayor of Boston:

DEAR SIR,—During the building of the Public Latin Annex, this department made a direct contract with the Otis Elevator Company for putting in an elevator, at a cost of nine hundred and eighty (980) dollars.

It seems that we should have had your Honor's approval on this contract, on account of elevator being installed in a new building. The matter was overlooked, and the work has been all completed, and we would now like your Honor's approval of the inclosed contract, so that the Auditor may be enabled to pay the bill.

Very truly yours,
CHARLES LOGUE,
Chairman.

SUPPLY DEPARTMENT.

Authority has been granted by the Mayor to award a contract, without advertising, to the Darrow Mann Coal Company for furnishing 500 gross tons of New River coal for the Penal Institutions Department, at \$3.92 per gross ton, the estimated total being \$1,960.

The Mayor has approved a contract, made without advertising, with the New England Coal and Coke Company for furnishing 500 tons of New River coal for the Penal Institutions Department at \$3.80 per gross ton, the estimated total being \$1,900. Notice of permission to award in *City Record*, December 13, 1913.

The Mayor has approved a contract, made without advertising, with the Logan Coal Company for furnishing two cargoes, approximately 3,600 tons, of No. 1 Logan coal for the Sewer and Ferry Services, at \$3.75 per ton, delivered alongside, the estimated total being \$13,500. Notice of permission to award in *City Record*, September 20, 1913.

The Mayor has approved a contract, made without advertising, with the Buick-Boston Company for one Model B. No. 24 runabout for the Lighting Service, costing \$1,048, less \$400 allowance for old car. Notice of permission to award in *City Record*, December 6, 1913.

PERMISSION TO DO WORK WITH DEPARTMENT FORCE.

The Mayor has granted to the Commissioner of Public Works authority to do the following work with the department force, without advertising for competitive bids:

Build a sanitary sewer of 18-inch and 12-inch earthen pipe in Endicott street, from Hanover street about 140 feet northwesterly, city proper, the estimated cost for labor and materials being \$1,194.

"This work, in my opinion, can be as advantageously done by day labor methods as any work now necessary."

"Public necessity and convenience require that this work be done after November 15, for which your authority is requested."

L. K. ROURKE,
Commissioner of Public Works."

NOTICE TO BIDDERS.

The trustees of the Boston City Hospital invite bids to supply the hospital until November 1, 1914, in lots as required, with 6,500 tons, more or less, of semibituminous steaming coal of the best quality, without excess of slate, dirt, moisture or sulphur, provided that after February 1, 1914, sufficient appropriation is made therefor and the trustees so order. The quantity here named is an estimate based upon previous annual consumption, and bids will be made on the understanding that a greater or less quantity may be called for by the trustees according to the actual requirements of the hospital; and that the city shall pay only for the actual quantity delivered and at the contract price. The coal is to be delivered on the hospital wharf, Roxbury Canal, either in the old coal pocket or in the space designated in the yard by the engineer of the hospital. The dates of deliveries are as follows: First delivery (300 to 500 tons) not later than February 10, 1914; the remainder in such quantities and at such times as the superintendent may direct. The contractor must keep a reserve supply of seven hundred and fifty (750) tons of coal on the hospital wharf at all times during the continuance of the contract. The bidder must state the name of the coal, the name or other designation of the coal bed or seam, and the name and location of the mine or mines from which the coal is to come. Forms of bids and specifications may be obtained at the office of the superintendent, and only bids made on said forms will be considered. All bids must be signed by the bidder and accompanied by a certified check for \$500, payable to and to become the property of the city if the bid after acceptance is not carried out. Sealed bids, marked "Bids for Steaming Coal," will be received at the office of the superintendent of the hospital, 818 Harrison avenue, on or before 12 m. on January 20, 1914, and a sealed duplicate of each such bid must, on or before said time, be delivered to the City Auditor, City Hall. The bids will be publicly opened and read at the office of the superintendent at 12 m. on January 20, 1914. The trustees reserve the right to reject any or all bids. The bidder awarded the contract must furnish a satisfactory bond for twenty per cent (20%) of the estimated amount of the contract. The notice to bidders shall be considered a part of the contract.

In view of the representations contained in the following communication, the Mayor has granted authority to award a contract, without advertising, to M. J. Connolly for removing twelve columns from the Custom House and setting them up at the entrance to the Zoo at Franklin Park, for the sum of \$1,750.

January 5, 1914.

HON. JOHN F. FITZGERALD,
Mayor of Boston:

DEAR SIR,—The Board requests your approval to the making of a contract with M. J. Connolly for removing from the Custom House to the entrance of the Zoological Garden in Franklin Park twelve columns, bases, capitals and architrave and to erect eight of the columns, with caps and bases, and eight concrete plinths, on foundations prepared by the department, for the sum of \$1,750.

This is the best offer we have been able to secure, and, as our arrangement with

the National Government requires their immediate removal, we ask you to authorize this contract without advertising for bids.

Yours respectfully,
D. H. SULLIVAN, *Chairman.*

ELEMENTARY SCHOOL, CLASS A CERTIFICATE TO MEN GRADUATES OF NORMAL SCHOOL.

The following preamble and order were offered:

WHEREAS, In the opinion of this Board the amendment to section 359 of the regulations adopted July 1, 1912, which discontinued the provision for the granting of the Elementary School, Class A certificate to holders of the Elementary School, Special certificate upon the completion of two years of satisfactory service in the Boston day schools, should not be retroactive and adversely affect candidates who had partially completed the Normal School course of study at that time, it is hereby

ORDERED, That said amendment shall not apply to graduates of universities or colleges who entered the Boston Normal School prior to Sept. 1, 1912, who shall continue to be eligible to receive the Elementary School, Class A certificate after two years of successful experience in the Boston public schools; provided, that they have shown in a way satisfactory to the Board of Superintendents that they possess such knowledge of the principles and practice of education, and such superior ability in teaching and governing schools as would warrant their appointment as sub-masters and first assistants.

The preamble was adopted and the order passed, under a suspension of the rules.

WHEREAS, Temperatures above 70 degrees are considered by all sanitary experts to be injurious to health, it is hereby

ORDERED, That the Superintendent is requested to remind teachers of the regulation of the Board requiring them to keep a record of the temperature in their respective rooms, and to urge upon principals their duty of seeing that in this important matter the Board's regulations are obeyed, and that the Superintendent also request from the Director of School Hygiene, reports of violations of such regulations.

The preamble was adopted and the order passed.

ADJOURNMENT.

The Board adjourned at 9.05 o'clock P. M.

Attest:

THORNTON D. APOLLONIO,
Secretary.

PROCEEDINGS OF CITY COUNCIL.

Monday, January 5, 1914.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at three o'clock p. m. Absent—Coun. Coulthurst, Kenny, McDonald, Smith.

TEMPORARY PRESIDENT.

Coun. COLLINS moved that the Council proceed to the election of a president *pro tem.* and Coun. Ballantyne was elected.

APPOINTMENTS BY THE MAYOR.

The following were received:

City of Boston,
Office of the Mayor, January 5, 1914.
To the City Council:
Subject to confirmation by your honorable body, I hereby make the following appointments for the term ending April 30, 1914:
Weighers of Coal, Frank H. Cole (168 Summer street, Somerville, Mass.), Edward J. Flynn (31 Freeman street, Ward 20).
Weighers of Boilers and Heavy Machinery, Frank H. Cole (168 Summer street, Somerville, Mass.), Edward J. Flynn (31 Freeman street, Ward 20).
Weighers of Goods, Frank H. Cole (168 Summer street, Somerville, Mass.), Edward J. Flynn (31 Freeman street, Ward 20).

Respectfully,
JOHN F. FITZGERALD, Mayor.

January 5, 1914.

To the City Council:
Subject to approval by your honorable body, I hereby appoint Julius Friedman (37 Bower street, Ward 21) a Constable of the City of Boston for the term ending April 30, 1914.

Respectfully yours,
JOHN F. FITZGERALD, Mayor.
Laid over under the law.

FIRE STATION, CHARLESTOWN.

The following was received:

City of Boston,
Office of the Mayor, January 5, 1914.
To the City Council:
I transmit herewith a communication from the Fire Commissioner, under date of January 5, in

which he estimates that it will cost about \$80,000 to provide a new fire station and apparatus for Charlestown.

I submit this communication for your consideration and trust that you will give this matter your earnest attention.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Headquarters Fire Department,
January 5, 1914.

Hon. John F. Fitzgerald,
Mayor of Boston:

Dear Sir,—With respect to the new fire station in Charlestown, I would submit the following figures as to the station and apparatus:

The architects estimate that the building, provided it is built of fireproof construction, would cost \$80,000. The cost of the apparatus to be placed in the station when completed would be \$9,000, a total of \$89,000 plus the cost of the land. The land is assessed for \$9,500.

If the finances of the city would allow I would recommend that an appropriation of \$100,000 be granted for land, building and apparatus to be erected on the lot at the southwest corner of Park and Joiner streets, Charlestown.

The building can be built for less money but the construction would not be so good. If the city's finances will not allow the appropriation of \$100,000, I would recommend that \$80,000 be appropriated for land, building and apparatus as above.

Yours very respectfully,
CHARLES H. COLE,
Fire Commissioner.

In connection with the message Coun. BUCKLEY offered an order—That the sum of \$80,000 be and hereby is appropriated to be expended under the direction of the Fire Commissioner for new Fire Station, Charlestown, and that to meet said appropriation the City Treasurer be and hereby is authorized to issue, from time to time, upon the request of the Mayor, bonds or certificates of indebtedness of the city to said amount. Referred to the Committee on Finance.

SHOWER BATHS, SUFFOLK JAIL.

The following was received:

City of Boston,
Office of the Mayor, January 5, 1914.
To the City Council:

I transmit herewith a communication from the sheriff of the Suffolk County Jail, under date of January 3, 1914, requesting the transfer of the balance of the appropriation for Jail for 1913-14 to special appropriation for shower baths and steel structural work, Suffolk County Jail, and also the appropriation of \$1,200 to meet additional expenses in connection with this work.

I recommend therefore the passage of the accompanying order authorizing the transfer of the balance of the appropriation for Jail for 1913-14 to a special appropriation for shower baths and steel structural work, Suffolk County Jail, and the transfer of \$1,200 from the Reserve Fund to this special appropriation.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Commonwealth of Massachusetts,
Suffolk County Jail,
Boston, January 3, 1914.

Hon. John F. Fitzgerald,
Mayor of Boston:

Dear Sir,—A contract has been made for the installation of shower baths at the Suffolk County Jail. At the time the shower bath contract was signed it was supposed that the work would be completed before the end of the financial year. After the work was started it was found that other work not contemplated would be necessary, thus making it impossible to complete the work before January 31, 1914, and also entailing an additional expense of twelve hundred (1,200) dollars.

I would therefore ask you Honor to recommend the transfer of the balance of the appropriation for Jail for 1913-14 to a Special Appropriation for Shower Baths and steel structural work, and also an additional appropriation for twelve hundred (1,200) dollars.

Trusting that this will meet with your approval, I have the honor to be,

Yours very truly,
JOHN QUINN, JR.,
Sheriff of County of Suffolk.

Ordered, That under the provisions of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer the balance of the appropriation for County of Suffolk Jail to a special appropriation for shower baths and steel structural work, jail; and also the sum of twelve hundred dollars (\$1,200) from the Reserve Fund to this special appropriation.

Referred to the Executive Committee.

ABATEMENT OF NUISANCE.

The following was received:

City of Boston,
Office of the Mayor, January 5, 1914.
To the City Council:

I transmit herewith a communication from the chairman of the Board of Health, under date of December 26, in reply to the order passed by your honorable body, requesting that some means be devised to abate the nuisance which exists in the locality of the Hugh O'Brien School and the Samuel W. Mason School.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Health Department, December 26, 1913.
Hon. John F. Fitzgerald,
Mayor of Boston:

Dear Sir,—In reply to order of the City Council requesting this Board to "devise some means of abating a nuisance which exists in the locality of the Hugh O'Brien School and the Samuel W. Mason Primary School," would advise you that we have conferred with the school authorities and have taken steps to abate the only nuisance in these school districts which they have called to our attention and that would come within our jurisdiction. This nuisance consists of the insanitary condition of the surfaces of private ways known as Langdon and Roswell streets. The persons responsible for the proper maintenance of these private ways have been notified as to their condition, and we will use every means at our command to have the roadways permanently improved and maintained in a sanitary manner in the future.

Respectfully yours,
F. X. MAHONEY, Chairman.
Placed on file.

FLOODING OF WASHINGTON PARK.

The following was received:

City of Boston,
Office of the Mayor, January 5, 1914.
To the City Council:

I transmit herewith a communication from the chairman of the Park and Recreation Department, under date of January 1, accompanied by a report from the deputy commissioner, regarding the flooding of Washington Park for skating during the coming season.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Park and Recreation Department,
January 1, 1914.

Hon. John F. Fitzgerald,
Mayor of Boston:

Dear Sir,—We have received and considered the inclosed order of the City Council, in reference to our providing skating, during the coming season, on Washington Park, and submit herewith a report from Deputy Commissioner James B. Shea in which we concur.

Yours respectfully,
D. H. SULLIVAN, Chairman.

City of Boston,
Park and Recreation Department,
December 26, 1913.

Mr. D. H. Sullivan, Chairman:

Dear Sir,—Relative to the order of the City Council of December 8, requesting his Honor the Mayor to direct this department to arrange for skating at Washington Park, I beg leave to report that it is impossible to provide skating at this park as the grade will not allow of the storing of water without building a dike, which would be expensive and dangerous to those living in the neighborhood, and in addition to that detrimental to the park itself.

Yours respectfully,
JAMES B. SHEA,
Deputy Commissioner.
Placed on file.

COST OF PUBLIC LANDING.

The following was received:

City of Boston,
Office of the Mayor, January 5, 1914.
To the City Council:

I transmit herewith a communication from the Commissioner of Public Works, under date of January 3, 1914, in reply to the order passed by your honorable body requesting an estimate of the cost of a public landing at the Charlestown side of the Charles River Avenue Bridge.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Public Works Department,
January 3, 1914.

To the Honorable the Mayor:

Re attached order of the Honorable the City Council, you are respectfully informed that a suit-

able landing can be provided at the Charlestown side of Charles River Avenue Bridge, at an estimated cost of \$5,000. To provide a suitable access to this landing it would be necessary to reconstruct this bridge, at an estimated cost of \$45,000, or a total estimated cost of \$50,000.

Respectfully,
L. K. ROURKE,
Commissioner of Public Works.
Placed on file.

MONEY FOR PARENTAL SCHOOL.

The following was received:

City of Boston,
Office of the Mayor, January 5, 1914.
To the City Council:

I transmit herewith a communication from the chairman of the Children's Institutions Department, regarding a fire which occurred at the Parental School in the dormitory of the Hart Cottage, on December 2, 1913. The chairman states that it is estimated that the repairs which will be required at the cottage will necessitate an expenditure of \$10,000.

I recommend, therefore, the passage of the accompanying order transferring the sum of \$10,000 from the Reserve Fund to an appropriation for Children's Institutions Department, Hart Cottage Repairs.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Children's Institutions Department,
December 15, 1913.

Hon. John F. Fitzgerald,
Mayor of Boston:

Dear Sir,—The Board of Trustees of the Children's Institutions Department wish to announce to your Honor that on Tuesday evening, December 2, there was a fire at the Parental School in the dormitory of the Hart Cottage. The boys were aroused from their beds, and headed by their master marched in an orderly way to the next cottage. This fire was reported by the superintendent to the Board of Trustees at their regular meeting on the following day.

A special meeting of the Board was called Friday, December 12, at the Parental School to investigate the cause of the fire, the extent of the damage done to the building, etc. It is the opinion of the trustees that the superintendent and master did all in their power for the safety of the boys and the protection of the cottage after the fire had been discovered.

The cause of the fire is unknown, but it was suggested by the chief of the Fire Department that it might have been caused by a defective electric wire or from crossed wires.

The Board is unable at the present time to submit to you Honor the specific amount that will be required to repair the damage. An approximate estimate is at least ten thousand dollars (\$10,000), which would include the architect's fee and such expenses as printing, advertising and incidental expenses, and the Board would respectfully ask your Honor to authorize an appropriation of ten thousand dollars (\$10,000) in order to put the building in its former condition.

Yours respectfully,
JOHN O'HARE, Chairman.

Ordered, That under the provisions of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer the sum of ten thousand dollars (\$10,000) from the Reserve Fund to an appropriation for Children's Institutions Department, Hart Cottage Repairs.

Referred to the Executive Committee.

MONEY FOR POLICE STATION, SOUTH BOSTON.

The following was received:

City of Boston,
Office of the Mayor, January 5, 1914.
To the City Council:

I transmit herewith a communication from the Superintendent of Public Buildings, under date of December 31, 1913, requesting an additional appropriation of \$8,000 to complete the work on the new police station for South Boston.

I recommend, therefore, the passage of the accompanying loan order appropriating the sum of \$8,000 to be added to the appropriation for Police Station, South Boston.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Public Buildings Department,
December 31, 1913.

Hon. John F. Fitzgerald,
Mayor of Boston:

Dear Sir,—I beg leave to submit for your consideration a statement of the appropriation for the erection and completion of the proposed police station, South Boston.

Cost of site.....	\$22,000 00
Expert services.....	525 00
Architect's commission.....	4,600 00
Clerk of works.....	1,600 00
Blueprints.....	75 00
Printing specifications.....	231 40
Advertising.....	15 00
Borings.....	48 00
Building fence around lot.....	124 40
Heating building during construction period, probably four months.....	1,000 00
Lowest bid in response to advertisement.....	75,800 00
Estimated expenditures.....	\$106,018 80
Appropriation.....	100,000 00
	<u>\$6,018 80</u>

This shows a deficiency of \$6,018.80, making it impossible to execute a contract with the lowest bidder

Therefore I respectfully request that an extra appropriation in the sum of eight thousand (8,000) dollars be provided to allow me to proceed with the work as soon as possible.

Respectfully yours,
M. J. FISH,
Superintendent of Public Buildings.

Ordered, That the sum of eight thousand dollars (\$8,000) be and hereby is appropriated and added to the appropriation for Police Station, South Boston, and that to meet said appropriation the City Treasurer be and hereby is authorized to issue, from time to time, upon the request of the Mayor, bonds or certificates of indebtedness on the city to said amount.

Referred to the Committee on Finance.

SALE OF STEAM ROLLERS.

The following was received:

City of Boston,
Office of the Mayor, January 5, 1914.
To the City Council:

I transmit herewith a communication from the chairman of the Park and Recreation Department, requesting permission to dispose of two Aveling & Porter steam rollers, which are no longer required by the department.

I recommend the passage of the accompanying order authorizing the sale of this property.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Park and Recreation Department,
December 11, 1913.

Hon. John F. Fitzgerald,
Mayor of Boston:

Dear Sir,—The Board requests the authority of the City Council to dispose of two Aveling & Porter steam rollers. These rollers lack power, are not suited to our work and are not required by this department; hence our desire to sell them, as they occupy room needed for other purposes.

Respectfully,
D. H. SULLIVAN, Chairman.

Ordered, That the Park and Recreation Department be and hereby is authorized to sell at auction, or otherwise, after due notice by advertisement, two Aveling & Porter steam rollers, the proceeds of said sale to be credited to the Park and Recreation Department.

Referred to the Executive Committee.

SALARY FOR CLERK OF WORKS.

The following was received:

City of Boston,
Office of the Mayor, January 5, 1914.
To the City Council:

I transmit herewith a communication from the Superintendent of Public Buildings under date of December 26, in which he states that the sum of \$2,500 which was allotted to provide for the salary of a clerk of the works at the City Hall Annex will have been exhausted on January 8, 1914. The superintendent states that the services of a clerk of works will be necessary until the latter part of March, and requests an additional appropriation of \$400 to provide for this necessary expense.

I recommend, therefore, the passage of the accompanying order transferring the sum of \$400 from the Reserve Fund to the appropriation for City Hall Annex.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Public Buildings Department,
December 26, 1913.

Hon. John F. Fitzgerald,
Mayor of Boston:

Dear Sir,—I wish to inform you that of the appropriation for the erection and completion of the City Hall Annex Building, an allotment in the sum of \$2,500 was made for the services of a Clerk of Works on said building. Said amount will have been exhausted on January 8, 1913, and unless some provision is made before that time the services of Clerk of Works will have to be dispensed with.

It is absolutely necessary that his services will be needed until the latter part of March, at the earliest, and I therefore respectfully request that an appropriation in the sum of four hundred (400) dollars be made to meet this exigency.

Respectfully yours,
M. J. FISH,
Superintendent of Public Buildings.

Ordered, That under the provisions of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer the sum of four hundred dollars (\$400) from the Reserve Fund to the appropriation for City Hall Annex, to be expended in connection with the services of Clerk of Works.

Referred to the Executive Committee.

MONEY FOR TABLETS.

The following was received:

City of Boston,
Office of the Mayor, January 5, 1914.
To the City Council:

I transmit herewith a communication from the Superintendent of Public Buildings, under date of January 5, 1914, in which he states that the lowest bid received for two tablets to be placed on the City Hall Annex is \$1,160, which is \$410 in excess of the amount allowed.

I recommend, therefore, the passage of the accompanying order transferring the sum of \$410 from the Reserve Fund to the appropriation for City Hall Annex, for the tablets.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Public Buildings Department,
January 5, 1914.

Hon. John F. Fitzgerald,
Mayor of Boston:

Dear Sir,—I have received proposals from several reputable firms for the making and placing of two (2) tablets on the new City Hall Annex building, the same being in accordance with drawings submitted by Mr. Edward T. P. Graham, architect.

The lowest bid received and which appears to meet with my approval is in the sum of eleven hundred and sixty (1,160) dollars which is four hundred and ten (410) dollars in excess of an allowance in the general contract.

Therefore, I respectfully request that an appropriation in the sum of four hundred and ten (410) dollars be provided for this work.

Yours respectfully,
M. J. FISH,
Superintendent of Public Buildings.

Ordered, That under the provisions of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer the sum of four hundred and ten dollars (\$410) from the Reserve Fund to the appropriation for City Hall Annex, to cover additional expense in connection with two tablets to be placed on the building.

Referred to the Executive Committee.

LAUNDRY FACILITIES, DEER ISLAND.

The following was received:

City of Boston,
Office of the Mayor, January 5, 1914.
To the City Council:

I transmit herewith a communication from the Penal Institutions Commissioner in regard to a fire which occurred at the laundry building, Deer Island. At this fire practically all of the laundry machinery was destroyed, and the commissioner estimates that it will require an expenditure of \$10,000 to replace the loss.

I recommend, therefore, the passage of the accompanying loan order appropriating the sum of \$10,000 to be expended under the direction of the Penal Institutions Commissioner for new laundry facilities at Deer Island.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Penal Institutions Department,
January 5, 1914.

Hon. John F. Fitzgerald,
Mayor of Boston:

Sir,—As you undoubtedly have knowledge of the destruction by fire of our old laundry building at Deer Island, which contained considerable, in fact all, of our laundry machinery.

At the present time it becomes imperative that we should have supplied a sufficient amount of money to replace our loss. Under the present conditions we are entirely without laundry facilities and it is my estimate that we should be provided with at least ten thousand (10,000) dollars at once in order to carry on work of this nature at the institution.

We have had it in mind to remove all of the machinery which has been destroyed to our new laundry building, and to have provided new laundry machinery so that the new laundry building would have been an up-to-date plant. At the present time we have absolutely nothing in which to do laundry work at the institution. For this reason particularly I ask this appropriation in

order that we may take care of the emergency we find ourselves in at the present time. Under the present conditions all laundry work must be done outside at a great expense.

Respectfully,
FRED S. GORE, Commissioner.

Ordered, That the sum of ten thousand dollars (\$10,000) be and hereby is appropriated, to be expended under the direction of the Penal Institutions Commissioner for new Laundry Facilities, Deer Island, and that to meet said appropriation the City Treasurer be and hereby is authorized to issue, from time to time, upon the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

Referred to the Committee on Finance.

HIGHWAY APPROPRIATION.

The following was received:

City of Boston,
Office of the Mayor, January 5, 1914.
To the City Council:

I transmit herewith, and recommend for passage by your honorable body, the accompanying order transferring the appropriation for Geneva avenue, from Bowdoin street to Columbia road, to the appropriation for Highways, Making of.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Ordered, That under the provisions of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer the appropriation for Geneva avenue, from Bowdoin street to Columbia road, to the appropriation for Highways, Making of.

Referred to the Executive Committee.

PUBLIC CELEBRATION BILLS.

The following was received:

City of Boston,
Office of the Mayor, January 5, 1914.
To the City Council:

I am informed that there are still a number of bills in connection with public celebrations which are awaiting payment. I am also in receipt of information from the chairman of the Park and Recreation Department to the effect that the tree, electric lights, music and incidentals in connection with the celebration, which was held on the Common on Christmas Eve and New Year's Eve have entailed an expenditure of about \$2,000.

I recommend, therefore, the passage of the accompanying order transferring the sum of \$3,000 from the Reserve Fund to the appropriation for Mayor, Public Celebrations.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Ordered, That under the provisions of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer the sum of three thousand dollars (\$3,000) from the Reserve Fund to the appropriation for Mayor, Public Celebrations.

Referred to the Executive Committee.

SALARIES OF JAIL OFFICERS.

The following was received:

Commonwealth of Massachusetts,
Suffolk County Jail, January 2, 1914.

To the Honorable the City Council of the City of Boston:

Gentlemen,—I submit herewith for your kind consideration and approval the inclosed amendment to section 1 of chapter four of the Revised Regulations of 1898.

Your honorable body has recommended that the officers at the Suffolk County Jail be uniformed, and I heartily agree with the recommendation, and as the salaries of the officers at the jail have not been revised since 1898, and the cost of living has increased, I make this recommendation in order that the officers may comply with the recommendation of your Honorable City Council, without imposing any additional burden upon the officers.

Very respectfully,
JOHN QUINN, JR., Sheriff.

An Ordinance Relative to Salary of Officers at the Suffolk County Jail.

Be it ordained by the City Council of Boston, as follows:

Section one, chapter four, of the Revised Regulations of 1898, is hereby further amended as follows:

By striking out in the second line the words "eighteen hundred" and inserting in place thereof the words "two thousand"; by striking out in the fourth line the word "thirteen"; and inserting in place thereof the word "fourteen"; by striking out in the fifth line the word "twelve"; and inserting in place thereof the word "thirteen"; and by inserting after the word "dollars" in the sixth line the words "the assistant clerk" and by striking out in the seventh line the word "twelve" and inserting in place thereof the word "thirteen" so said section will read as follows:

Section 1. The chief officer connected with the County Jail shall be paid an annual salary of two thousand dollars; the steward, and the first inside officer, and the clerk, each not exceeding fourteen hundred and fifty dollars; the second and third inside officers, each not exceeding thirteen hundred and fifty dollars; the assistant clerk and the other regularly employed officers, each not exceeding thirteen hundred dollars; the watchmen and other necessary assistants, each not exceeding one thousand dollars.

Referred to the Committee on Ordinances.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; also additions to and deductions from contracts:

PARK AND RECREATION DEPARTMENT.

The Mayor has approved a contract made without advertising with M. J. Connolly for removing twelve columns from the Custom House and setting them up at Franklin Park, at a cost of \$1,750.

Notice of permission to award in *City Record*, January 10.

PUBLIC WORKS DEPARTMENT.

The Mayor has approved a contract made without advertising with the Boston Transit Commission to lay high pressure fire service pipes in Summer street, the estimated cost being \$3,000. The Boston Transit Commission is now doing work on this street and are about to lay a permanent pavement, and as they have men and materials on the work they

could do it cheaper than it could be done by another contractor, and if done by them would obviate the necessity of having two different contractors on the street.

REGISTRY DEPARTMENT.

The Mayor has approved a contract made without advertising with John W. Slavin for making annual birth canvass, the estimated cost being \$1,725.

January 6, 1914.

HON. JOHN F. FITZGERALD,
Mayor of Boston:

SIR,—Subject to your approval, I desire to make a contract, without public advertisement, with John W. Slavin for the annual birth canvass, on the same terms and conditions as were contained in the contract of last year. The estimated amount of this contract is seventeen hundred and twenty-five (1,725) dollars.

Mr. Slavin has made the annual canvass for this department for the last twenty years and has taken the school census for the School Department for a like period. He is well qualified for this special work from his long experience, which greatly adds to the value of the work performed.

Respectfully submitted,

E. W. MCGLENEN,
City Registrar.

SUPPLY DEPARTMENT.

The mayor has approved a contract made without advertising with the Darrow-Mann Company for furnishing about 500 gross tons of New River coal for the Penal Institutions Department, at \$3.92 per gross ton; an estimated total of \$1,960. Notice of permission to award in *City Record*, January 3.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved by the Mayor:

PUBLIC WORKS DEPARTMENT (Paving Service).

An addition, amounting to \$25, on contract with Warren Brothers Company for bitulithic pavement in Washington street, from Cambridge street across Market street, Brighton, on account of furnishing and laying extra concrete occasioned by change in brows. Original contract, \$24,584.80; total addition, \$25; total deductions, \$1,358.80; contract as standing, \$23,251.

An addition, amounting to \$65, on contract with McCarthy & Walsh for building concrete wall in Summer street, northerly side, between B street and viaduct, South Boston, on account of excavating extra depth as directed. Original contract, \$7,326; total addition, \$65; contract as standing, \$7,391.

An addition, amounting to \$2, on contract with James Doherty for tar macadam roadway in Kilbot street, between Park street and Talbot avenue, Dorchester, on account of hauling flagging from South End Paving Service yard. Original contract, \$4,459.10; total additions, \$1,230.30; contract as standing, \$5,689.40.

An addition, amounting to \$4,700, on contract with Central Construction Company for repairing wood block pavement in Beacon street, between Massachusetts avenue and Raleigh street, on account of substituting new blocks for old ones which were in such bad condition that a large number of them could not be used. In connection with this addition the com-

missioner says: "When the work was started it was thought that a large number of the old blocks could be relaid, but it was found later that the blocks in the street were so very bad that a large number had to be removed and new blocks substituted, and also that a greater area had to be removed and relaid than was anticipated." Original contract, \$1,998; total addition, \$4,700; contract as standing, \$6,698.

PUBLIC WORKS DEPARTMENT (Sewer Service).

An addition, amounting to \$160, on contract with William L. Dolan for sewerage works in Centre street, between Spring and Cass streets, West Roxbury, on account of removing and replacing excavated material necessitated by delay in removing Boston Elevated Railway tracks; cutting out old sheeting; cleaning and removing part of old stone culvert. Original contract, \$4,065.40; total addition, \$160; contract as standing, \$4,225.40.

Additions, amounting to \$2,963, on contract with George M. FREE MUNICIPAL DANCES.

On Wednesday evening, January 21, 1914, there will be held under the auspices of the Park and Recreation Department five municipal dances at the following gymnasiums, from 7.45 to 10.30 p. m.:

North Bennet Street Gymnasium, North End.

D Street Gymnasium, South Boston.

Ward 9 Gymnasium, South End.

Paris Street Gymnasium, East Boston.

Ward 3 Gymnasium, Charlestown.

Admission to these "assemblies" is by ticket and can be obtained by members of the various gymnasium classes. Membership in the classes can be obtained at any time by applying at any of the gymnasiums under the control of the Park and Recreation Department. These socials have passed through the trial stage and it is the intention of the commissioners to conduct them at the various gymnasiums throughout the winter season. Excellent music is furnished and all details are arranged with the idea of conducting public dances free from all the objectionable features that are to be found in the public dance halls.

APPROVAL OF PRIVATE WAY.

The Mayor has approved the location, direction, width and grade of the private way at Dorchester, designated as Hillside road, between Newhall avenue and Ashmont street (about 543 feet from Adams street), as shown on a plan approved in writing by this Board and on file in the office of the Street Laying-Out Department.

STREET COMMISSIONERS.

The Board of Street Commissioners has awarded to Benjamin F. Hill the sum of \$400 and costs, without interest, the city assuming the betterment assessments, in settlement of claim for damages to his estate by the construction of Sachem street.

TAXICAB SERVICE IN VIENNA.

The autotaxicab business in Vienna is open to anyone who secures a license, which is the same as that granted for a public cab. There are no municipal ordinances fixing types, rates, wages, etc., and traffic regulations are the same as for horse-drawn vehicles. The autotaxicab service is conducted by former cab drivers, by individuals having two or more machines with hired drivers, and by several companies. There is great variety in the cars used, among which are several American makes.

The original cost of an autotaxi in Vienna is from \$1,000 to \$3,000. The customary fares, said to be higher than in other European cities, include an initial charge (Grundtaxe) of 12 to 20 cents and from 8 to 20 cents per kilometer (0.621 miles) run, with an extra charge for baggage, for more than four persons, and for waiting. The cost of gasoline is 33 cents per gallon. A driver receives about 80 cents per day and a commission, which is usually 10 per cent of the receipts if he turns in over \$5 per day. It is claimed that there is a return to the small owner only after a traffic of at least 36 miles per day (allowing for the car being empty for half that distance) and the consequent receipt of over \$5.60. The large companies operate at a slightly smaller expense.

The popular outcry against excessive charges, estimated at three times the rate in Paris, and the demand for uniformity of service will doubtless soon result in the whole business being put under police regulation.—Consular Report.

FINANCE COMMISSION.

BOSTON, January 15, 1914.

To the Honorable the City Council:

GENTLEMEN,—The Finance Commission respectfully submits the following report upon the pending ordinances for the increase of \$1,000 in the salary of each of the three Street Commissioners, and the increase of \$500 in the salary of each of the fifty assistant assessors, and upon the pending order for the transfer of \$150,000 from the existing appropriation for street lighting equipment, to a special appropriation for a new police station in Division 2.

The order providing for the increase of the salaries of the Street Commissioners was introduced yesterday by a member of the City Council. The order for the increase of the salaries of the first assistant assessors was originally introduced on May 15, 1913, and was passed, but was vetoed by the Mayor on June 20, 1913. On November 10, 1913, it was reintroduced. The order for the transfer of \$150,000 from the street lighting appropriation was introduced yesterday by the Mayor. As these two ordinances and the transfer order may be made effective before February 2, 1914, the date when the Mayor-elect is to assume office, the Finance Commission believes that action on these various matters should be postponed until after that date, as the Mayor-elect is entitled to pass upon the questions involved.

It is not in accordance with sound financial policy to authorize increases of salaries near the close of the fiscal year. It would improve the financial system of the city if all prospective salary increases were incorporated in the departmental estimates and if no salary increases were made during the ensuing year except those which have been allowed in the budget. This would stop the pernicious practice of making increases in salaries shortly prior to election for the purpose of influencing the election, and it would also prevent the fulfillment after election of anti-election promises of salary increases.

The commission trusts that the budget for the fiscal year 1914-15 will provide for all increases in salaries which are to take effect during that year. During the remainder of the present fiscal year salaries not fixed by ordinance can be increased by the Mayor without the consent of the Council, but the Council has the power to prevent the passage of ordinances which increase salaries. If the pending order to increase the salaries of the Street Commissioners is made effective prior to February 2, 1914, the Mayor-elect will probably be unable to prevent his administration from being burdened by this addition of \$3,000 to the annual pay roll, as the Council, having passed the ordinance, will not be likely to stultify itself by repealing it. The Finance Commission believes the Mayor-elect is entitled to fair play, and it trusts that the Council will take the same view of the situation by postponing consideration of this ordinance until the Mayor-elect has had an opportunity to give it careful consideration. The commission also believes that the present salaries of the Street Commissioners, \$4,500 for the chairman and \$4,000 for each of his associates, is ample compensation for the work performed, and that it would be contrary to the city's interests to increase such salaries.

For similar reasons the ordinance for the increase of \$500 in the annual salaries of each of the first assistant assessors should be postponed until after the begin-

ning of the next administration. If it should be passed prior to February 2, 1914, it would impose a new burden of \$25,000 a year on the city without the consent of the incoming Mayor.

For similar reasons the Council should withhold from present consideration the order which the Mayor submitted yesterday, providing for a transfer of \$150,000 from the appropriation of \$300,000 for street lighting equipment, to a special appropriation for a new police station for Division 2. The proposed transfer involves two important questions of policy.

1. If the transfer is made the appropriation for street lighting equipment will be reduced from \$300,000 to \$150,000 and the latter sum will not be sufficient to provide the street lighting equipment which the city will have to furnish if the contract with the Rising Sun Street Lighting Company is terminated, and electric lamps are not substituted for gas lamps. The commission has been informed that within a few months the experiments will be completed which are being made by the General Electric Company with the new electric lamp, which is expected to cost only a little more than the present tungsten lamp, but to have double its efficiency. When these experiments have been completed the Council will be able to determine whether it would be better to use the new electric lamp for street lighting instead of the gas lamps which are now in use, or to use inverted mantle gas lamps, together with automatic lighting and extinguishing devices, which were provided for by the appropriation of \$300,000 on June 30, 1911, for new gas lighting equipment. If it should appear that the new type of electric lamp, which is now being experimented upon, could not be used to the city's advantage, then it would be necessary to have on hand the entire \$300,000 which has been appropriated for new gas lighting equipment. The city should not be forced to continue the present disadvantageous contract with the Rising Sun Street Lighting Company. If it should appear, however, that the new electric lamp could not be used to advantage, the city would be compelled to continue the contract with the Rising Sun Street Lighting Company, unless the Mayor and City Council should provide an additional appropriation of \$150,000 to restore the amount which it is proposed to transfer. The city ought not to be left exposed to the danger that this \$150,000 might not be appropriated. These considerations make it clear to the commission that it would be unwise to provide for a new police station by the proposed transfer of money from the street lighting equipment loan. A new police station seems to be necessary, but the funds should be provided in some other way.

2. It is doubtful whether it is good policy to place a police station, as proposed, upon such valuable land as that which is occupied by the old probate building. This land is assessed on an average of \$70 per square foot. A police station ought not to be placed upon such valuable land, if it is possible to find an appropriate site where the land is cheaper.

The commission recommends that until the Mayor-elect has taken office the City Council delay action upon

1. The pending order to increase the salaries of the Street Commissioners.

2. The pending order to increase the salaries of the first assistant assessors.

3. The pending order to transfer \$150,000 from the loan for street lighting

equipment to a special appropriation for a new police station for Division 2.

Respectfully submitted,

THE FINANCE COMMISSION,
by JOHN A. SULLIVAN,
Chairman.

Special meeting of the City Council held in the Council Chamber, City Hall, at three o'clock p. m., President KENNY in the chair. Absent—Coun. Coulthust.

The Clerk read the call for the meeting as follows:

City of Boston,

Office of the Mayor, January 9, 1914.

To the Members of the City Council:

You are respectfully requested to assemble in the City Council Chamber, City Hall, on Wednesday, January 14, 1914, at three o'clock, for the purpose of considering the financial orders now before your honorable body and for the transaction of such other business as may properly come before you.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Placed on file.

APPOINTMENTS BY THE MAYOR.

The following were received:

City of Boston,

Office of the Mayor, January 14, 1914.

To the City Council:

Subject to confirmation by your honorable body, I hereby appoint John William Sheeran (5 Millmont street, Ward 21), William C. Gregory (16 Pearl street, Ward 20), as Constables of the City of Boston for the term ending April 30, 1914.

Respectfully,

JOHN F. FITZGERALD, Mayor.

January 14, 1914.

To the City Council:

Subject to confirmation by your honorable body, I hereby make the following appointments for the term ending April 30, 1914:

Weights of Coal.—Harry E. Adams (63 University road, Brookline, Mass.), Charles E. Ordway (86 Central avenue, Revere, Mass.).

Respectfully,

JOHN F. FITZGERALD, Mayor.

Severally laid over under the law.

TRANSFER OF LAND.

The following was received:

City of Boston,

Office of the Mayor, January 14, 1914.

To the City Council:

I transmit herewith a copy of an indenture between the City of Boston and the Metropolitan Park Commission transferring to the City of Boston the care and control of a parcel of land situated in the Stony Brook Reservation, Hyde Park. It is the intention of the Park and Recreation Department to use this land for playground purposes, and I recommend the passage of the accompanying order authorizing the acceptance of the care, custody and control of this land.

Respectfully,

JOHN F. FITZGERALD, Mayor.

(A copy of the indenture was sent with the message.)

Ordered, That his Honor the Mayor be authorized to execute in the name and behalf of the City of Boston, an indenture with the Metropolitan Park Commission, a copy of which is hereto annexed, accepting from the Commonwealth of Massachusetts the care, custody and control, including police protection of a certain parcel of land in Boston, shown on Metropolitan Park Commissioners' plan No. 650, entitled "Commonwealth of Massachusetts, Metropolitan Park Commission, Stony Brook Reservation, plan of land in Boston to be transferred to the City of Boston for care and control for playground purposes . . . September 17, 1913, John R. Rablin, Engineer."

Referred to the Committee on Public Lands.

REDUCTION OF SET-BACK.

The following was received:

City of Boston,

Office of the Mayor, January 14, 1914.

To the City Council:

I transmit herewith a communication from the chairman of the Park and Recreation Department, accompanied by petitions signed by the owners of lots on the Riverway, between the northerly intersection of Brookline avenue with the Riverway and the southerly intersection of Brookline avenue with

the Riverway, asking that the restriction of setback on their lands be reduced from 25 feet to 20 feet.

I recommend, therefore, the passage of the accompanying order authorizing the amendment of the restriction in accordance with the petitions.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Park and Recreation Department,
January 3, 1914.

Hon. John F. Fitzgerald,
Mayor of Boston:

Dear Sir,—The owners of the lots fronting on the Riverway, between the northerly intersection of Brookline avenue with the Riverway and the southerly intersection of said avenue and the Riverway, have petitioned the City Council to have the restriction of setback now on their lands reduced from 25 feet to 20 feet, owing to the shallowness of their lots and because it affects the sale and development of the lands by buildings.

We think it would tend to increase the taxable value of the property if this petition is granted, and recommend that, should the City Council decide to take favorable action, we be authorized, with the approval of the Mayor, to amend the restrictions in accordance with said petition on the lands referred to, and in other cases where similar conditions occur.

Yours respectfully,
D. H. SULLIVAN, Chairman.

Boston, December 8, 1913.

To the City Council:

Whereas, The undersigned, owners of the lots and lands abutting on that portion of the parkway known as the Riverway, beginning at the northerly intersection of Brookline avenue with the Riverway and extending thence westerly and southerly to the southerly intersection of said avenue with the Riverway, believing that because of the shallow depth of the lots along this part of the parkway the restrictions now on these lands, which require buildings to be set back 25 feet from the parkway line, tend to restrict building operations and prevent the occupation and use of this frontage for the high class of buildings which the restrictions call for;

We hereby covenant and agree with each other that said restrictions be modified so as to require a setback of 20 feet instead of 25 feet, and join herein in petitioning the City Council to modify the said restrictions accordingly.

Ordered, That the Board of Park and Recreation Commissioners, with the approval of the Mayor and by an instrument or instruments satisfactory to the Law Department, may in the name and behalf of the city modify and amend the restrictions contained in deeds or agreements given to the city by the owners of lands abutting on the Riverway, between the northerly intersection of Brookline avenue with the Riverway and the southerly intersection of said avenue with the Riverway by reducing the distance from the exterior line of said park required for the setting back of buildings on such abutting lands from twenty-five feet to twenty feet.

Referred to the Committee on Public Lands.

REMOVAL OF RESTRICTIONS.

The following was received:

City of Boston,
Office of the Mayor, January 14, 1914.
To the City Council:

I transmit herewith a petition from Mr. J. Porter Russell, clerk and attorney, Franklin Square House, asking that the restrictions affecting their land adjoining the South Burial Ground be removed in order that a building may be erected upon the land.

I recommend, therefore, the passage of the accompanying order authorizing the removal of these restrictions.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Boston, January 14, 1914.

To the Honorable the City Council:

The Franklin Square House hereby petitions your honorable body that the restrictions contained in a deed given by the City of Boston to one Davis, dated September 15, 1865, affecting land of your petitioner adjoining the South Burial Ground, may be removed so that your petitioner may be able to erect a building upon its said land.

FRANKLIN SQUARE HOUSE,
by J. PORTER RUSSELL,
Clerk and Attorney.

Ordered, That his Honor the Mayor be and he hereby is authorized to execute an instrument satisfactory to the Law Department by which the restrictions on land of the Franklin Square House, adjoining the South Burial Ground, may be removed, said restrictions being those contained in a deed from the City of Boston to one Davii, dated September 15, 1865.

Referred to the Executive Committee.

SKATING, FRANKLIN PARK.

The following was received:

City of Boston,
Office of the Mayor, January 14, 1914.
To the City Council:

I transmit herewith a communication from the chairman of the Park and Recreation Department, under date of January 12, regarding accommodations for skating at the playstead, Franklin Park, and the Parker Hill Reservoir.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Park and Recreation Department,
January 12, 1914.

Hon. John F. Fitzgerald,
Mayor of Boston:

Dear Sir,—The Board has received and considered the inclosed order of the City Council, requesting that the playstead at Franklin Park and the Parker Hill Reservoir be prepared for skating purposes, and will see that skating is provided at these places if the weather permits.

Yours respectfully,
D. H. SULLIVAN, Chairman.

Placed on file.

MONEY FOR ANNEX STEPS.

The following was received:

City of Boston,
Office of the Mayor, January 14, 1914.
To the City Council:

I transmit herewith a communication from the Superintendent of Public Buildings, under date of January 9, in which he states that the lowest bid received for granite steps for the City Hall Annex is \$4,600. The amount allowed in the general contract for this work is \$3,500.

I recommend, therefore, the passage of the accompanying order transferring the sum of \$1,100 from the Reserve Fund to the appropriation for City Hall Annex, to be expended under the direction of the Superintendent of Public Buildings for the erection and completion of granite steps.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Public Buildings Department,
January 9, 1914.

Hon. John F. Fitzgerald,
Mayor of Boston.

Dear Sir,—The following proposals received this day in response to an advertisement in the *City Record* for erecting and completing entrance steps and buttresses to the City Hall Annex building:

W. A. Murtfeldt Company:
Item 1..... \$4,600 00
Item 2..... 3,222 00
Wells Brothers Company of New York:
Item 1..... \$6,130 00
Item 2..... 5,500 00

For your further information, I would say that the allowance in the general contract for this work is \$3,500.

Respectfully yours,
M. J. FISH,
Superintendent of Public Buildings.

Ordered, That under the provisions of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer the sum of one thousand one hundred dollars (\$1,100) from the Reserve Fund to the appropriation for City Hall Annex, to be expended under the direction of the Superintendent of Public Buildings for granite steps.

Referred to the Executive Committee.

To the City Council:
I transmit herewith and recommend for passage by your honorable body the accompanying order

transferring the sum of \$150,000 from the appropriation for Street Lighting Equipment of the Public Works Department to an appropriation to be expended under the direction of the Superintendent of Public Buildings for New Police Station, Division 2.

My reason for wishing this transfer are contained in my message to your honorable body, dated August 26, 1912, at which time the City Council authorized the transfer of \$10,000 from the Reserve Fund for plans for new police stations in Divisions 2, 6 and 15.

I quote from my message of that date: "In 1909 a special committee of the Board of Aldermen, consisting of Messrs. Attridge and Hale, investigated the accommodations for persons awaiting trial in the various municipal court buildings and police stations. . . . After reciting the conditions as they found them, the committee ended its report with the following words: 'We feel sure that whoever realizes what the conditions in Boston are, and how vitally these conditions affect the public health and public morals, will also realize that this state of affairs must cease, and this disgrace to the city must be wiped out no matter what the cost.' . . . Station 2, with other city stations, was specifically pointed out as a station in which conditions are very bad indeed."

The building is to be erected on the site of the old Registry of Deeds, Court square, and it is expected that the proceeds from the sale of the old building now occupied by Division 2, together with the transfer of \$150,000, which I now recommend, will be sufficient to provide for the construction of a suitable building for the district.

I trust that your honorable body will give this matter its earnest consideration.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Ordered, That under the provisions of chapter 261 of the Acts of 1893, the City Auditor be and hereby is authorized to transfer the sum of \$150,000 (one hundred and fifty thousand dollars) from the appropriation for Public Works Department, Street Lighting Equipment, to an appropriation to be expended under the direction of the Superintendent of Public Buildings for New Police Station, Division 2.

City of Boston,
Office of the Mayor, January 14, 1914.
Hon. John F. Fitzgerald,
Mayor of Boston:

Dear Sir,—I think it will be possible to dispose of the property on City Hall avenue known as Station 2, consisting of 2,029 square feet of land, assessed for \$105,500, and a three and one-half story brick building, assessed for \$9,500, making a total valuation of \$115,000, for about \$125,000. This is about \$62 a square foot.

Yours very truly,
JOHN C. KILEY,
Real Estate Appraiser.

Boston, Mass., December 30, 1913.
Mr. H. H. Atwood, Architect,
61 Alban street, Dorchester, Mass.:

Dear Sir,—We have approximated the cost for the erection and completion of Police Station 2, 34 Tremont street, Boston, Mass., to be \$261,500, same to be built as per plans drawn by Mr. H. H. Atwood, architect. Outside walls to be built of granite and limestone.

Yours truly,
A. VARNERIN COMIANT,
by A. VARNERIN,
Treasurer.

Referred to the Executive Committee.

Dudley School.....	500	500	500
Martin School.....	500	500	500

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; also additions to and deductions from contracts:

ART DEPARTMENT.

In view of the representations contained in the following communication, the Mayor has granted authority to award a contract, without advertising, to A. H. Atkins, as the sculptor for the proposed "Copenhagen Fountain," the granite, marble and plumbing to be included, but not the foundation, for the sum of \$5,000.

January 17, 1914.

HON. JOHN F. FITZGERALD,

Mayor of Boston:

DEAR SIR,—I am directed to inform you that this commission has voted to request your Honor's permission to enter into a contract for \$5,000 with Mr. A. H. Atkins, sculptor, for the proposed "Copenhagen Fountain," without advertising for bids; Mr. Atkins to employ Mr. Huguer Elliot as his consulting architect, and to furnish a monumental drinking fountain in granite and marble; plumbing, but not the foundations, to be included.

The commission directs me to explain that great care, necessitating the expenditure of considerable time, has been taken in securing a design by a sculptor of ability; and to record its conviction that it would be impossible, through a competition, to secure for the money anything like so satisfactory a design.

Yours respectfully,

A. W. LONGFELLOW, JR.,
Secretary pro tem.

Passed.

ALEXANDER'S SPELLING BOOKS, PARTS 1 AND 2.

The following communication was received from the Business Agent, under date of Jan. 10, 1914:—

I have been advised that the report of the Superintendent and the Board of Superintendents, to whom was referred on Nov. 17, 1913 (see p. 189), a communication from the Business Agent recommending that because of the advance in price of the Alexander Spelling Books, Parts I and II, these books be dropped from the authorized list, which was presented and laid on the table at the meeting of Dec. 15, 1913 (see p. 209), was taken from the table Jan. 5, 1914 (see p. 221), the recommendation adopted and the communication placed on file.

I respectfully request that the above action be reconsidered. I have read with much care the above reports, and submit that the reasons advanced are not sufficient to justify the School Committee in permitting the publishers of the books under discussion to advance their prices 12½ and 14½ per cent.

The Board of Superintendents states that it is of the opinion that "it would be unfair to consider the prices of the books as originally quoted as a guarantee that they would never be increased under any circumstances. The publishers claim that they were losing money on the books, and the Board is of the opinion that if a principal of a district feels that the Alexander Spellers are of sufficient value to his school to warrant the increased expenditure, he should be at liberty to purchase them, in view of the fact that the expenditure is chargeable to his per capita allowance for supplies and incidentals. If, on the other hand, he does not consider the books of sufficient worth to warrant such expenditure, he is at liberty to purchase other spellers from the Authorized List."

The authorization of a book is the approval not only of its educational quality, but of the price agreed upon at the time the book is authorized. Clearly the two must be taken into consideration at all times. To change the price is as much a breach of the contract as to change the text of the book. This holds true at the end of four years just as much as it does at the end of one or two. The statement that if the principal of a district feels that the Alexander Spellers are of sufficient value to his school to warrant the increased expenditure, he should be at liberty to purchase them, is shifting the responsibility of deciding whether the advance in price should be permitted from the Board of Superintendents to the principal. The principal clearly must confine his requisitions to books on the authorized list, and the other spellers to which he would have to turn if the Alexander Spellers were dropped from the list must be treated in the same manner as the Alexander Spellers,—that is, only authorized if their educational material and price are satisfactory.

The Board of Superintendents states that when new books are under consideration by that Board for adoption for school use "it is customary to consider the cost of the books offered, but the price of the book must be commensurate with its value as an educational factor in the school and not merely as a manufactured article. If in the judgment of the Board the price asked is not out of proportion to the intrinsic and educational value of the book, it does not interfere with its adoption."

The Board of Superintendents also calls attention to the fact that the cost of the Alexander Spellers, even at the increased price, is not greater than that of other spellers on the authorized list, but the School Committee should bear in mind that at the time of the adoption of such books the other spellers were higher in price, and I presume the Board of Superintendents took into consideration the fact that "their value as an educational factor in the school" was higher than that of the Alexander Spellers. It therefore follows that if the publishers of the Alexander Spellers are permitted to increase their price to the substantial extent that they have that the other publishers can fairly claim to be granted the same privilege and thus restore the differential which obtained at the time these books were authorized.

The statement that "the Board of Superintendents is clearly of the opinion that principals should be the ones to determine what books and materials will be of greatest value to their schools, and should be allowed to expend the appropriation for such material in such manner as shall to them seem wise, under the supervision and with the advice of the Assistant Superintendent in charge, and in accordance with the Rules and Regulations," seems to me to be wholly in harmony with the existing practice, but has absolutely nothing to do with the case under consideration.

I also note the recommendation of the Board that "if hereafter the price of any book on the authorized list is increased, the Business Agent shall immediately notify the Board, and the Board will then consider the advisability of reauthorizing the book at the advanced price." It seems clear to me that unless such books are dropped from the authorized list on account of such increase in price that there will be no end of such reauthorization. I would state that in the event of such advance in price, I shall again recommend to your Board that such books be dropped from the list.

I wish to enter this public protest against permitting the publishers of this book to advance the price, and again earnestly recommend that Alexander's Spellers, Part I and Part II, be dropped from the authorized list.

The communication was placed on file, and

On motion, it was ORDERED, That the Business Agent is hereby instructed to purchase no additional copies of Alexander's Spelling Books, Parts I and 2, at a price in excess of that in effect at the time these books were originally placed upon the authorized list, and that the attention of the principals of elementary school districts be called to the action of the publishers in advancing the price of this book after its adoption, and the action taken by the Board with respect thereto.

REPORT ON NEEDS OF CHILDREN REQUIRING SPECIAL ATTENTION.

A communication was received from the Director of School Hygiene, under date of Jan. 16, 1914, transmitting a report of the Advisory Committee on School Hygiene in response to the order passed at the meeting on Dec. 15, 1913 (see p. 214) substantially as follows:—

The Committee is of the opinion that the present number of open air classes is wholly inadequate to care for any more than a small fraction of children needing such treatment and has voted to recommend that the number of such classes be increased as fast as possible.

That some modification be made in the psychic and physical conditions of curriculum whereby anaemic and debilitated children, not yet in open air classes, may be placed under conditions better fitted to their needs.

That in the opinion of the Committee there are probably 700 cases of cardiac disease in the schools, and in its opinion these cases should be placed in open air classes, and, so far as possible, that they be saved from physical and psychic strain. That so far as practicable the school nurses be instructed to impress upon parents of children suffering from cardiac disease the importance of abundance of food and sleep for such children.

That there is also a large number of mentally defective children, of the moron type, not now in special classes; that this type of defective child should be considered an institutional case; and that as rapidly as possible, all such children should be placed in institutions rather than in special classes in the schools.

Referred to Messrs. Lee and Leen for consideration and recommendation.

AMENDMENTS TO RULES AND REGULATIONS.

The following was offered:—

ORDERED, That the rules and regulations be amended as follows:—

Section 102, paragraph 3. Strike out in the first and second lines the words "with the approval of the board of superintendents" so that the paragraph will read as follows:—

3. He shall establish a plan of management and control of school athletics, and issue from time to time and enforce such regulations, not contrary to the rules and regulations of the Board as may be necessary to put this plan in operation.

Section 111. Strike out the section and substitute in place thereof the following:—

Section 111. 1. He shall annually, in the month of June, obtain reports from the principals of the various schools, on suitable forms, of the standing in scholarship and conduct of the pupils belonging to the graduating grades and classes, with the recommendations of the principals as to the granting of diplomas, and shall determine the award of the same.

2. He shall also, near the close of the term of the evening schools, approve the questions to be used in the examination of pupils who are candidates for diplomas, obtain suitable reports from the respective principals of the results of such examinations, and decide the award of diplomas.

3. He shall decide the award of Franklin medals.

4. He may order special examinations of any class or grade at his discretion.

Section 126. Strike out clause numbered (3) as follows: (3) any member of the Board who shall formally present such request for insertion in the minutes of the Board—so that the paragraph will read as follows:—

Section 126. The board of superintendents shall give written opinions on any question when so requested by (1) the superintendent, (2) the Board or any sub-committee thereof.

Section 131. Strike out the section.

Section 132. Strike out the section.

Section 133. Strike out the section.

Section 134. Strike out the section.

Section 150. Strike out paragraph 1 and substitute in place the following:—

Section 150. 1. The board of apportionment shall consist of the superintendent, two members appointed by the superintendent, and the business agent.

Paragraph 3. Strike out the paragraph.

Section 299, paragraph 1. Strike out in the fifth and sixth lines the words "with the approval of the board of superintendents," so that the paragraph will read as follows:—

Sect. 299. 1. The teachers of manual training in the elementary schools shall be instructors and assistant instructors. They shall be appointed to the corps of manual training teachers, and assigned by the superintendent to service in one or more schools, in accordance with the requirements of the course of study. The number of instructors shall not exceed the number of schools attended exclusively by boys in grades above the third, and they shall be assigned to such schools.

Section 306. Strike out in the third and fourth lines the words "with the approval of the board of superintendents," so that the section will read as follows:—

Sect. 306. Teachers of sewing, cookery, and other special teachers shall be assigned by the superintendent to service in one or more schools in accordance with the requirements of the course of study.

Section 380, paragraph 2. Strike out the words "director of school hygiene," at the close of the paragraph, and substitute in place thereof the word—superintendent, so that the paragraph will read as follows:—

2. Pupils shall be admitted to special classes on probation by the teacher thereof. Pupils shall be regularly admitted to such classes on the recommendation of the medical inspector of special classes; and discharged therefrom on the recommendation of the supervisor of special classes; both subject to the approval of the superintendent.

Section 422, paragraph 1. Strike out in the second and third lines of said paragraph the words "director of school hygiene," and substitute in place thereof the word—superintendent.

Paragraph 2. Strike out in the second and third lines of said paragraph the words "director of school hygiene," and substitute in place thereof the word—superintendent, so that the section will read as follows:—

Sect. 422. 1. The supervisor of special classes shall, under the direction of the superintendent, have general supervision and control over special classes.

2. She shall keep such records and make such reports as may be required by the superintendent.

Section 426, paragraph 1. Strike out in the sixth and seventh lines the words "of special classes" so that the paragraph will read as follows:—

Sect. 426. 1. The director of school hygiene shall have general supervision and direction of all matters affecting the physical welfare of pupils and teachers, of observance of regulations of the Board with respect to room temperature and humidity, ventilation and sanitation; of seating of pupils; of open and fresh air classes; of medical inspection, except that under the control of the board of health; of school nursing and allied matters. He shall also have general supervision over physical training and military drill, athletics, sports, games and play.

Section 427, paragraph 2. Strike out in the third and fourth lines the words "with the approval of the Board of Superintendents" so that the paragraph will read as follows:—

2. He shall be charged with the enforcement of such rules for the management and control of school athletics as the superintendent may from time to time establish.

Section 433, paragraph 1. Strike out in the third and fourth lines of the paragraph the words "director of school hygiene" and substitute in place thereof the word—superintendent.

Paragraph 2. Strike out in the second and third lines the words "director of school hygiene" and substitute in place thereof the word—superintendent—so that the section will read as follows:—

Sect. 433. 1. The medical inspector of special classes shall perform such duties in connection therewith as may be assigned to him by the superintendent.

2. He shall keep such records and make such reports as may be required by the superintendent.

Laid over.

DUTIES OF TEACHERS WITH RESPECT TO TEMPERATURE IN SCHOOL ROOMS.

The following was offered:—

ORDERED, That the regulations be amended as follows:—

Section 231. Strike out paragraph 2. Re-number paragraphs 3, 4 and 5 respectively as paragraphs 2, 3 and 4.

Laid over.

The following was offered:—

ORDERED, That so much of the order passed at the meeting of Jan. 5, 1914 (see p. 222) in regard to the temperature of school rooms as referred to the keeping of records of temperature by the teachers be rescinded, and that the Superintendent suggest, instead, that teachers can often secure the same result, with greater benefit to the children, by appointing a hygiene committee among the pupils, with this and other duties relating to heating, cleanliness of floors and windows, and ventilation, as recommended by a committee of the National Education Association, July, 1913.

Laid over.

ESTABLISHMENT OF DEPARTMENT OF EDUCATIONAL INVESTIGATION AND MEASUREMENT.

The following was offered:—

ORDERED, That a department of educational investigation and measurement be established to consist of a director and such clerical assistants as may from time to time be necessary, the purpose of said department being to promote educational efficiency and economy in administration and executive procedure in the schools; to promote the investigation and professional study of school problems and the development of standards of achievement in the various subjects and grades of school work; to develop a system of promotion of teachers after appointment on the basis of merit; to conduct independent investigations under the Superintendent and the School Committee, such as the workings of the new child labor law, retardation of children, elimination of pupils in the high schools; to conserve the benefits of the testing work of recent years; and, in general for the purpose of organizing on a permanent basis a testing and research department.

ORDERED, That the salary of the Director of the Department of Educational Investigation and Measurement be fixed at \$3780 per annum.

Laid over.

PROCEEDINGS OF CITY COUNCIL.

Friday, January 16, 1914.

Meeting of the City Council, held in the Council Chamber, City Hall, at three o'clock p. m., President KENNY in the chair. Absent—Coun. Coulthurst.

The Council voted, on motion of Coun. McDONALD, to dispense with the reading of the records of the last meeting.

GOLF LINKS, FRANKLIN PARK.

The following was received:

City of Boston,

Office of the Mayor, January 16, 1914.

To the City Council:

I transmit herewith, and recommend for passage by your honorable body, the accompanying order appropriating the sum of \$10,000 from the income of the Parkman Fund for Golf Links, Franklin Park.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Ordered, That the sum of ten thousand dollars (\$10,000) be and hereby is appropriated from the income of the Parkman Fund, to be expended under the direction of the Park and Recreation Department for Golf Links, Franklin Park.

Referred to Committee on Parkman Fund.

NEW BUILDING, WAYFARERS' LODGE.

The following was received:

City of Boston,

Office of the Mayor, January 16, 1914.

To the City Council:

I transmit herewith a communication from the chairman of the Board of Overseers of the Poor, calling attention to the need of a new building for the Wayfarers' Lodge. The chairman states that the building which is now in use is the property of the School Department, and that it is old and not at all adapted for the purposes of the lodge.

I recommend, therefore, the passage of the accompanying order transferring the sum of \$3,000 from the Reserve Fund to an appropriation to be expended under the direction of the Board of Overseers of the Poor for New Building, Wayfarers' Lodge, plans and estimates.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,

Board of Overseers of the Poor,
January 16, 1914.

Hon. John F. Fitzgerald,

Mayor of Boston:

Sir,—At a meeting of the Board of Overseers of the Poor, held on the seventh day of January, 1914, it was unanimously voted that the chairman should ask the Mayor for an appropriation sufficiently large to erect a new building for the Wayfarers' Lodge.

The building now used as a Wayfarers' Lodge belongs to the School Department and is loaned by them to the Overseers of the Poor; it is old, and although a great deal of money has been spent upon it, it is ill adapted for the purposes of the lodge, and the yard room is insufficient to accommodate the wood and give room to work the lodgers. The need of a new building has been stated in several of my annual reports and is emphasized at this time by the increasing difficulty with which the men applying for a night's lodging are accommodated. Several times recently our accommodations have been overtaxed, more men applying for lodging than we could give proper beds, so that we have been obliged to have them sleep upon the floor, or upon benches, or sit up all night.

Owing largely, as we believe, to our insisting upon each lodger taking a bath and doing a moderate amount of work in the morning the problem of caring for homeless men is better cared for in Boston than in other large cities in the past. We wish for a new building in order that we may take care of the increased number of applicants caused primarily by the natural increase in population, and secondly, because, owing to wise laws and a rigid application of them throughout the country districts of the state, tramps find no home except in the large cities.

Trusting that we may secure the appropriation asked for, I am,

Yours respectfully,

WILLIAM P. FOWLER, Chairman.

Ordered, That under the provisions of chapter 261 of the Acts of 1893, the City Auditor be and hereby is authorized to transfer the sum of three thousand dollars (\$3,000) from the Reserve Fund to an appropriation to be expended under the direction of the Board of Overseers of the Poor for New Building, Wayfarers' Lodge, Plans and Estimates.

Referred to the Executive Committee.

EXTENSION OF WASHINGTON STREET, WEST ROXBURY.

The following was received:

City of Boston,
Office of the Mayor, January 16, 1914.
To the City Council:

My attention has been called to the desirability of accepting chapter 799 of the Acts of 1913, entitled "An Act to Provide for the Laying Out, Widening, Extension and Construction of Washington Street in the West Roxbury District of the City of Boston."

I recommend, therefore, the passage of the accompanying order accepting this act, in accordance with section 5, which states that the act shall take effect upon its acceptance by the City Council, with the approval of the Mayor.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Ordered, That chapter 799 of the Acts of 1913, entitled "An Act to Provide for the Laying Out, Widening, Extension and Construction of Washington Street in the West Roxbury District of the City of Boston," be and hereby is accepted.
Referred to the Executive Committee.

SALE OF STATION 2 PROPERTY.

The following was received:

City of Boston,
Office of the Mayor, January 16, 1914.
To the City Council:

I submit herewith and recommend for passage by your honorable body the accompanying order authorizing the sale of the property on Court square, known as Station 2.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Ordered, That in accordance with the provisions of chapter 263 of the Acts of 1913, the Board of Street Commissioners be hereby authorized, with the approval of the Mayor, to sell the land and building now occupied as a station house by the Police Department on Court square.
Referred to the Committee on Public Lands.

POLICE DEPARTMENT BUILDINGS.

The following was received:

City of Boston,
Office of the Mayor, January 16, 1914.
To the City Council:

I desire to call your attention to chapter 263 of the Acts of 1913, entitled "An Act to Authorize the Erection of a Building for the Police Department of the City of Boston and Other Boards, Departments and Commissions." Section 5 of this chapter provides that the act shall take effect upon its acceptance by the Mayor and City Council.

I recommend, therefore, the passage of the accompanying order accepting chapter 263 of the Acts of 1913.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Ordered, That chapter 263 of the Acts of 1913, entitled "An Act to Authorize the Erection of a Building for the Police Department of the City of Boston and Other Boards, Departments and Commissions," be and hereby is accepted.
Referred to the Committee on Finance.

LIGHTING OF EXITS.

The following was received:

City of Boston,
Office of the Mayor, January 16, 1914.
To the City Council:

I transmit herewith a communication from the Building Commissioner, under date of January 16, in reply to the order passed by your honorable body relative to the lighting of exits in hotels and places of public amusement.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Building Department, January 16, 1914.
Hon. John F. Fitzgerald,
Mayor of Boston:

Sir,—Herewith you will please find the order of the City Council of January 5.

I have to report that at all times of inspection the law relative to lighting exits in hotels and places of public amusement have been found to be complied with.

No complaints of violations of this provision of the law have reached me from inspectors or others.

Yours respectfully,
ARTHUR G. EVERETT,
Building Commissioner.

Placed on file.

TRANSFER FROM MCKENZIE BEACH APPROPRIATION.

The following was received:

City of Boston,
Office of the Mayor, January 16, 1914.
To the City Council:

I transmit herewith a communication from the chairman of the Park and Recreation Department, under date of January 16, in which he states that the appropriation of \$2,000 for McKenzie Beach Improvements is entirely inadequate, and recommending its transfer to some other appropriation.

I recommend, therefore, the passage of the accompanying order transferring the appropriation for McKenzie Beach Improvements to an appropriation for Strandway Improvements.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Park and Recreation Department,
January 16, 1914.
Hon. John F. Fitzgerald,
Mayor of Boston:

Dear Sir,—In our communication to you of November 24, referring to sundry balances of appropriations, we suggested that the appropriation of \$2,000 for McKenzie Beach Improvement was entirely inadequate for any work which should be done there, and that it could be better used for some other object, such as the Zoological Garden and Aquarium, to transfer the marble columns from the Custom House and provide foundations for them.

We recommend that this balance be either transferred for this purpose or to an appropriation for Strandway Improvements.

Yours respectfully,
D. H. SULLIVAN, Chairman.

Ordered, That under the provisions of chapter 261 of the Acts of 1893, the City Auditor be and hereby is authorized to transfer the appropriation of two thousand dollars (\$2,000) for McKenzie Beach Improvements to an appropriation for Strandway Improvements.

Referred to the Executive Committee.

MUNICIPAL STANDARD AND CITY FLAG.

City of Boston,
Office of the Mayor, January 16, 1914.
To the City Council:

I transmit herewith and recommend for adoption by your honorable body the accompanying draft of an ordinance establishing the Municipal Standard and City Flag of the City of Boston. I transmit also three cuts of the proposed municipal standard.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Columbus Day Committee Headquarters,
January 12, 1914.

Hon. John F. Fitzgerald,
Mayor of Boston:
Dear Sir,—The Columbus Day Committee of 1913, at its final meeting after that celebration, voted to recommend to the Mayor and City Council the adoption of a City Flag, and that the design used on Columbus Day for the first time be adopted.

In accordance with this action by the committee I have prepared the accompanying draft of an ordinance, which is submitted for consideration. It is based upon similar ordinances in other cities, particularly Philadelphia and Cleveland.

The inclosed draft names a "Municipal Standard" to be of silk and a bunting "City Flag" for ordinary purposes.

The Art Commission was consulted by the Columbus Day Committee and members of that commission approved the design which was adopted from many suggestions because of its dignity, simplicity and appropriateness for Boston.

Very truly,
E. B. MERO,
Secretary.

Draft of an Ordinance Establishing the Municipal Standard and City Flag of the City of Boston.
Be it ordained by the City Council of Boston as follows:

Section 1. The Municipal Standard of the City of Boston, which is hereby established, shall be made of silk of the colors designated, namely, Continental blue and buff, and shall be 5 feet in length and 3½ feet in width, or in proportion thereto. Provided, that a City Flag of like design and colors may be made of bunting for outdoor display, the size of such bunting flag to depend upon the place of display. The body of the Standard shall be blue as specified, with the official city seal embroidered in the center; and two rings of white shall encircle the seal as indicated by photograph attached. The reverse of the Municipal Standard shall bear a representation of the Trinountain. The City Flag shall have no reverse except the seal showing through the bunting, the seal to be painted on or woven in the fabric. The Municipal Standard shall have a fringe of Continental buff; the City Flag to be without fringe.

Section 2. The colors herein specified shall be the official colors for the City of Boston, namely: Continental blue and Continental buff, according to samples attached.

Section 3. The City Flag shall be displayed on City Hall, on other municipal buildings, on Boston Common and in other public places on all holidays and other occasions when the national flag is ordered to be displayed; provided that the City Flag may be used on other occasions not in conflict with this ordinance.

Section 4. The Municipal Standard of silk shall be carried or displayed in parades, at reviews and on other official occasions when the Mayor is present and when directed by him. Boston organizations may have copies of the Municipal Standard on approval by the Mayor.

Section 5. Neither the Municipal Standard or City Flag or any reproduction shall be used for any commercial purpose and no advertising device shall be placed upon it, or used in connection with it; and the Municipal Flag or Standard shall not be used for any purpose not authorized by this ordinance, except with the permission of the Mayor.

Section 6. (Penalties).
Section 7. The City Messenger shall be custodian of the Municipal Standard, and of the city flags that are the property of the city.

Section 8. This ordinance shall take effect upon its passage, except that section 3 shall not take effect until thirty days after passage; but the Municipal Standard or City Flag may be used before that time if in accordance with this ordinance.

Referred to the Committee on Ordinances.

ORGANIZATION OF STREET COMMISSIONERS.

The question came on confirmation. Committee—Coun. Collins and McDonald. Whole number of ballots cast 8, yea 8, and the several confirmations were confirmed.

ANNUITY TO MRS. O'NEIL.

President KENNY called up unfinished business, No. 5, viz.:

5. Ordered, That an annuity be paid to the widow of John H. O'Neil, formerly a member of

the Police Department, the amount of said annuity, not exceeding \$300, to be determined by the Police Commissioner, to be paid from the appropriation for Pensions, Police Department, in accordance with chapter 178, Acts of 1887.

The question came on the passage of the order.
Coun. WATSON—Mr. President, this is the order that was laid over a meeting or two ago, with the understanding that if nothing developed against it, if there was no objection, we would pass it to-day. I trust that the order will be passed to-day.

The order was passed.

PUBLIC LANDS.

Coun. BALLANTYNE, for the Committee on Public Lands, submitted the following:

(1) Report on communication from Park and Recreation Department (referred October 30) relative to parcels of land acquired by purchase—that the same be placed on file.

Report accepted; communication placed on file.

(2) Report on message of Mayor and communication (referred June 23) relative to land, corner Mansfield and Cambridge streets—that the same be placed on file.

Report accepted; message and communication placed on file.

Ordered, That the sum of ten thousand dollars (\$10,000) be and hereby is appropriated to be expended for the laying out and construction of Charles street, between Spring and Hamilton streets, West Roxbury, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

Report accepted; order given its first reading and passed, yeas 8, nays 0.

The order will take its second reading and passage in not less than fourteen days from to-day.

(6) Report on order (referred January 5) for loan of \$80,000 for fire house, Charlestown—that the order ought to pass.

Report accepted; order given its first reading and passed, yeas 8, nays 0.

The order will take its second reading and passage in not less than fourteen days from to-day.

(7) Report on message of Mayor and order (referred January 5) for loan of \$10,000 for laundry facilities, Deer Island—that the order ought not to pass.

The matter was laid on the table.

Later in the session, on motion of Coun. BALLANTYNE, the matter was taken from the table and the report accepted and order rejected. Coun. BALLANTYNE moved to reconsider; lost.

PAYMENT OF STENOGRAPHIC BILLS.

Coun. WATSON offered an order—That the expenses incurred by E. W. Harnden in connection with the taking of stenographic notes at nine town meetings and at the hearing on the loan for street improvements, amounting to \$380.30, be charged to the appropriation for City Council, Incidental Expenses.

Referred to the Executive Committee.

COLLECTION OF REFUSE, ETC.

Coun. WATSON offered the following:

Whereas, The practice of collecting ashes, garbage and refuse under the contract system has proven a failure; and,

Whereas, The pay of the employees of the contractors is below that of the men employed by the city for the same work in districts where the contract system does not exist; be it

Resolved, That the City Council records itself that when said contracts terminate that no further contracts be awarded, as it is the belief of the Council that the work should be done by employees of the city;

Resolved, That a copy of these preambles and resolution be sent to his Honor the Mayor and the Commissioner of Public Works.

The preambles and resolutions were declared referred to the Executive Committee.

Coun. WATSON—Mr. President, I move a reconsideration.

PARKMAN FUND.

Coun. COLLINS, for the Committee on Parkman Fund, submitted the following:

(1) Reports on various papers—that the same be placed on file, viz.:

Message of Mayor and order (referred March 24) appropriating \$15,394 for fences of public grounds.

Message (referred May 29) concerning horticultural building at Fenway.

The reference to the Executive Committee was reconsidered, and the resolutions were passed.

Message of Mayor and order (referred 1912) appropriating \$700 for bandstand furnishings.

Message and communication (referred 1912) relative to improvement of Charles street mall of Public Garden.

Petition of Roger F. Sturgis (referred April 16) in favor of appropriation for trees on Commonwealth avenue.

Message of Mayor and communication (referred April 16) relative to trees on Commonwealth avenue.

Reports severally accepted; papers placed on file.

(2) Reports on various papers—that no further action is necessary, viz.:

the Park and Recreation Department, and upon such sale his Honor the Mayor is hereby authorized in the name and behalf of the city and by an instrument or instruments satisfactory to the Law Department to convey said land to the purchaser or purchasers thereof.

Report accepted; order given its first reading and passed, yeas 7, nays 0.

INCREASE IN ASSESSORS' SALARIES.

Coun. SMITH—Mr. President, I move you, sir, that we take from the Committee on Ordinances the ordinance for the increase of the assessors' salaries.

Coun. Smith's motion to recall the ordinance from the Committee on Ordinances was declared lost. Coun. Smith doubted the vote and asked for the yeas and nays. The motion to recall the ordinance was lost, yeas 3, nays 4.

Yeas—Coun. Ballantyne, Buckley, Smith—3. Nays—Coun. Attridge, Collins, Kenny, McDonald—4.

Later in the session Coun. SMITH said: Mr. President, I move,—Resolved, that this body is in favor of the increase of assessors' salaries as outlined in the order which is now in the Committee on Ordinances to that effect.

President KENNY—The Chair rules at this time that the resolution is not in order, as the matter is already pending before the committee for report. The Chair also understands that the committee voted to refer the matter to the next city government. Under the circumstances, as the matter is before the committee, the Chair rules that the member's motion is not in order.

Coun. SMITH—Mr. President, do I understand the Chair's ruling to be that this body, which will not be the same body under the new administration, cannot pass a resolution to that effect, and that members who are going out from this body will have no chance to vote on such a resolution?

President KENNY—The Chair is of the opinion that the motion offered by the councilor is not in order.

Coun. SMITH—And that, therefore, members leaving this body will have no power to vote on a resolution of this kind?

President KENNY—The Chair is still of the opinion that the matter is pending before the Committee on Ordinances, and that, pending a report of the committee, the resolution is not in order now, but may be considered by the Committee on Ordinances. The entire subject matter is before the Committee on Ordinances.

Coun. SMITH—But the resolution is not pending before the committee.

President KENNY—The Chair is of the opinion, as he has already stated, that that is a matter which is already pending before the committee, is already being inquired into by the committee, and that a report from that committee under the rules will be expected here.

Coun. SMITH—And that, therefore, the outgoing members will have no chance to vote on it?

President KENNY—The Chair rules, therefore, that the resolution is not in order at this time.

THE NEXT MEETING.

On motion of Coun. COLLINS it was voted that when the Council adjourn it be to meet again on January 26, 1914, at three o'clock p. m.

Adjourned, on motion of Coun. COLLINS, at 6.56 p. m., to meet on Monday, January 26, at 3 p. m.

CHICAGO MAY ASSUME CARE OF UNEMPLOYED.

The Committee on Unemployed appointed some time ago by Mayor Harrison will urge upon him the creation of the office of "Emergency Superintendent," having complete charge of providing food, clothing, lodging and work for men in Chicago who may be out of work in the winter season. According to figures given out by the United Charities recently, 5,500 men have been discharged from employment in the South Chicago district in the last three weeks. Steps suggested to relieve this situation in Chicago were embodied in a report presented to the mayor's commission by the committee on homeless men, composed of representatives of various charitable organizations. The suggestions follow: Prevention of the influx of the unemployed. Furnishing of one substantial meal a day at the municipal lodging house. Citizens are asked to employ help through the agency of the municipal lodging house when possible. Daily payment of men employed for temporary work. Payment of railroad construction workers when they are laid off.

Provision of facilities for cashing checks without fee. In discussing these suggestions Chief of Police Gleason said that if men who are discharged from their work could get their pay immediately instead of being obliged to wait for a regular pay day a great many of them would not be thrown as a burden upon the community. Dr. Murray of the Health Department said present conditions are 500 per cent worse now than those a year ago. — *Municipal Journal*.

REFUSE COLLECTION IN PHILADELPHIA.

For the purpose of collecting garbage and refuse, the city of Philadelphia is divided into eight districts, and a separate contract is made for the collection of garbage, ashes and rubbish and street cleanings in each of these districts. The garbage is collected six times a week in all sections, in sheet-iron wagons with flat metal covers and inclined back to facilitate dumping, the capacity of which is 93 cubic feet. These wagons are drawn by two horses. Ash collections are made once a week by wagons having tailboards and canvas covers, holding about 4 cubic yards, and drawn by two horses. The limit for one horse is 400 pounds. About 15 per cent of the ashes is hauled by trolley, and another 15 per cent by barge. Rubbish also is collected once a week, the amount collected from individual buildings being unlimited. Ash wagons supplied with racks and covered with canvas are used for this purpose.

Garbage is disposed of by a reduction process, consisting of steam digesters, hydraulic compressors and gasoline percolators. Ashes are used for filling in low land. — *Municipal Journal*.

CHICAGO'S GARBAGE SITUATION.

The advisability of using either the Hirsch method of treating the city's garbage or the services of the Illinois Rendering Company has been debated in the Board of Aldermen. After much discussion it was voted to have the company's counsel draw up a tentative contract to embrace the following points:

The carrying out of the renovation plans to the extent of \$125,000 or more if necessary, up to \$129,000, if the company is permitted to rebuild the plant without city supervision.

The rendering company to pay 7 cents, or the usual meter rate, per 1,000 gallons of water over an average free allowance of 2,000,000 each twenty-four hours.

A straight three years' contract which the city can renew for two additional years by giving six months' notice. The original proposition was for five years.

The improving of the present pumps of the Chicago Reduction company to the extent of at least \$2,000.

The city must deliver garbage 90 per cent pure, and any small quantities that the waste commission may desire for experimentation will be donated.

GARDEN SUBURB FOR NEWCASTLE.

The state treasurer of New South Wales has had prepared for Newcastle a scheme for a garden city similar to Daceyville. The 72-acre site, which is government property, is at North Stockton, between Hunter river and the ocean. The report to the minister states that the site is very suitable for residences and would be served by a ferry from Newcastle. The new government dock-

yard and the new ironworks in course of erection are near by. Large numbers of workmen requiring homes convenient to their work would be employed at both those places.

The land has been divided to accommodate 250 houses, the lots being 50 by 150 feet. The total cost of getting the land ready and erecting the houses is \$583,980. The estimated cost of erecting four-room, weatherboard tile roof cottages, including improvements to land, etc., is \$2,237, and they would be rented at \$3.65 per week or sold on time payment. Under the system as adopted by the Western Australian Government a dwelling and land valued at \$2,433, on a 5 per cent basis, would be paid off in twenty years at a weekly payment of \$3.75, in twenty years at \$3.24, and in thirty years at \$3.04 per week. — *Consular Report*.

INLAND STRAND BATHS IN GERMANY.

The city of Remscheid, with a population of 78,000, is situated 8 miles south of Barmen-Elberfeld, directly on top of one of the highest hills of the "Bergische Land" (mountain land), and is distant from lakes or rivers of sufficient size to offer natural advantages for open-air bathing. Since it is only in the past few years that modern residences in Germany have been equipped with bathing facilities, the people were obliged to depend largely upon the bathing establishment supplied by the city.

During the summer months this establishment was found to be entirely inadequate and it was decided to build a "strand bath" in the valley just below the pumping station of the reservoir, where advantage could be taken of the reservoir overflow. Excavations were made and three basins built of reinforced concrete. The principal basin, for both sexes, has an area of 32,292 square feet and a depth of 4 feet, except at one end, where a part reserved for expert swimmers has a depth of 10 feet. At either end of the main basin is a basin for men and one for women, each 5,382 square feet in area. On one side of the larger basin there is a space arranged for spectators, who pay a small admission fee; on the other, where the concrete slopes gradually to the center, is an artificial sand beach, fitted with gymnastic apparatus. The cost of building was \$14,280. The bath was opened to the public on June 29, 1912.

During the first season there were 116,960 visitors, and the total receipts amounted to \$6,963.09. During the season of 1913 the attendance averaged over 2,000 bathers daily, not only from Remscheid but from the surrounding cities of Lennep, Solingen, Ohligs, Elberfeld, and Barmen. Three similar baths are projected in Barmen and Elberfeld which should be ready for use in the spring of 1914.

PITTSBURGH PLANS MUNICIPAL ABATTOIR.

A plan for the use of the old Northside pumping station, which will shortly be abandoned, as the site for a municipal abattoir, has been broached at the meeting of the Councilmanic committee. The slaughter houses of the city are practically without inspection as to the character of the animals killed except in the cases of the very large ones. A municipal plant in which the killing would be done without cost to the butchers would obviate this danger and to some extent reduce the cost of living. — *Municipal Journal*.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Mayor. Those awarded without public advertisement are specially indicated. Week ending January 29, 1914:

SUPPLY DEPARTMENT.

On January 22 the Mayor approved a contract with the City Fuel Company for furnishing hard and bituminous coal and screenings for various public buildings. Bids on this coal, opened January 19, were as follows:

	4,500 Tons Furnace.	3,500 Tons Egg.	1,500 Tons Stove.	2,500 Tons Soft.	200 Tons Screenings.
Batchelder Brothers.....	\$6 00	\$6 75	\$6 75	\$4 75	\$3 25
Metropolitan Coal Company.....	6 50	7 00	7 25	4 90	3 25
City Fuel Company.....	6 00	6 75	6 75	4 60	3 00

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; also additions to and deductions from contracts:

CONSUMPTIVES' HOSPITAL DEPARTMENT.

Authority has been granted to the Consumptives' Hospital Trustees to award a contract, without advertising, for a second hand gasoline truck chassis for ambulance use, costing \$900.

January 23, 1914.

HON. JOHN F. FITZGERALD,
Mayor of Boston:

DEAR SIR,—Permission is requested to purchase, without advertising, a second-hand White gasoline truck chassis for ambulance use. The price of the chassis as it will be \$900. It will be necessary to lengthen out the chassis, completely overhaul the engine, install a new differential to make it suitable for ambulance purposes, and put on two new tires. The estimated cost of these changes will be \$450; the total cost would, therefore, be \$1,350.

Respectfully yours,
EDWARD F. McSWEENEY,
Chairman.

PUBLIC WORKS DEPARTMENT.

The Mayor has approved a contract, made without advertising, with the Boston Transit Commission to lay high pressure fire service pipes in Summer street at an estimated cost of \$3,000. Notice of permission to award in *City Record*, January 24.

SCHOOLHOUSE DEPARTMENT.

In view of the representations contained in the following communication, the Mayor has approved a contract, made without advertising, with Frank E. Wing for the purchase of one "Marmon" automobile for the sum of \$1,800.

January 22, 1914.

HON. JOHN F. FITZGERALD,
Mayor of Boston:

DEAR SIR,—Our automobile which the inspectors use has entirely broken down and we have been told that it would be a waste of money to repair it.

We have an offer from the Marmon people of a car which is one of their \$3,000 cars, and has been in use but a very short time, having gone about 7,000 miles. We saw the car this morning and it is in the opinion of the Board a good bargain for the city. They offer it to us at \$1,800

and are willing to give us a guarantee just the same as though it was a new car. We are at present using a Marmon car, and it has given such general satisfaction and been so much better than any others we have had, that we would like very much to accept their proposal and purchase this car at the price named, \$1,800. They have also expressed a willingness to take the old car and see what can be done about selling it and getting as much as possible for it.

We would like your Honor's permission to accept this proposal.

Very truly yours,

CHARLES LOGUE,
Chairman.

SUPPLY DEPARTMENT.

The Mayor has approved contracts made without advertising with the C. P. Roekwell Company, Inc., for the purchase of the following automobiles:

One "Cross Country" runabout, fully equipped, for the Highway Division, Public Works Department, at \$800.

January 14, 1914.

HON. JOHN F. FITZGERALD,

Mayor of Boston:

DEAR SIR,—Referring to the attached request I will say that this car is a 1913 roadster, fully equipped, the price of which, new, is \$1,825, f. o. b. factory. The Roekwell Company makes a special price of \$1,200 upon this car, in view of the fact that it has been run but 487 miles. It is in excellent condition and a new car guarantee goes with it.

The Roekwell Company is willing to take in exchange a Carter car and allow the city \$400 for same, making a net price of \$800 to the city. The best offer we had for this Carter car was \$125. I consider this an exceptionally good trade.

Respectfully,

D. FRANK DOHERTY,
Superintendent of Supplies.

One "Cross Country" roadster fully equipped for the Building Department at \$1,150.

January 14, 1914.

HON. JOHN F. FITZGERALD,
Mayor of Boston:

DEAR SIR,—In reference to the attached request will say that the price of this roadster was \$1,825, fully equipped. It is a new car of the 1913 series and has never been used at all.

The Roekwell Company has made a special price of \$1,550, and is willing to take an old Columbia car in exchange, allowing \$400 for same, making the net price to the City of Boston \$1,150. The best offer we had for this car was \$100. A new car guarantee goes with this roadster. I consider this transaction a very good trade.

Respectfully yours,

D. FRANK DOHERTY,
Superintendent of Supplies.

One "Cross Country" touring car fully equipped for the Supply Department, at \$1,500.

January 14, 1914.

HON. JOHN F. FITZGERALD,
Mayor of Boston:

DEAR SIR,—In explanation of the attached request I will say that the Roekwell Company has given the City of Boston a special price of \$1,500 upon this touring car, the regular price being \$1,875, f. o. b. factory.

Mr. Roekwell considers the advertising feature of having his cars in use by the City of Boston as worth considerable

to his company, therefore he has made this liberal reduction to me.

Respectfully yours,
D. FRANK DOHERTY,
Superintendent of Supplies.

The Board has awarded the following sums in settlement of claims for damages on account of playground takings:

Michael F. Collins, \$2,350 and costs without interest, for damage to his estate on Tremont street.

Annie E. McQuatters *et al.*, \$4,250 without interest and without costs, for damage to her estate on Washington street, Charlestown.

The Board estimates at \$890 the damage to the estate of Benjamin F. McKechnie on Morton street, Dorchester (addition), for a taking, involving about 3,551 square feet, made for purpose of erecting municipal building.

TRANSFERS.

The Mayor has approved the transfer of \$30,000 from the appropriation for Bridge and Ferry Division to the appropriation for the Highway Division, Public Works Department.

MUNICIPAL STORE IN CHICAGO SOON.

A municipal general store where the necessities of life may be available to those with limited funds will probably be started in Chicago soon. The City Council has set aside \$25,000 in the budget for the Unemployed Commission, which will have charge of the store. The goods will be sold at cost to those vouched for by the county agents.—*Municipal Journal*.

FINANCE COMMISSION.

January 23, 1914.

HON. JOHN F. FITZGERALD, Mayor:

SIR,—In its last annual report the Finance Commission, referring to the charter amendments under which the appointments by the Mayor or heads of departments and members of municipal boards have been passed upon by the Civil Service Commission, stated that the Mayor, "by every means in his power, including annual attempts to secure legislation relieving him of the restraints of the Civil Service Commission, has attempted to break down a system which was intended for the protection of the community." Your Honor is publicly reported to have replied that this statement of the commission "is absolutely untrue," and has challenged the commission to "name a single attempt to repeal or modify the civil service law." While it has been the custom of the commission to refrain from newspaper controversies with any person criticised in its reports, this direct challenge of its veracity seems to require a reply. The commission will send your Honor conclusive evidence that its statement is true.

The evidence is so voluminous that it will take several days to collect, but it will be furnished some time next week.

Respectfully submitted,
THE FINANCE COMMISSION,
by JOHN A. SULLIVAN,
Chairman.

January 24, 1914.

HON. JOHN F. FITZGERALD, Mayor:

SIR,—The Finance Commission has been informed that the Street Commissioners have been requested to take for playground purposes a lot on Oakland street, Mattapan, containing approximately 135,000 square feet and assessed for \$3,000 or an average of about 2 1/4 cents a square foot. It is reported that this lot has been offered for \$18,000, or about 13 cents a square foot, and that other lots in the vicinity, said to be at least as desirable for playground purposes, have been offered at much lower rates. The Finance Commission has received protests against the taking of the lot now under consideration by the Street Commissioners, on the ground that it will not meet the needs of the community.

As objections have been raised, and an investigation can be made promptly, the commission requests that your Honor instruct the Street Commissioners to delay the proceedings sufficiently to enable the commission to investigate the matter.

Respectfully submitted,
THE FINANCE COMMISSION,
by JOHN A. SULLIVAN,
Chairman.

January 29, 1914.

HON. JOHN F. FITZGERALD, Mayor:

SIR,—The Finance Commission respectfully reports as follows on the question of providing a playground in Mattapan.

The three lots which were offered to the city and have been considered by the Park and Recreation Department are called the Jones, the Scannell and the Hayes lots. The Finance Commission has inspected these lots and believes that the Jones lot is the best, the Scannell lot is the next best, and the Hayes lot is the worst of the three. The only advantage of the Hayes lot is that it can probably be bought and equipped within the limits of the existing appropriation, which is \$25,000. The Hayes lot is swampy except for a large portion consisting of steep embankments which would be of no value for playground purposes. The

Scannell lot is offered at a much lower rate per foot than the Hayces lot and, though much of the Scannell lot is swampy, there is a considerable part of it that is dry land. It would be a much better lot, all things considered, for playground purposes than the Hayces lot, but the approaches are not good and the commission believes it would be inadvisable to take it. The Jones lot is dry land, more accessible than the other lots, and on the whole much better adapted for playground purposes. If it is taken there will be considerable expense for grading and the entire cost would be greater than the city should spend for a playground in this district.

The Finance Commission believes that all three of these lots should be rejected. The Norfolk Street Playground will be open next summer. It is a large playground, its area being 272,015 square feet, and it will be well equipped for base ball, foot ball, tennis and skating. It is only about 4,000 feet from Mattapan square and the cars on Blue Hill avenue run within 750 feet of the playground. It would seem advisable to wait until next summer when this playground will be opened to the public, as it may fully meet the needs of the Mattapan district.

Moreover, the commission believes that the judgment of the Park and Recreation Commission in this matter should be accepted. That the commission believes no new playground is needed in Mattapan for the present. In the Park and Recreation Commission's communication to your Honor dated December 15, 1913, is said with reference to the proposed sites for a playground in Mattapan.

"We have advertised for offers of land and have examined many sites and propositions. We can continue and select a site. We should, however, do so with great reluctance for our strong belief is that the advice of our Board should weigh in the choice of neighborhoods to be provided with playgrounds; that, at any rate, they should be selected on well established methods and in the order in which they are most needed; and that in this instance the need is very much less than in many other cases. Indeed, Mattapan is already much better supplied with playground space than some other parts of the city."

The Park and Recreation Commission said further that it would be better to spend the \$25,000 appropriated for a Mattapan playground in some more congested section of the city, where there is a crying need for a playground. This opinion is fortified with statistics showing that the population per acre in Mattapan is 11.6, whereas it is 47.5 in that section of the North End bounded by Salem, Charles, Hanover and Parmenter streets.

As the Park and Recreation Commission's letter of December 15, 1913, shows that there is a marked difference of opinion between that commission and the Mayor respecting the policy of providing a playground in Mattapan, the Finance Commission believes that this question of policy should be left undetermined until the Mayor-elect takes office. As the new Mayor will be inducted into office next Monday the delay cannot be prejudicial to the interests of the city.

The commission recommends that your Honor request the Street Commissioners to take no further action with respect to this subject until the new administration is installed.

Respectfully submitted,

THE FINANCE COMMISSION,
by JOHN A. SULLIVAN,
Chairman.

CITY EMPLOYEES MUST PAY CARFARE.

Coincident with the creation of the new public utilities commission by Governor Dunne at Springfield, Chicago felt the first effect of its loss of home rule when the curtailment of the practice of granting city employees engaged in the transaction of the city's business free street car rides was announced. This new ruling will cost the city employees hundreds of thousands of dollars yearly.—*Municipal Journal*.

CITY OF BOSTON.

PROPOSALS FOR COAL.

Notice to Bidders.

The Trustees of the Boston City Hospital invite bids to supply the hospital until August 1, 1914, in lots as required, with 5,000 tons, more or less, of semi-bituminous steaming coal of the best quality, without excess of slate, dirt, moisture or sulphur. The quantity here named is an estimate based upon previous annual consumption, and bids will be made on the understanding that a greater or less quantity may be called for by the trustees according to the actual requirements of the hospital; and that the city shall pay only for the actual quantity delivered and at the contract price. The coal is to be delivered on the hospital wharf, Roxbury canal, either in the old coal pocket or in the space designated in the yard by the engineer of the hospital. The dates of deliveries are as follows: First delivery (300 to 500 tons) not later than February 15, 1914; the remainder in such quantities and at such times as the superintendent may direct. The contractor must keep a reserve supply of seven hundred and fifty (750) tons of coal on the hospital wharf at all times during the continuance of the contract. The bidder must state the name of the coal, the name or other designation of the coal bed or seam, and the name and location of the mine or mines from which the coal is to come. Forms of bids and specifications may be obtained at the office of the superintendent, and only bids made on said forms will be considered. All bids must be signed by the bidder and accompanied by a certified check for \$500, payable to and to become the property of the city if the bid, after acceptance, is not carried out. Sealed bids, marked "Bids for Steaming Coal," will be received at the office of the superintendent of the hospital, 818 Harrison avenue, on or before 12 m. on February 9, 1914, and a sealed duplicate of each such bid must, on or before said time, be delivered to the City Auditor, City Hall. The bids will be publicly opened and read at the office of the superintendent at 12 m. on February 9, 1914. The trustees reserve the right to reject any or all bids. The bidder awarded the contract must furnish a satisfactory bond for twenty per cent (20%) of the estimated amount of the contract. The "Notice to Bidders" shall be considered a part of the contract.

TRUSTEES OF THE CITY HOSPITAL,
by JOHN H. MCCOLLUM,
(Jan. 31.) Superintendent.

CITY OF BOSTON.

TO GENERAL CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for erecting and completing a High School of Commerce, Martin District, Avenue Louis Pasteur, Roxbury, Mass., and giving bond of a surety company therefor in the sum of \$50,000. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder, and left before 12 o'clock m. of Tuesday, February 17, 1914, at said office, with a certified check for \$2,500, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be deposited with the City Auditor, City Hall, previous to the time named for opening the bids. The commissioners reserve the right to reject any and all proposals.

WHAT BOSTON DOES FOR HER CITIZENS.

INSTANCES OF WISE AND FARSEEING LIBERALITY WHEREIN BOSTON SHOWS HERSELF MORE PROGRESSIVE OR MORE PATERNAL THAN OTHER MUNICIPALITIES.

The quality of an article of commerce is not determined by the price paid but by the value received. So, too, the true test as applied to the conduct of municipal affairs is not the size of the tax rate, nor the amount of the city debt, but the importance and value of the various benefits and general improvement which the expenditure of the city's revenues provides. Boston has a large gross debt and its running expenses are high, but there is a simple and valid reason for the existence of the one and the increase of the other. This reason is to be found in the demands upon the municipal authorities made by the people themselves. In any of the criticisms of Boston's financial policy, not a word is heard of the enormous expenditures made annually by the City of Boston for services and objects which are accorded but scant consideration by the municipal authorities of other cities throughout the country. Nor is any attention called to the fact that millions of dollars have been paid out of our city treasury and other millions added to our indebtedness for street and sewer construction which in a city like St. Louis would have been paid directly by those deriving special benefit, their cost not even being considered in the making up of the annual budget of the city.

Throughout the entire world there has been in recent years a constant tendency toward increasing expenditures. Nor is this movement confined to any one class among the people or to any branch of civil government. It is to be seen in like measure in the expenditures of the individual and in the conduct of national, state and municipal administration. There is everywhere observable evidence of the increasing demands of the people. Improvements are asked for; new services demanded; and expenditures sought to procure objects or to promote interests unthought of a generation ago. States and cities are to-day making large appropriations for services or the improvement of conditions relating to public health, education, sanitation, recreation, charity, etc., hitherto neglected. A few years ago these benefits, if thought of at all, would have been considered too costly or left to the generosity of private citizens.

It is in just this respect of providing for its citizens with a wise and farseeing liberality that Boston differs from other large cities. What these cities have but recently undertaken along these advanced lines of municipal activity Boston has been doing for years, and her citizens have been enjoying the benefits so secured.

Commencing with the municipal functions that are concerned with the protection of life and property and going through the entire list of corporate expenditures it will be found that if the City of Boston pays more for this or that municipal service than the cost of providing service of similar character in other cities it is because the citizens of Boston demand and receive more, or because of the existence of local conditions beyond our control. In making any comparison of cost it should always be borne in mind that Boston, unlike other cities, pays the entire cost of the executive county administration. Neither should it be forgotten that this city is compelled to bear the burden of extensive metro-

politan improvement schemes without any voice in the matter and no rights except to pay. In 1900 the assessment upon Boston for these metropolitan improvements amounted to \$708,470.23, last year it amounted to \$2,947,856.98, an increase of 310 per cent. What Boston taxpayer could tell offhand the location of Furnace Brook, Hemlock Gorge, Hart's Hill, Lynn Shore reservation, Lynn Fells, Lynnway or the Quincy Shore reservation? Yet each of these places are parts of the metropolitan park system and the taxpayers of Boston have paid up into the millions for their construction and maintenance. Nor should we lose sight of the fact that in addition to paying the cost of city government, Boston bears the burden of about 34 per cent of the state tax levy which has increased from \$1,500,000 in 1902 to \$8,000,000 last year, an increase of 433 per cent in eleven years. The actual amount paid by Boston for this state tax in 1902 being \$541,920, while last year we paid \$2,632,000, or about five times as much. Were we to deduct from Boston's annual budget the sum of these state and metropolitan impositions, together with the sum of those expenditures wherein this city shows itself more progressive or more paternal than other municipalities, there would be made possible a very considerable reduction in the city tax rate.

In view of the almost total lack of knowledge on the part of the general public concerning Boston's municipal activities along more advanced lines it may be advisable to cite some of the many instances of generous provision which Boston makes for the care of her citizens. Taking as our authority the reports of the United States Bureau of the Census, it can readily be discovered that Boston is possessed of the largest per capita assets among the large cities throughout the country, and in addition, her citizens enjoy privileges and comforts far in advance of those provided by the authorities of other cities.

Beginning with the two departments of public safety, we find here in Boston a police force maintained at a strength, as regards number of officers, detectives and patrolmen, of 21.1 per 10,000 of population, or forty-nine men for every 1,000 acres of land area within the city limits. New York, with seven times the population, finds a force of the same relative strength as that in Boston, 21.5 per 10,000, sufficient to maintain order; yet the number of police is supposed to increase disproportionately with the increase in population. To a casual observer it would appear that Boston's Police Department is much overmanned or that her population embraced an excessively large proportion of lawbreakers. But, where other cities would be concerned only with the area within the physical limits of their boundaries, Boston, with its population of 700,000, is the center of a large metropolitan district having a population of 1,500,000, and must, therefore, maintain police and fire departments greatly disproportionate to its own actual needs. In the matter of police protection particularly the cost is materially increased by the number of no-license cities and towns of the metropolitan district closely impinging upon the central

municipality. It is because of this situation that Boston must maintain her police department on a numerical strength equal to or greater, proportionately, than that of other cities having from two to seven times her population. Yet Cambridge and Somerville, Everett and Chelsea, four cities whose entire area lies within five miles of Boston City Hall, and with a joint population of approximately 265,000, provide police protection with a force of but 12 per 10,000 of population in Cambridge, 8.5 in Somerville, 10 in Everett and 13.7 in Chelsea. It should also be remembered that Boston, in addition to maintaining her own force, must pay 62 per cent of the assessed cost of a metropolitan police force employed entirely outside the city limits.

As in the matter of police protection, Boston provides fire protection of equal efficiency; maintaining, according to a report of the United States Bureau of the Census, a larger number of fire department employees than any city in the country excepting New York and Chicago; Philadelphia with an area three times as great as Boston and about double our population maintains a department numbering but ten regular firemen to every 1,000 acres of the city area, while the Boston department is maintained on a strength of 32.5 per 1,000 acres of area; New York 19.6; Chicago, 15.1 and St. Louis but 17. In 1910 the per capita cost of providing fire protection in these five cities was Boston, \$2.34; Philadelphia, \$0.96; Chicago, \$1.41; New York, \$1.97, and St. Louis, \$1.65. These figures give emphasis to the statement that Boston, by reason of her peculiar position as the centre of the metropolitan district, must support a fire department disproportionate as to size and cost to that actually required for the protection of the lives and property of residents of this city. As in the case of police protection in Boston and the surrounding cities and towns, it can be seen that Boston is bearing the heavier portion of the burden of fire protection. Where the Boston department is maintained on the basis of 32.5 per 1,000 acres of land area, Cambridge finds 7.7 sufficient; Somerville, 5.4; Malden, 9.8; Chelsea, 5.4 and Everett, 5.2. Nor should we lose sight of the effect of Boston's narrow streets together with the enormous value of buildings and contents in the downtown section of the city in considering our fire protection cost.

In everything pertaining to sanitation and the conservation of public health, Boston will be found in advance of other cities in the country, her per capita payment for expenses of health conservation in 1910 amounting to \$0.68, as against \$0.22 in Chicago, \$0.26 in St. Louis, \$0.60 in New York, \$0.34 in Philadelphia, \$0.28 in Cleveland and \$0.29 in Baltimore. In that year Boston paid for the expenses of health conservation the sum of \$457,861, or almost as much as St. Louis, Cleveland and Baltimore together. For the maintenance of charities, hospitals and corrections Boston expended \$1,607,430, or \$200,000 more than Cleveland and St. Louis combined. Boston's per capita expenditure in this direction in 1910 amounting to \$2.40, while Chicago spent \$0.83, and St. Louis \$1.25. For charities alone Boston spent \$866,607, or more than St. Louis, Cleveland and Baltimore together; while Chicago's reported expenditure for this purpose was but \$790,488.

Throughout the entire country Boston is noted for her generosity in the matter of free public hospitals maintained wholly at the cost of the municipality. Few

citizens of Boston, however, are aware that in 1910 this service, so essential in safeguarding the public health, cost the sum of \$516,403. During that year Chicago, a city with three times our population, expended about one-fifth more than Boston on the maintenance of hospitals; St. Louis spent \$324,451, and Cleveland and Baltimore combined spent but \$448,600.

It may safely be asserted, that, in proportion to population, Boston has done more toward checking that dread scourge tuberculosis than any city in the world; our expenditures last year for the maintenance of hospitals for consumptives amounted to more than \$200,000, nor did this sum include the appropriation of \$50,000 for the construction of the children's hospital now completed.

It may interest our citizens to know that, as reported by the Census Bureau, Boston's public hospitals represent a money value of \$4,146,300, or more than the reported value of the municipally maintained hospitals in Chicago and Philadelphia together, and twice the aggregate value of similar institutions maintained by the cities of St. Louis, Cleveland and Baltimore.

Boston has long enjoyed a world-wide reputation for her charities both public and private; this city in its corporate capacity expending, as indicated above, every year for the care of the poor, the afflicted and the unfortunate among her citizens more money than any other city in the country with the exception of New York and Philadelphia. Some idea of the scope of this charitable work may be gleaned from the fact that on January 1, 1913, there were in the hospitals and institutions of the city 7,167 persons. Of this number 901 were in the City Hospital, 1,203 persons afflicted with tuberculosis were being cared for either at the Consumptives' Hospital or at other city hospitals; 1,148 were housed at Long Island Hospital, the Charlestown Infirmary, Wayfarers' Lodge and the Temporary Home; 1,539 of the city's juvenile wards were cared for in free home boarding places and at the Parental School, 1,309 persons were confined at the House of Correction and the Suffolk Jail; while through the agency of the Soldiers' Relief Department 1,968 soldiers and sailors and their dependents were cared for by the city. For the care of the poor at such institutions as the Long Island Hospital and the Charlestown Infirmary \$196,500 was appropriated last year; for the maintenance of the Temporary Home, the Wayfarers' Lodge, and for outdoor poor relief \$180,000; for the Soldiers' Relief Department \$200,000; for Children's Institutions \$211,800; for the maintenance of the City Hospital \$597,000, and for the Consumptives' Hospital \$200,000.

Supplementing her care for the health and general welfare of the community, Boston in 1910 expended \$1,141,481 in providing recreation, baths, gymnasiums, etc., for her citizens; or more than the reported expenditure for these purposes in Philadelphia and St. Louis combined; or of St. Louis, Cleveland and Baltimore together. New York with seven times our population paid but three times as much. We have for so long been accustomed to hearing the praises of our park system that we are apt to lose sight of its real importance. How many of Boston's citizens are aware that more than 10 per cent of the land area of the city is devoted to park purposes; a proportion relatively three times as great as the average for the fifteen largest cities in the country, and five times the average for all the cities

in the country with a population in excess of 30,000. Nor is it generally known that in point of value Boston's parks and playgrounds are exceeded only by those of New York; nor that they represent a value greater by \$10,000,000 than the aggregate value of the park systems in St. Louis, Cleveland and Baltimore. Yet in this matter of providing public parks, the figures for Boston do not include her proportionate share in the great metropolitan park system, including the Charles River Basin upon which last year we paid an assessment amounting to \$780,038. Boston's per capita payment for recreation in 1910 amounted to \$1.70, Philadelphia, \$0.52; St. Louis, \$0.46; Cleveland, \$0.47, and Baltimore, \$0.62. How Boston compares with the great European cities in this regard is shown by the following figures prepared by Professor Merriam of Chicago, which credit London with a per capita expenditure for recreation amounting to \$0.44; Paris, \$0.22; Berlin, \$0.29; Vienna, \$0.34, and Glasgow, \$0.35.

Taking next the matter of education, we will readily discover that Boston pays the largest sum per capita of any of the world's great cities; and wherein she excels the cities of the United States in particular. In 1910 Boston's per capita payment, as estimated by the Census Bureau, was \$6.59, Philadelphia, \$3.92, Chicago, \$4.36, New York, \$6.45 and St. Louis, \$4.23. Professor Merriam reports London's per capita expenditure for schools as \$3, Paris, \$2.69, Berlin, \$3.89, Vienna, \$3.69, and Glasgow, \$2.14. A little inquiry will show that Boston maintains more school-houses than any city in the country excepting New York; that we employ more secondary or high school teachers than Philadelphia, and more than the aggregate number employed by St. Louis and Baltimore together. We will learn that the reported value of Boston's school buildings, land and equipment in 1910 was \$6,000,000 greater than the value of similar city property in St. Louis, and greater than the aggregate value of the school buildings, land and equipment in Cleveland and Baltimore together. Nor should we forget that education in many of the large cities throughout the country is aided by direct grants from the state or other civil divisions to the municipality. New York in 1910 is reported as receiving in this way, \$1,877,575, Chicago, \$335,662, St. Louis, \$309,039, and Baltimore, \$513,092. Nor should it be forgotten that in Chicago and other cities children pay for their own school books.

Supplementing the work of the schools, Boston maintains the greatest purely municipal library in the world, her expenditures for the maintenance of libraries in 1910 amounting to \$381,588, or nearly as much as was expended by the cities of Chicago and Baltimore together; but we have found the expenditure profitable, and long ago decided that the money so spent paid large dividends through the increased intelligence and the advancement of our citizens. In 1910 the reported value of Boston's public libraries and museums was \$5,598,000, or more than the aggregate value of similar institutions reported for Chicago and Philadelphia together, or more than the combined value of libraries and museums reported for Chicago, St. Louis, Cleveland and Baltimore.

Well paved and well lighted streets are universally recognized as important factors in promoting the general development of cities. That Boston has but 5 miles of unpaved streets as compared with 7,500 miles of unpaved streets in the

other fourteen large cities in the country indicates the extent of Boston's efforts in this direction. It may surprise some to learn that over 50 per cent of Chicago's streets are unpaved; that about 30 per cent of the street mileage of New York is unpaved; 40 per cent in St. Louis, 50 per cent in Pittsburgh; while Buffalo, credited with being one of the best paved cities in the United States, has about 45 per cent of her street mileage unpaved. In this connection it is interesting to note that Boston is accredited with the first paved street in America; while in the opinion of travelers the best paved cities in this country are given in the following order, Washington, Boston, Buffalo and Manhattan Borough. Boston, Buffalo and Washington have been called the best paved cities in the world.

The old fashioned and jolting cobblestone pavement has disappeared from Boston, yet practically 50 per cent of all street pavement in Baltimore is of this character. Even in Buffalo more than 20 per cent of her streets are cobble paved, while many of the wood block pavements of Chicago are of the old fashioned large block variety, uneven and unsanitary.

The problem entailed in the disposal of the sewage of a great city is equal in importance to that of securing an adequate supply of pure water. Boston's appreciation of her duty in this particular is indicated by the fact that she had the first completed sewer system in this country and can to-day claim the most perfect in many respects. While other cities are concerned with the task of handling this service within their own boundaries Boston, in addition to providing sewer service for the city's area of 43 square miles, pays the larger part of the sewerage expenses in a metropolitan district covering 121 square miles.

Up to 1905 Baltimore had practically nothing but storm sewers. Since 1889 Chicago has spent millions in the construction of a sanitary district. In that year a general law of the Illinois Legislature created sanitary districts throughout the state; its purpose in the case of Chicago being to protect from sewage pollution the waters of Lake Michigan, the source of the city's water supply.

It may surprise some of our citizens, who are hearing of the superiority of European cities in all matters of public service, to learn that previous to 1872 there was no drainage system worthy of the name in Berlin. The present elaborate plan is the direct result of the vigorous agitation by Professor Virchow. In Birmingham the present system was adopted in the early seventies. In 1871, with more than 73,000 houses in the city, there were less than 4,000 water-closets. At that time the so-called Rochdale system of closet pans and ash tubs was introduced. Once every week, in the night, the closed vans of the health department removed them and substituted clean pans. Underground sewers were entirely unknown in London until 1831, and not a single large underground main had been constructed up to 1855. Such as they were, the sewers and drainage ditches poured their pollution directly into the Thames at frequent intervals along its banks, and at times the river was so befouled and clogged with filth that navigation was interfered with. In Dresden and Lyon storm water sewers comprised the entire system at a recent date. In Amsterdam only part of the city is supplied. St. Petersburg still uses the old wooden sewers. In Paris it was not until well toward the close of the nineteenth

century that water-closets were allowed to be connected with the sewers of that city.

In any comparison of the cost of sewer or street construction in Boston and other cities, particular attention should be given to the fact that many cities do not include these items in their annual budget, inasmuch as the cost is borne entirely by the owners of benefited property through the levying of special assessments. In view of the fact that the city of Chicago has raised upwards of \$150,000,000 in special assessments since adopting that policy, some consideration should be given to these figures when comparing the debts or expenditures of Boston and Chicago. Under conditions in Boston that entire amount would have been drawn from the city treasury, or what is more likely would have been added to the debt.

When making comparisons of the cost of sewers, etc., we should not overlook the fact that the entire amount of Boston's sewage must be pumped, thereby materially increasing the cost of the service. In New York less than 20 per cent is pumped, in Chicago 5 per cent and in St. Louis and Philadelphia none.

So, too, in the matter of garbage disposal it should be observed that in the cities of St. Louis, Cleveland and Pittsburgh the householders are compelled to dispose of ashes and other refuse, while the City of Boston disposes of 350,000 tons annually. We should also bear in mind in this regard that the city of San Francisco compels the householder to dispose of ashes and every other sort of garbage.

When one stops to consider that the cost of street laying out and construction, and the construction of sewers amount to more than 40 per cent of the total capital expenditures of cities, the importance of some equitable means of assessing this cost becomes apparent. In comparison with similar statutes or regulations in other cities throughout the country, it will be found that the special assessment laws in force in Boston are very liberal, the levy being limited to but one-half the original cost upon the abutters and none of the subsequent cost of repair and maintenance. It is an almost general rule in the other cities throughout the country to assess not only the entire cost of original construction but for reconstruction or maintenance as well. In Chicago, for example, special assessments are levied for all kinds of street work, including ordinary repairs. Against the payment of these levies bonds are issued secured by prospective collections; but these bonds, in a constitutional sense, are not considered as a part of the city debt within the statutory limitation. They really represent debt obligations of a particular benefit district, rather than for the city as a whole. The property owner pays, in addition to the entire cost of the improvement, subsequent assessments for repairs. To such an extent does this policy prevail that it is estimated that fully 60 per cent of the annual expenditure under special assessments in Chicago is made upon property previously assessed.

In St. Louis special assessments are levied for the total cost of street construction and for the construction and repair of all alleys and sidewalks. In the case of boulevards the entire cost of grading, improving, constructing, reconstructing, maintaining, cleaning and sprinkling, and the planting of trees and shrubbery, is levied upon the abutting property. A similar provision is in force as regards streets from which heavy teaming is re-

stricted; this on the theory that persons enjoying exclusive rights should pay for them. It is provided, however, that no assessment shall exceed 25 per cent of the assessed value of the property, such excess being borne by the city treasury. On the completion of work, special tax bills are issued by the Board of Public Improvements to the contractors engaged upon the construction, and the contractor's receipts are taken in full of all claims against the city on account of their work. These tax bills constitute a lien upon the benefited property, and the city assumes no financial obligation in the matter, the contractor collecting directly from the property owners.

To one who is informed upon all these matters to which attention has been called, it is surprising how little thought the people give to these enjoyments and advantages which Boston provides in such lavish manner. That none of them are extravagant is proven by the general awakening on the part of other communities to their value. The attainment of all this perfection has cost the city large sums yearly. Who shall say that the money has not been wisely expended? The annual expenditure of the City of Boston is large, but would the citizens have it less at the cost of sacrificing these things?

FREE PUBLIC LECTURES AT PUBLIC LIBRARY.

Free public lectures will be given in the lecture hall of the Boston Public Library on Monday and Thursday evenings and Sunday afternoons.

The Monday and Thursday lectures are all with lantern illustrations unless otherwise mentioned.

The Sunday lectures are not illustrated unless so mentioned.

The Monday lectures are given under the auspices of the Field and Forest Club.

Notice.—In order to prevent crowding on the temporary bridge and stairs at the entrance to the lecture hall on Boylston street, during the subway construction the doors will be open two hours before each lecture. The entrance is from Boylston street only. The doors will be closed when the hall is filled.

TALKS ON VOCATIONS AT THE NORTH END BRANCH LIBRARY.

In cooperation with the Placement Bureau there will be given Wednesday evenings, at 7.30 p. m., at the North End Branch of the Public Library, a series of talks on the selection of vocations. The list as prepared is as follows:

- Feb. 4. For boys: Machine Work. Mr. Joseph M. Larkin, Instructor of Apprentices, Fore River Ship Building Company.
- Feb. 11. For girls: Salesmanship. Mrs. Lucinda Prince, Director, School of Salesmanship, Women's Educational and Industrial Union, assisted by Miss Winifred Kane, a pupil of the school.
- Feb. 18. For boys: Electricity. Mr. Williston, Principal of Wentworth Institute.
- Feb. 25. For girls: Factory Work. Miss Florence Leadbetter, Master of Trade School for Girls, assisted by girls from the school.
- March 4. For boys: Factory Work. Mr. William C. Crawford, Master of the Industrial School for Boys, assisted by boys from the school.
- March 11. For girls: Telegraph and Telephone Service. Mr. William C. Bamburgh, of the New England Telegraph and Telephone Company.
- March 18. For boys: Farming. Mr. Charles M. Gardner, Master of the State Grange.
- March 25. The Use of Unusual Gifts. Mrs. Wallace C. Boyden.
- April 1. The Use of Spare Time. Mr. Alvin E. Dodd, Director of the North Bennet Street Industrial School.

BOSTON'S MUNICIPAL SHOWER BATHS.

Free public shower baths may be taken in these buildings:

- East Boston Gymnasium, Paris street, East Boston.
- D Street Gymnasium, South Boston.
- Municipal Building, Columbia road, Dorchester.
- Cabot Street Gymnasium, Roxbury.
- North Bennet Street, North End.
- Tyler Street Gymnasium, South End.
- Harrison Avenue Gymnasium, Ward 9.
- Curtis Hall Gymnasium, Jamaica Plain.
- Dover Street Bath House, 249 Dover street.
- Copley School, Bartlett street, Charlestown.

Municipal Building, corner Bunker Hill and Lexington streets, Charlestown.

Bathing facilities are entirely free of charge. Persons having no towels and soap may procure them at each building office for one cent each. Comfortable private dressing closets are free in all places. Hot and cold water may be had for baths. At the Dover Street Bath House women and men have separate accommodations and each may bathe there any day in the week. In the other houses women have exclusive use of baths on Mondays and Thursdays, and men have the remaining days. There is telephone connection in each building.

PROCEEDINGS OF CITY COUNCIL.

Thursday, January 22, 1914.

Special meeting of the City Council, held in the Council Chamber, City Hall, at 1.30 o'clock p. m. Absent—Coun. Collins, Coulthurst and Kenny.

Coun. BALLANTYNE, senior member, called meeting to order, in absence of President Kenny. On motion of Coun. ATTRIDGE the Council proceeded to the election of a temporary President, in the absence of President Kenny, with the following result:

Whole number of votes, 5; necessary for choice, 3. Coun. Ballantyne received five votes, and was declared elected President *pro tem*.

The Clerk read the call for the meeting, as follows:

City of Boston,

Office of the Mayor, January 20, 1914.

To the Members of the City Council:

You are respectfully requested to assemble in the City Council Chamber, City Hall, on Thursday, January 22, at 1.30 p. m., for the purpose of drawing jurors and for the transaction of such other business as may properly come before your honorable body.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Placed on file.

JURORS DRAWN.

Under the law, Mayor Fitzgerald being present, jurors were drawn as follows:

Two grand jurors, Superior Criminal Court, to appear February 2, 1914:

William G. Bail, Ward 20; Anthony Rose, Ward 24.

Forty-one traverse jurors, Superior Criminal Court, First Session, to appear February 4, 1914:

Winfield S. Thurlow, Ward 24; James T. Kelley, Ward 11; Fred C. Herrick, Ward 4; Arthur H. Paul, Ward 24; Cornelius J. Horgan, Ward 23; Hans Johnson, Ward 14; Albert J. Carpenter, Ward 21; Bartholomew Ahern, Ward 13; Emil W. K. Zepp, Ward 22; George J. Kenney, Ward 19; William B. Alexander, Ward 22; Charles E. Dever, Ward 1; Joseph F. Wogan, Ward 25; Charles H. Hergt, Ward 22; James Coggeshall, Ward 25; Max Herman, Ward 8; Ernest Hyland, Ward 9; James C. Curran, Ward 23; Henry T. Allchin, Ward 22; G. Irving Pevear, Ward 11; Charles J. Holland, Ward 25; Benjamin P. C. Clapp, Ward 16; Christopher John Supple, Ward 20; Samuel J. Sigel, Ward 20; Winsor W. Raymond, Ward 3; Martin Donlon, Ward 25; David N. Stern, Ward 8; John M. O'Leary, Ward 14; Clifford L. Phillips, Ward 20; Jeremiah A. Murray, Ward 13; Joseph Holthaus, Ward 9; Leonard T. Swift, Ward 18; J. Clarence Whitney, Ward 24; Alvin Friedlander, Ward 20; Dennis P. Sullivan, Ward 23; John Lombard, Ward 14; Edward A. Shay, Ward 22; George A. Merrill, Ward 21; Charles H. Williams, Ward 20; Lucien F. Fisher, Ward 20; John J. Williams, Ward 13.

Forty-one traverse jurors, Superior Criminal Court, Second Session, to appear February 9, 1914:

Sewell R. Cobb, Ward 23; Lawrence R. Gillen, Ward 17; Frank T. Mockler, Ward 17; Joseph H. Martin, Ward 3; Harry Levine, Ward 7; Valentine Mayer, Ward 19; David J. Larkin, Ward 1; Thomas Francis Major, Ward 14; George McKinnon, Ward 10; Jeremiah Sullivan, Ward 20; Arthur L. Wheeler, Ward 11; Antonio Accetullo, Ward 6; John E. Swett, Ward 5; George Ayen, Ward 20; Charles H. Baker, Ward 21; Joseph E. McAllister, Ward 22; Charles Liffier, Ward 17; George Smith, Ward 1; Thomas J. McHugh, Ward 22; William Bryne, Ward 14; Robert H. Buxton, Ward 22; Hugh F. Beaton, Ward 1; Walter J. Donovan, Ward 20; Richard P. Walsh, Ward 22; James J. O'Leary, Ward 19; Frank J. Callahan, Ward 8; Walter B. Guild, Ward 17; Daniel J. Donovan, Ward 17; Edward J. Woodward, Ward 22; William C. Boback, Jr., Ward 16; George H. Dunbar, Ward 1; Charles W. Coleman, Ward 20; George W. Hufton, Ward 20; William H. Bird, Ward 20; Joseph Warshauer, Ward 10; Joel H. Upham, Ward 7; Dennis F. Casey, Ward 16; Samuel Wax, Ward 12; Robert J. Grady, Ward 21; George B. Hall, Ward 20; John R. Waters, Ward 25.

FURNISHINGS, CITY HALL ANNEX.

The following was received:

City of Boston,

Office of the Mayor, January 22, 1914.

To the City Council:

I transmit herewith a communication from the Superintendent of Public Buildings, requesting an appropriation of \$2,000 for counter tops, shelving and new desks for the Assessing Department in the new City Hall Annex. It is my intention to open the Annex building some day the latter part of next week, when the Assessing Department will be permanently installed.

I recommend, therefore, the passage of the accompanying order transferring the sum of \$2,000 from the balance of the appropriation for Public Buildings Department to the appropriation for City Hall Annex, for the purpose of providing counter tops, shelving and new desks for the Assessing Department.

Respectfully,

JOHN F. FITZGERALD, Mayor.

City of Boston,
Public Buildings Department,
January 22, 1914.

Hon. John F. Fitzgerald,
Mayor of Boston:

Dear Sir,—Replying to the request of your Honor to use every endeavor to move the Assessing Department into the quarters allotted them on the third floor of the City Hall Annex building before the expiration of your term of office, I would say that I have been in consultation with the Board of Assessors, and find that they are ready to move at any time that the building is in readiness to receive them. As to this phase of the question, I would say that everything will be complete, with the exception of the counter tops, some shelving, and also some new desks, which they will require. Any delay can be obviated by the installation of temporary counter tops, temporary shelving and purchase of furniture required. I estimate that it will cost two thousand (2,000) dollars to meet these requirements.

Respectfully yours,

M. J. Fish.

Superintendent of Public Buildings.

Ordered, That under the provisions of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer the sum of two thousand dollars (\$2,000) from the balance of the appropriation for Public Buildings Department to the appropriation for City Hall Annex, to provide for counter tops, shelving and new desks for the Assessing Department.

Referred to the Executive Committee.

CLERK HIRE.

A communication was received from W. T. A. Fitzgerald, Register of Deeds, in accordance with the provisions of section 33, chapter 22, of the Revised Laws, certifying that certain persons had been employed in his office from December 15 to January 19, and that work had been performed to the amount of \$3,867.32.

Approved by the Council.

CAMPAIGN CONTRIBUTIONS, FIRE DEPARTMENT.

Coun. WATSON offered an order—That the Fire Commissioner, through his Honor the Mayor, be requested to furnish the City Council with any information he can, after due inquiry, relative to whether or not the members of the Fire Department were directly or indirectly assessed for campaign funds in behalf of any candidate for office at the municipal election held in this city on January 13, 1914.

The question came on the passage of the order.

The order was passed.

APPOINTMENT BY THE MAYOR.

The following was received:

City of Boston,

Office of the Mayor, January 24, 1914.

To the City Council:

You are hereby notified that I have this day appointed Joseph P. Kennedy (144 Saratoga street, Ward 1) a director of the Collateral Loan Company, under chapter 11 of the Acts of 1876, for the term ending in December, 1914.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Placed on file.

PURCHASE OF CLOCK.

The following was received:

City of Boston,

Office of the Mayor, January 26, 1914.

To the City Council:

On August 11, 1913, your honorable body passed an order transferring the sum of \$100 from the Reserve Fund for repairs on the present clock located in Governor Dudley square. I am in receipt of information to the effect that it would be better judgment to purchase a clock, and I recommend, therefore, the passage of the accompanying order transferring the appropriation for Repairs on Clock in Governor Dudley Square to an appropriation for Clock, Governor Dudley Square.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Ordered, That under the provisions of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer the sum of one hundred dollars (\$100) already appropriated for Repairs on Clock in Governor Dudley Square to an appropriation for Clock in Governor Dudley Square.

Referred to the Executive Committee.

PLANS, MUNICIPAL BUILDING, WARDS 21 AND 22.

The following was received:

City of Boston,

Office of the Mayor, January 26, 1914.

To the City Council:

I transmit herewith, and recommend for passage by your honorable body, the accompanying order transferring the sum of \$3,000 for the preparation of plan for municipal building, Wards 21 and 22, said building not to cost more than \$50,000.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Ordered, That under the provisions of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer the sum of three thousand dollars (\$3,000) from the Reserve Fund to an appropriation to be expended under the direction of the Superintendent of Public Buildings for Municipal Building, Wards 21 and 22, Plans, said building not to cost more than \$50,000.

Referred to the Executive Committee.

INCIDENTAL EXPENSES, ZOO.

The following was received:

City of Boston,

Office of the Mayor, January 26, 1914.

To the City Council:

I transmit herewith a communication from the chairman of the Park and Recreation Department, under date of January 26, requesting an appropriation of \$1,500 from the income of the Parkman Fund to cover the cost of transportation and incidental expenses in connection with the Zoological Garden and Aquarium.

I recommend, therefore, the passage of the accompanying order appropriating the sum of \$1,500 from the income of the Parkman Fund for the purpose stated.

Respectfully,

JOHN F. FITZGERALD, Mayor.

City of Boston,

Park and Recreation Department,
January 26, 1914.

Hon. John F. Fitzgerald,

Mayor of Boston:

Dear Sir,—On November 10 we asked you to submit to the City Council an order to put five hundred dollars at our disposal, to pay for transportation and other incidental expenses that require immediate attention. This order, which was for maintenance expenses only, has not yet been acted upon by the City Council. We ask you to recommend that it be taken up and passed.

We also request that fifteen hundred dollars be appropriated from the income of the Parkman Fund, to be held by our secretary to cover similar expenses on account of the Zoological Garden and Aquarium. We expect to send the director of the Aquarium south in the spring to procure tropical fish, and we will require money for the purchase and shipment of animals and birds for the Zoological Garden. We wish to be in a position to take advantage of opportunities to acquire specimens that are brought here on shipboard, and can be acquired only by immediate payment. We, therefore, request you to recommend to the City Council the passage of the accompanying order.

Yours respectfully,
D. H. SULLIVAN, Chairman.

Ordered, That there be appropriated from the income of the Parkman Fund the sum of fifteen hundred dollars (\$1,500), said sum to be paid to George F. Clarke, secretary of the Park and Recreation Department, for transportation and other incidental expenses in connection with the Zoological Garden and Aquarium, to be accounted for to the City Auditor by vouchers before the close of the financial year.

The communication was referred to the Committee on Parkman Fund.

Later in the session Coun. COLLINS said—Mr. President, I move reconsideration of the reference whereby we voted that the order to provide \$1,500 be referred to the Parkman Fund Committee, my reason being that the time is very short. This is a simple order, and perhaps the Executive Committee could discuss the matter more effectively and speedily. I hope reconsideration of the reference will prevail.

The reference of the matter to Parkman Fund was reconsidered and the matter was referred to the Executive Committee.

EXPENDITURE OF PARKMAN FUND.

The following was received:

City of Boston,
Office of the Mayor, January 26, 1914.
To the City Council:
I understand that the amount of money available from the income of the Parkman Fund at the present time is about \$43,000.
I transmit herewith a communication from the Deputy Commissioner of the Park and Recreation Department in regard to the expenditure of this money, and recommend the passage of the accompanying order appropriating the sum of \$35,000 for the following purposes:

Completion of work on Commonwealth avenue.....	\$5,000 00
Fens, improvements.....	5,000 00
Horticultural Building, foundation....	25,000 00
	<u>\$35,000 00</u>

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Park and Recreation Department,
January 26, 1914.

Mr. D. H. Sullivan, Chairman:

Dear Sir,—As there is at the present time about \$45,000 now available from the Parkman Fund for use, I recommend that we request the trustees to appropriate from this sum \$5,000 for the completion of the work already started on Commonwealth avenue. I refer to the resoling and irrigation now being prosecuted. I recommend, also, the appropriation of \$5,000 for needed improvements in the Fens, including loaming and planting of the slopes and the leveling of the area for playground purposes.

As to the expenditure of the balance, I recommend that the trustees apportion it to the starting of the proposed Horticultural Building in the Fens.

Yours respectfully,
JAMES B. SHEA,
Deputy Commissioner.

Ordered, That the sum of thirty-five thousand dollars (\$35,000) be and hereby is appropriated from the income of the Parkman Fund, to be expended under the direction of the Park and Recreation Department for the following purposes:

Completion of work on Commonwealth avenue.....	\$5,000 00
Fens, improvements.....	5,000 00
Horticultural Building, foundation....	25,000 00

Referred to the Committee on Parkman Fund.

ORDINANCES.

Coun. BALLANTYNE, for the Committee on Ordinances, submitted a report on message of Mayor, communication and ordinance (referred January 16) establishing a municipal standard and city flag—that the ordinance ought not to pass, without prejudice.

The question came on the acceptance of the report.

Coun. BALLANTYNE—Mr. President, the reason for the committee's making this report rejecting the order is that we are informed that the order is improperly drawn. I hold in my hand a similar order, which I will put in and ask to have referred to the Law Department for correction.

Report accepted; ordinance rejected.

Later in the session Coun. BALLANTYNE offered the following:

Be it ordained by the City Council of Boston, as follows:

Section 1. The Municipal Standard of the City of Boston, which is hereby established, shall be made of silk of the colors designated, namely, Continental blue and buff, and shall be 5 feet in length and 3½ feet in width, or in proportion thereto. Provided, that a City Flag of like design and colors may be made of bunting for outdoor display, the size of such bunting flag to depend upon the place of display. The body of the Standard shall be blue as specified, with the official city seal embroidered in the center; and two rings of white shall encircle the seal as indicated by photograph attached. The reverse of the Municipal Standard shall bear a representation of the Trimountain. The City Flag shall have no reverse except the seal showing through the bunting, the seal to be painted on or woven in the fabric. The Municipal Standard shall have a fringe of Continental buff; the City Flag to be without fringe.

Sec. 2. The colors herein specified shall be the official colors for the City of Boston, namely, Continental blue and Continental buff, according to samples attached.

Sec. 3. The City Flag shall be displayed on City Hall, on other municipal buildings, on Boston Common and in other public places on all holidays and other occasions when the national flag is ordered to be displayed; provided that the City Flag may be used on other occasions not in conflict with this ordinance.

Sec. 4. The Municipal Standard of silk shall be carried or displayed in parades, at reviews and on other official occasions when the Mayor is present and when directed by him. Boston organizations may have copies of the Municipal Standard on approval by the Mayor.

Sec. 5. Neither the Municipal Standard nor City Flag nor any reproduction shall be used for any commercial purpose, and no advertising device shall be placed upon it or used in connection with it; and the Municipal Flag or Standard shall not be used for any purpose not authorized by this ordinance, except with the permission of the Mayor.

Sec. 6. (Penalties.)

Sec. 7. The City Messenger shall be custodian of the Municipal Standard, and of the city flags that are the property of the city.

Sec. 8. This ordinance shall take effect upon its passage, except that section 3 shall not take effect until thirty days after passage; but the Municipal Standard or City Flag may be used before that time if in accordance with this ordinance.

On motion of Coun. BALLANTYNE the order was referred to the Committee on Ordinances.

SALE OF UNCLAIMED BAGGAGE.

Coun. BALLANTYNE, for the Committee on Unclaimed Baggage, submitted a report on the

petition of the Boston Terminal Company (referred December 22) for leave to sell unclaimed baggage, recommending the passage of the following:

Ordered, That the Boston Terminal Company be hereby authorized to sell at public auction on or before March 1, 1914, and after publication of the time and place of sale, according to law, the articles left and remaining unclaimed in the passenger station of said company in the City of Boston.

REPORT OF BOARD OF ARBITRATION.

The following was received: January 22, 1914.

Hon. James Donovan,
City Clerk, City Hall, Boston:

My dear Mr. Donovan,—Section 16 of the Acts of 1909 says that the decision of a local Board of Conciliation and Arbitration agreed upon by the parties to an industrial controversy established in accordance with that act shall "be filed with the clerk of the city or town in which the controversy

arose, and a copy thereof shall be forwarded by the city clerk to the State Board of Conciliation and Arbitration."

In accordance with this provision of the statutes permit me to file with you herewith two copies of the report and decision rendered on January 15, 1914, by the Board of Arbitration in the matter of the controversy between the Boston Elevated Railway Company and the Boston Carmen's Union (Division 589 of the Amalgamated Association of Street and Electric Railway Employees of America).

Previous to the submission of certain matters to the above Board the Carmen's Union and the Boston Elevated Railway Company had agreed upon an adjustment of various other matters which had for some time been under discussion between them. I am also sending you two copies of the document showing the clauses agreed upon by the union and the railroad previous to the submitting of their remaining differences to the above Board.

Yours very truly,

JAMES A. MCKIBBEN,

Secretary *pro tem.*, Board of Arbitration.

I will be pleased to appear before you at any time, if you so desire, and give reasons for the above action.

Trusting this meets with your approval, I remain,

Very truly yours,

J. H. BARNES,

Justice of the East Boston District Court.

Referred to the Committee on County Accounts.

SIDEWALK SCHEDULE.

A communication was received from the Commissioner of Public Works giving cost of construction of artificial stone sidewalks on South street, between Centre and Robert streets, Ward 23, recommending the passage of the following:

Ordered, That the persons named in the schedule be and the same are hereby assessed the sums set against their respective names as their proportional parts of the cost of constructing artificial stone sidewalks with granite edgestones along South street, between Centre and Robert streets, Ward 23, and the same is ordered to be certified and notice given to the parties as aforesaid, the amount being \$4,752.06.

The order was passed.

MINORS' LICENSES.

President KENNY submitted reports on petitions for minors' licenses for forty-five newsboys, two bootblacks and thirteen vendors—recommending that licenses be granted.

Reports accepted; licenses granted on usual conditions.

CARE OF INSANE.

Coun. WATSON offered the following:

Resolved, That the City Council favors the bill now before the General Court authorizing the State Board of Insanity to purchase additional land and the erection of a hospital building thereon for the care of the insane in the metropolitan district; be it therefore

Ordered, That the Corporation Counsel and the Committee on Legislative Matters be requested to attend any hearing given by any committee of the Legislature on the above subject and advocate the passage of this measure.

Referred to the Executive Committee.

President KENNY called up unfinished business, No. 5, viz.:

5. Ordered, That the compensation of Miss Mary A. Cola, stenographer and typewriter for the Inspector of Claims, be at the rate of sixty dollars (\$60) per month from January 1, 1914, said sum to be paid from the appropriation for City Council, Incidental Expenses.

The order was passed.

SALARIES OF PROBATION OFFICERS.

Coun. COLLINS called up unfinished business, No. 6, viz.:

6. Ordered, That the salaries of Victor Vance Anderson and Alfretha P. McClure, male assistant officer and female assistant officer, respectively, of the Municipal Criminal Court, Boston, determined by the chief justice of said court at the rate of \$2,000 and \$1,500 per annum, respectively, to date from October 6, 1913, be and the same are hereby approved, said sums to be charged to the appropriation for County of Suffolk, Municipal Criminal Court, Boston.

The question came on the passage of the order. The order was passed, yeas 7, nays 1, Coun. BUCKLEY voting nay.

COUNTY ACCOUNTS.

Coun. COLLINS, for the Committee on County Accounts, submitted a report on communication (referred December 22) establishing salary of probation officer for Wayward and Delinquent Children at Municipal Court, Charlestown district—recommending the passage of the following:

Ordered, That the salary of the probation officer for Wayward and Delinquent Children of the Municipal Court of the Charlestown district, determined by the Chief Justice of said court, at the rate of fifteen hundred dollars (\$1,500) per annum, beginning January 1, 1914, be and the same is hereby approved, the amount to be charged to the appropriation for the County of Suffolk, Municipal Court, Charlestown District.

The report was accepted and the question came on the passage of the order.

The rule was suspended and the order was passed.

CITY PLANNING BOARD.

Coun. BALLANTYNE—Mr. President, at this time I move to recall from the committee the message and ordinance relative to City Planning Board, now in the hands of the Committee on Ordinances.

Coun. Ballantyne's motion prevailed. The papers referred to were a message from the Mayor under date of September 8, 1913, transmitting for information certain acts relative to planning board of cities and towns, with draft of an ordinance relative to the creation of a planning board for the City of Boston, as follows:

An Ordinance Relative to the Creation of a Planning Board for the City of Boston.

Be it ordained by the City Council of Boston as follows:

Section 1. The planning board of the City of Boston to be established under the provisions of chapter 494 of the Acts of the year 1913 shall consist of five members, one of whom at least shall be a woman. Said members shall be appointed by the mayor in the manner provided by sections 9 and 10 of chapter 486 of the Acts of the year 1909. The first appointments shall be made, one for a term ending with the first day of May, 1914, one for a term ending with the first day of May, 1915, one for a term ending with the first day of May, 1916, one for a term ending with the first day of May, 1917, and one for a term ending with the first day of May, 1918; and beginning with the year 1914 one member shall be appointed annually for a term of five years from the first day of May. Any vacancy that may occur shall be filled in like manner for the balance of the unexpired term.

Section 2. The board shall, as soon as practicable after the appointments of the members have become operative, meet and organize by the selection of a chairman, and shall appoint a secretary outside of its own membership who shall receive such compensation for his services as said board may fix and determine.

Section 3. The planning board shall have the powers and authority, and perform the duties, set forth in chapter 494 relative to local planning boards.

Section 4. The board shall serve without pay, and may expend, for the salary of its secretary and for such other expenses as may be necessary in the performance of its duties, a sum not exceeding three thousand dollars per annum.

The question came on the passage of the ordinance.

Coun. SMITH—Mr. President, it gives me great pleasure to vote in favor of this ordinance, one of the last acts I shall be privileged to perform, especially in view of the fact that an ordinance similar to this has been before the Council for at least two years, and I think it is more nearly correct to say three years. The civic planning ordinance, of which this is the final outcome, was originally introduced into this body by former Coun. Hale, and I believe this draft is the outcome of his ordinance, as revised by the Finance Commission and also by the Chamber of Commerce. We have all been in favor of some such plan for a number of years, and I think it is especially fitting at this time, in view of the statements made by the Mayor-elect during his campaign, that we should pass this ordinance. If it does not meet with his approval it can be amended in the future. But certainly other cities have blazed the way for Boston, and we can well pass this ordinance as a beginning in the line of city planning.

The ordinance was passed, yeas 8, nays 0.

EXECUTIVE COMMITTEE REPORTS.

Coun. McDONALD, for the Executive Committee, submitted the following:

INAUGURAL ADDRESSES.

REPRINTS OF ADDRESSES DELIVERED BY THE MAYORS OF BOSTON AT THEIR
INAUGURATION FROM THE INCORPORATION OF THE CITY.

William H. Whitmore, formerly City Registrar, started in 1890 a compilation of the inaugural addresses of the mayors of Boston. Up to that time they were available only in odd and scattered municipal documents, kept with indifferent care, or in some instances in privately printed documents.

Because of the fact that the volumes in question are out of print, it is proposed to reprint the addresses in occasional installments in the *City Record*.

No. 25.

Mayor Brimmer delivered the following address to the City Council on January 1, 1844:

Gentlemen of the City Council:

In accordance with our annual custom, and the decision of my fellow citizens recently expressed, it has become my duty and high privilege again to address you, on the formation of the city government.

And I beg permission to improve this opportunity to make a few remarks in relation to the past and the present position and future prospects of our city, and to draw your attention to those subjects which experience shows are deserving your particular attention. It is now twenty-two years since the establishment of the city government, and it may not be without profit to cast our eyes back for a moment to the situation of our community at that period, in order that we may draw instructive lessons for the guidance of our policy for the future.

At the organization of the city government in 1822 the population of the town of Boston hardly numbered 45,000 inhabitants, thinly scattered in comparison with the present, over this peninsula, dependent for its support and its future growth and prosperity upon the produce of the agriculture of a region comparatively limited, upon commerce and the fisheries, both beginning to recover after a period of war and embargo, and the commercial revulsions consequent upon a general peace. Manufactures at that period, a secondary interest, struggling to support itself against a rival, and as was then supposed, an adverse interest — commerce. While the estimated capital upon which these important interests and their operations were based was eighty-four millions of dollars.

Within the last twenty years an immense change has taken place in our position and future prospects. Our population, from 45,000, will have attained within the year upon which we have entered to 110,000 inhabitants (supposing the increase to have been the same since, as previous to the last census), an increase of 145 per cent within that period. The receipts from the produce of agriculture have increased beyond all estimate, not only in consequence of the gradual growth and improvement of the country, but of an admirable system of internal communication, extending itself far and wide throughout the land, holding in its iron embrace the rich valleys of the West, whose productions may not be estimated — receiving from and dispensing incalculable blessings to all who are within the reach of its advantages. Your commerce has vastly increased with the increase of agriculture and manufactured produce.

You have become the center of a great manufacturing interest, gradually and surely increasing with the growing demands of a population increasing without precedent, and extending itself throughout the length and breadth of the land, drawing to its aid strength and support from, and giving encouragement to, every other interest, and destined at no distant period to exercise an extensive influence over all the interests of the country.

Your estimated capital has advanced to more than \$110,000,000 seeking everywhere secure investments and quick returns. The number of houses and other buildings erected the last few years is without precedent in this city, yet hardly keeping pace with the increase of its population which, under the blessings of peace and a good government, will at the next census approach 150,000 inhabitants. And I may add that, such is the peculiar situation of our city and its natural limits, the time must arrive when no spot of equal extent on this side of the Atlantic will number so dense a population; a state of things by no means a subject of congratulation. I have adverted to these facts not for the purpose of a vain boast, but rather as a subject of gratitude to that kind Providence which has blessed us with increase, and more especially that we may be fully impressed with the fearful responsibility which devolves upon us. That we may feel the importance of enlarged views in relation to the improvements of the city, in extending and beautifying our streets and public places, in a careful attention to internal health and police, in an enlarged system of internal and external intercourse, in a liberal encouragement of charitable and literary institutions, in a farsighted preparation for the moral, literary and physical education of the rising generation. We are to call to mind that, though our borders are narrow, we are the center of a dense and increasing population. That our city is the capital of an extended portion of our country, looking to our example to be imitated or shunned as our policy of municipal government shall be narrow or enlightened.

Your early attention will be naturally turned to the state of the finances of the city, which it is believed will be found in the most satisfactory condition. Of the amount ordered to be raised by taxes in May, 1843, \$628,192 have already been paid into the treasury, leaving a small amount comparatively uncollected. Of the \$300,000 authorized to be borrowed under the order of the City Council of April, 1843, and to be repaid within the financial year, only \$172,985 were borrowed, which amount was paid in October last. The balance of cash now in the treasury is \$337,920.

The city debt, which amounted on the 1st of January, 1843, to \$1,518,700, is being rapidly extinguished. Of this amount, \$94,900 was due the present financial year, of which \$54,900 has already been paid, and the balance becoming due before the 1st of May will be paid from the amount now at the credit of the city debt, amounting to \$118,850, and leaving a surplus of \$78,850, to which will be added the excess of the appropriations over the expenditures at

the close of the financial year, the probable amount of which may be estimated at \$50,000, together with the annual appropriation, and the amounts receivable from the sales of city land during the ensuing season, to meet \$226,100, due in the year 1844-45, and which probably will be all paid; should, however, any balance remain, it may be transferred to the year 1848-49, in which there is nothing due. From May, 1845, to May, 1854 — nine years — there are due \$247,000, so distributed in amounts as to be readily met by the ordinary appropriations of those years.

The state, therefore, of the finances and the gradual extinction of the city debt are in all respects highly satisfactory. And although the growth of the city will necessarily demand increased expenditures in certain departments, it is not anticipated that any unusual appropriation will be required during the coming financial year; on the contrary, it is to be hoped that, by the increase of taxable property and a judicious economy, the ratio of taxation may be considerably diminished.

Public attention has been during the past year more particularly turned to public lands, and they have become and are daily becoming more a subject of inquiry. A more liberal policy with regard to the city lands in Ward 11 might with advantage be adopted. Streets already laid out should be filled up and drained, for it cannot be expected that purchasers will be found for lots in streets which are not rendered passable. The time is approaching, if it has not already arrived, when a residence on the southerly portion of Washington street, that beautiful avenue to the city, will be considered the most desirable within its limits. Every lot sold increases the value of every other, and adds its own value and the buildings erected on it to the taxable property of the city.

The amount received in the treasury since May 1 last, for bonds paid is.....	\$20,507 00
Cash received for land sold....	38,709 00
Making.....	<u>\$59,216 00</u>

all of which has been placed to the credit of the city debt.

Connected with the finances of the city is the mode in which the taxes are assessed; and there is no subject which more requires your early attention and a more thorough reform. It is a subject upon which a great deal of just complaint has been made; it is one also about which there is much complaint which is most unreasonable. That entire satisfaction can be given is not to be supposed, and that there should exist in every community persons who are desirous of throwing upon others the burdens which belong to themselves to bear is always to be expected. Our fellow citizens well know that a government is not to be carried on without taxes, and none are more ready to be taxed or to tax themselves to a reasonable amount; but the uncertainty and inequality of their taxes is a just cause of complaint and demands immediate remedy.

The difficulty undoubtedly exists in the composition of the Board of Assessors. By the ordinance passed on the 16th May, 1836, it is provided that twenty-seven assessors shall be elected, three of whom shall be chosen from the citizens at large, and be called principal assessors; and the remaining twenty-four from the residents of the respective wards, two

from each ward, to be called assistant assessors. The assessors choose their chairman and sit and act as one board; and every assessment and every abatement is required by the ordinance to be the act of the Board, or a majority of the Board. The consequence of this arrangement is what might very reasonably be expected, that the principal assessors, being a small minority, are reduced to the situation of clerks, and required to execute the decisions of the majority, or of one or more individuals who may happen to have a leading influence in the Board. The effect of electing two residents of each ward is in fact to make them ward officers, and to create local influences and interests; the object of each member being very naturally to protect the residents of his own ward and diminish their taxes, which necessarily increases those of every other, and this is effected in proportion to the influence of the individual. The inequality and uncertainty of the taxes so much complained of may also be attributed, in a great measure, to the changes constantly taking place in the Board of Assistant Assessors. Of the present board there are only seven persons who were members in 1841. The number of assistant assessors is thought to be too large for the prompt transaction of business, and some misunderstanding exists with regard to the power of the principal and assistant assessors. The Board of Assistant Assessors, if not abolished and the place supplied by some other body chosen at large, should be reduced in numbers; and while it should exercise some check over the doings of the principal assessors its functions should be advisory rather than paramount. The salaries of your principal assessors were fixed at a time when the duties of the office were comparatively inconsiderable. The labors of the office have greatly increased, and the salary should be such as to induce them to give their whole time to the arduous duties of their important office. By the ordinance no compensation is allowed the assistant assessors, and none has been demanded; yet it is very doubtful if, by the seventh chapter of the Revised Statutes, they are not entitled to one dollar for each day they serve in that capacity. The subject is not now for the first time presented to the consideration of the City Council, and I would ask your early attention to it, fully convinced that it will receive at your hands the most careful investigation. It is but justice to the respectable members of the present board to say that these remarks do not more particularly apply to them than to their predecessors. *It is the system which requires reform.*

The House of Industry, the House of Correction and the House of Reformation for juvenile offenders, under the direction of separate and efficient boards, are believed to be in the best possible order, and to perform these several important functions to the entire satisfaction of the city government and of the citizens. The advantages of the House of Reformation are daily developing themselves, and the important influence which is exerted over the inmates of this interesting institution is of the most satisfactory character, and more than fulfills the anticipations which were entertained at its establishment.

The Lunatic Hospital is in excellent order, and its unfortunate inmates are believed to receive all the attention and comfort which in their situation can be afforded them. The measure of success in the restoration of the patients to sound

health and reason is as great considering the condition of the inmates sent there as could be reasonably anticipated. Out of twenty-nine persons discharged within the last eight months twenty-two were reported as "restored."

The institution the last season has been unusually crowded. There are sixty-six rooms for the reception of the most violent, and two dormitories for those in a more quiet state, furnishing accommodation for about one hundred patients. The inmates have, however, exceeded that number, and at one time reached as high as 114, when no more could be admitted. The number of incurables who become a permanent charge upon the institution is constantly increasing, and unless the state shall provide elsewhere for the foreign paupers maintained at the state charge it will be necessary to furnish additional accommodations. Although the furiously mad are not by law admitted to this institution, yet most of the patients are at their reception in a high state of excitement and produce a most unfavorable effect upon those with whom these are necessarily associated; and other inmates are liable to sudden and violent paroxysms of madness. The want of rooms for the temporary seclusion of these patients is seriously felt; and it will be a subject for your consideration whether an additional wing, having these rooms in its lower story and extended accommodations in those above, will not be absolutely requisite. There are thirteen persons in the House of Industry, laboring under a greater or less degree of alienation of mind, mostly idiots, and six at Worcester, furiously mad, maintained at the expense of the city. The want of employment for those who are capable of occupation is seriously felt. This subject has already received the attention of the City Council at the close of the year, and is earnestly recommended to and will doubtless receive your earliest attention.

Our city has been blessed with an unusual degree of health the past year. With the exception of a few cases of small-pox there has been no contagious disease within our limits, and it is a remarkable circumstance that notwithstanding the extended commerce of this port it has not been found necessary to place any vessel in quarantine during the past season. The condition of the Fire Department, generally speaking, is highly satisfactory, requiring, however, constant care that abuses and insubordination should not creep in to destroy its efficiency and the confidence reposed in it.

The number of alarms within the city during the past year have been	178
The number of fires.....	85
The amount of property destroyed.....	\$140,000

which is a small percentage on the taxable real estate of the city. These facts sufficiently prove the discipline and efficiency of the department, as well as the skill of the engineers and other officers by whom its efforts are directed.

The last subject to which I propose to draw your attention is the condition of our public schools, which it is believed was never more satisfactory than at the present time. Under the instruction of able and faithful instructors, the progressive improvement of the schools is from year to year clearly perceptible. This improvement is attributable to the high order of principal and assistant instructors in the several schools—to the improved condition of the better preparation of the children on admission from the

primary schools—and to the increased interest which the parents take in the public schools, and in the education of their children.

The advantages of a free public education have now become fully established, and seem to have been appreciated from the earliest settlement of the country. As early as 1641 the inhabitants voted that certain provisions be made "for the maintenance of a free school for the town." This vote is worthy of notice as illustrative of the feelings and sentiments of the inhabitants at that early period of our history. It was ordered to be a "free school"; it was to be maintained at the public expense and it was to be "for the town"—that is for *all* the inhabitants—and it is hoped that these enlightened sentiments will prevail as long as this community shall exist.

There are at this time seventeen grammar schools which, together with the Latin and English High Schools, contains.....	7,533 pupils
There are 112 primary schools, containing.....	7,225 pupils

Making a total of.....14,758 pupils being an increase of 1,353 children within the last year. The state of the schools has been the past season excessively crowded, so much so that several of the wardrooms have been necessarily diverted from their legitimate uses to the great inconvenience of the citizens and converted into school rooms, a state of things requiring your especial attention.

At no time has the importance of our school system been more fully appreciated—if our city has been free, generally speaking, from scenes of riot and confusion it is mainly attributable to our system of public education. It has been truly said that if anything will preserve tranquility and order in a community, perpetuate the blessings of society and free government, and promote the happiness and prosperity of a people it must be the general diffusion of knowledge and of moral education.

These are some of the many important subjects which will come under your consideration, and there are others to which I have not time to advert. Your duties as members of the City Council on which you are now entered are arduous and responsible, requiring the exercise of an unbiased judgment, a firm decision and enlarged views, looking to the permanent rather than to the immediate interests of the city, and that you will bring to their consideration these qualities I do not doubt. In the discharge of these duties, arduous and responsible as they may be, you may rest assured of my most zealous cooperation.

PARIS TO RID STREETS OF WASTE PAPER.

Paris is endeavoring to surpass Berlin in its reputation for clean streets. Hitherto the boulevards of Paris were littered with waste paper. Now a new squad of cleaners, mounted on tricycle carts, rid the thoroughfares of every scrap of paper. The men pick up the paper with spiked stieks and drop it into a waste-paper basket on top of the cart. When this basket is full it is emptied into the box. Among the several advantages of this form of street cleaning is the important one that no dust is raised, as would be the case if the paper was swept up.—*Municipal Journal.*

\$1,000 allowance for one 1913 Franklin close-couple touring car, making net cost, \$920.

January 27, 1914.

HON. JOHN F. FITZGERALD,
Mayor of Boston:

DEAR SIR,— Referring to the attached request I have to say that Doctor Mahoney of the Health Department desired very much to have a cross country touring car and to trade in his Franklin close couple touring car as part payment. The best offer I received from the C. P. Rockwell Company was \$800 for the trading car up to last Saturday. I delayed bringing this matter to your attention because I believed that the city should receive \$1,000 for Doctor Mahoney's car. I am pleased to inform you that the Rockwell Company has agreed to allow \$1,000 as part payment for the new cross country touring car.

Respectfully yours,
D. FRANK DOHERTY,
Superintendent of Supplies.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved by the Mayor:

APPOINTMENT OF ARCHITECTS.

Mr. Clarence H. Blackall has been designated as the architect for the proposed fire station to be erected in Charlestown.

Julius A. Schweinfurth, 35 Congress street, Boston, has been designated to be the architect for the proposed new Municipal Building in Wards 21 and 22, for which an appropriation of \$3,000 is now available. His employment is to consist of furnishing studies, plans, specifications, etc., sufficient to show intelligently what the proposed building is to consist of, also other data sufficient to determine what the estimated cost of the building would be. For this work he is to be allowed and paid ½ of 6 per cent of the estimated cost of such building. If it is later determined to erect the building, and sufficient additional appropriation is made for the purpose, he is to furnish complete plans, specifications, etc., and his entire commission on same, including supervision of the

work, is to be 6 per cent of the cost of such building, and the above-mentioned ½ of 6 per cent is to be reckoned as part of his commission.

EXTENSION OF STREET LIGHTING CONTRACT.

Authority granted to the Commissioner of Public Works on January 30 to extend the contract with the Rising Sun Street Lighting Company for lighting the streets, parks and alleys of the City of Boston, from February 1, 1914, to July 1, 1914, the estimated amount of the contract being \$120,000. In making extension the commissioner states that: "The reason for this extension is that there is no other available method ready for lighting these streets and alleys."

The city may at its option at any time within the last three months of this extended period call upon the contractor to discontinue the lighting of the entire area covered by his operations, or of such parts as may be from time to time determined by the city; or the city may at any time within this extended period cancel this contract, provided favorable action is taken by the City Council on the proposal of the Boston Consolidated Gas Company now pending before it.

CHICAGO TO ERECT MUNICIPAL LODGING HOUSE.

Among the appropriations contingent on the approval of the bond issue to be voted this year, is the appropriation for \$100,000 providing for a new municipal lodging house. It is the intention of the city to sell the property now used as a municipal lodging house and to apply the proceeds of the sale, together with \$100,000, to the \$10,000 allotted for a women's municipal lodging house, and erect a modern structure. The mayor said the city could lease a site for a long term of years, erect a building with separate entrances for men and women and have all under one roof.—*Municipal Journal*.

ADDRESS OF MAYOR JAMES M. CURLEY.

DELIVERED TO THE CITY COUNCIL IN TREMONT TEMPLE, FEBRUARY 2, 1914.

Gentlemen of the City Council.—The present system of election has resulted in the substitution of absolute liberty of action for party dictation, and marks the termination as a controlling factor in municipal campaigns of pledges, promises and obligations invariably redeemed at the expense of the public treasury. The old order, which I trust is happily ended, is largely responsible for our present tax rate and debt, which if permitted to increase during the next quarter of a century as it has in the past would serve as an insuperable barrier to financial investors seeking location for industries so vitally essential to the well-being of the entire people.

The United States Census Reports upon the per capita net debt of eight

leading cities for 1902 and 1912 discloses the astonishing fact that Baltimore, whose net debt has nearly doubled in ten years, because of the great holocaust visited upon that city, has nevertheless a debt \$25.08 per capita less than is the debt of Boston; that San Francisco, the per capita debt of which in 1902 was \$1.72, has to-day, despite an earthquake and a great conflagration, and an almost complete reconstruction of the municipality, a debt less than half as great per capita as is the debt of Boston; that Philadelphia, whose boulevards are perhaps unequaled by any city in the country, has a per capita debt of \$45.78 less than the per capita net debt of Boston. The figures are indeed illuminating:

CITY.	1902.	1912.	Change from 1902.	Per Cent of Change.
Chicago.....	\$26 22	\$28 62	+\$2 40	+9.15

Boston *.....	95 58	106 42	+10 84	+11.34

* Net debt of the County of Suffolk is included in Boston's net debt.

The per capita cost of maintenance reveals the astonishing fact that the payment by the City of Boston, including our Suffolk County payment, is \$3.70 per capita greater for maintenance than the great metropolis of New York, and, in fact, exceeds the per capita cost for maintenance of every leading city in the entire United States; that during the ten-year period 1902-12 the per capita cost of maintenance in St. Louis has been reduced from \$23.96 to \$19.40, and that Chicago, which to-day practically embraces a territory many times greater in area than Boston, bears a per capita maintenance cost slightly more than half as great as that of the City of Boston, and the date as prepared by the United States Census Bureau is deserving of consideration.

Boston.....	34 40	36 43

N. B.—Boston's payments include those of Suffolk County.

I believe in justice to myself and those men responsible for my election as Mayor that the public should be fully informed as to the conditions of the municipal treasury, which in 1909-10 contained at the end of the year unappropriated cash amounting to \$955,388.68; in 1910-11, \$1,486,805.83; 1911-12, \$1,003,248.42; in 1912-13, \$557,257.47, and to-day, the year 1913-14, about \$500,000. But it must be understood that the unappropriated cash now in the treasury in all probability is there in consequence of payments upon outstanding taxes by persons who, through fear that their property might be sold for unpaid taxes, have within the past ten days made payments that under ordinary conditions would not be in the treasury until April or May.

It is not my purpose to present these facts either as a criticism or condemnation, but it is apparent to me as it must be to every citizen that if it had not been for the extraordinary effort to induce the payment of taxes in the closing days of the present year I would have found the public treasury absolutely without a dollar upon taking office.

The wisdom of those honored men who have preceded me in the office of Mayor in developing a park system, which to-day is a source of health, pleasure and pride to the community, is worthy of praise.

The Boston of to-day, however, should be more than a city beautiful, and should throb and vibrate with the hum of industry intermingled with the happy smiles of a contented and prosperous

people, whose source of happiness may be traced to profitable employment found not outside of but in Boston.

Every city in the country is to-day striving to develop industry, and we should be no laggard in this all-important work.

The imperative need of promoting the industrial life of the municipality warrants the public-spirited citizenship of Boston in making a sacrifice for the good of the people. The industrial development of neighboring cities and towns in Massachusetts, where the supply of skilled and unskilled labor is less than is found in Boston, despite the fact that the tax rate in the several cities and towns exceeds the Boston tax rate in most cases by more than 12 per cent, has been largely due to the fact that realty values adjacent to railroads are lower than obtain in Boston.

In my opinion the tender of a site with a railroad siding without cost to manufacturers agreeing to locate in Boston would be sufficient to offset the disadvantage at present confronting the industrial growth of the city.

I propose during my administration to contribute \$1,000 of my salary annually and shall invite similar contributions from one thousand public-spirited citizens for the promotion of industry in the manner above set forth. And in my opinion, if a fixed policy of this nature is established and encouraged, it will be possible in the succeeding ten years to add more than fifty million dollars to the realty value of Boston, and provide opportunities for profitable employment to not less than twenty thousand of its inhabitants.

SUPPLY DEPARTMENT.

The imperative need of a central purchasing department, through which supplies shall be contracted for, must be apparent to every citizen. Supplies now required for the various departments of this municipality are purchased in retail rather than wholesale quantities and at retail rather than wholesale prices. Failure to take advantage of seasonable purchasing invariably results in payment of excessive price for commodities in general. The adoption of a modern system of auditing, through which bills may be discounted in ten days or less, thereby enabling the city to enjoy and receive an advantage common to every business concern, namely, cash discounts on ten-day payments, would result in a considerable saving to the taxpayers.

I therefor recommend such legislation as will result in the purchase of all supplies through the Supply Department for every department, and that advantage be taken of seasonable purchasing and cash discounts, to the end that the present archaic and grossly wasteful system may end.

MONTHLY CONFERENCE ON MUNICIPAL PLANNING.

A monthly conference on city planning, to be participated in by committees representing the Church, including every denomination; the Press, a representative of each daily newspaper; Capital, a representative of each leading industry; and Labor, a representative of each of the larger labor organizations, to plan a policy constructive in character and anticipating twenty or more years' growth in our municipal life, is necessary. I am a firm believer in the value of publicity, and as sunlight destroys the microbes that lurk in dark and damp places, so, in my opinion, by making the city's business become the property of all, rather than

the office holders alone, it will result in the elimination of graft and corruption and the development of that degree of efficiency and economy at this time imperative. The combined brain power of these men, all of whom are dependent upon the prosperity of the municipality, should make easy of solution those problems that are most difficult to solve, namely, increasing debt, increasing tax rate, increasing demands for public improvements and failure to progress rapidly along industrial, mercantile and commercial lines. A commission of this character created twenty years ago would have been sufficiently powerful to prevent the adoption of our present unsightly, and from a property standpoint injurious, elevated system and our short-sighted and wholly inadequate system of tunnels and subways.

CITY'S GROSS DEBT.

The gross debt of the city ten years ago was \$88,149,106, and to-day is \$120,525,581.01, and upon this vast sum, which ten years ago represented an interest charge, including interest on metropolitan assessments, of \$4,500,848, we to-day are compelled to pay an interest charge of \$6,168,853. When one considers that the amount now paid in interest annually on outstanding indebtedness represents the equivalent of the taxation collected on property valued at \$358,654,245, the need of a City Planning Conference that will devise ways and means of providing for pressing and legitimate needs, while presenting a remedy for our present financial ills, must be apparent.

It is not my purpose to criticize my predecessors in the office of Mayor for the present financial condition of Boston, but it is my determination that the policy of discharging political debts through the mediumship of the city treasury shall cease.

The pay rolls in 1903 and 1904 were \$12,208,743.04 for all city departments, and the pay rolls for 1913 and 1914 will total \$15,507,768.33 for all departments, and this tremendous increase, for which I am in nowise responsible, calls for the exercise of economy and efficiency in a most pronounced degree.

I assume that the men selected to serve as members of the Conference on City Planning, all of whom are leaders in their several walks of life, will render a great service to myself and those who may succeed me in determining the line of demarcation where humane and just treatment ends and where profligate and unjustifiable expenditure begins in the matter of wages paid men in the service of the city.

I believe in justice to the taxpayers and to the men in charge of the various municipal departments that in November of each year all requests and recommendations for salary increases for the ensuing year should be submitted in the department estimates, and that changes in salaries other than those contained in the budget shall not be allowed or considered during the year. The adoption of this system, coupled with general equalization of salaries, would result in the fullest possible measure of justice to men in the city service and the substitution of merit for political favor.

MUNICIPAL EFFICIENCY.

The necessity for promoting the highest efficiency in the various branches of the municipality's activities merits serious thought upon the part of every citizen.

It has been my observation that the efficiency of men in the Sewer Service at the end of ten years of service is not infrequently impaired at least 20 per cent largely through the exacting character of the work performed by them and the exposure incidental thereto, resulting largely in diseases which cause great suffering.

In my opinion when additional men are required for other branches of the city service, transfers should be made from men in the Sewer Service, and that all men hereafter appointed to the city service as laborers in the Sewer Service should work not in excess of five years in the Sewer Service; at the expiration, of five years be transferred to the Sanitary Service; at the expiration of five years in this service be transferred to the Street Cleaning Service; at the expiration of five years in this service be transferred to the Paving or Water Services and at the expiration of five years in these services be transferred to the department of Park and Recreation.

I would further urge that hereafter positions as watchmen, stablemen, yardmen, storekeeper or similar positions not requiring excessive labor be filled through appointment of men who have been crippled in the service or become so advanced in years as to render it impossible for them to do as much work as younger men.

The present wage and pension system warrants the belief that an honor and a merit system can be adopted through which increases in inspection force will be unnecessary, and such reduction in inspection force as may result from resignations, transfers or otherwise should remain unfilled.

STREET CONSTRUCTION.

The change in our traffic system occasioned by the substitution of motor-driven vehicles for those drawn by horses renders necessary a change in our system of street construction from macadam and telford to some street surfacing more durable and the maintenance of which will be less expensive. The importance of this departure is best appreciated when one realizes that more than two hundred miles of street in Boston to-day are constructed of macadam and telford, which during a great portion of the year are unsightly, unsanitary and at times, because of climatic conditions, rendered almost impassable for pedestrians. In my opinion a conference of engineers should be called to determine the most durable and economic material and method of street construction for the future.

WATER AND SEWERAGE SERVICE.

The failure of our water and sewerage service to adequately meet the requirements occasioned by increased population in various sections of our city is a problem, the solution of which at an early date is most imperative.

REFORMATION.

The abolition of the Parental School at West Roxbury and the correctional institutions at Rainsford Island, where boys are committed for truancy or misdemeanors, should for the welfare of the community at once be undertaken. A departure from the present system and the substitution of a farming-out policy would protect the boy from the contamination of older lads than himself more versed in criminality and save him to

society and a useful future, and in addition represent a considerable saving to the municipality.

INEBRIATES.

Medical experts to-day are unanimous in the opinion that drunkenness is a disease, and such being the case, for the protection of unfortunates thus afflicted, a system of segregation should be adopted, which I here recommend. The adoption of this system, coupled with humane treatment, would render unnecessary further increase in the number of officers now required for the supervision of these cases, and bring about a reduction in the cost of maintenance at our correctional institutions.

ELECTIONS AND PRIMARIES.

The present system of holding primaries and elections for municipal office at a time when the weather is unusually severe, resulting in a low percentage of votes cast, demands a change in date.

In my opinion the convenience of the electorate and the duplication of expense merits the holding of city election upon the same day as state election.

A bill of this character presented to the Legislature at an early date would appear advisable, since it would be of benefit to all the people and in addition result in a reduction of expense in the conduct of the Election Department.

PARKMAN FUND.

The George F. Parkman Fund will, unless present tendencies are checked, serve a purpose other than that intended by the donor.

The use of the income from this fund should hereafter be applied strictly to maintenance purposes, and if so utilized will prove the blessing to all intended by the donor.

CONCLUSION.

Special privilege in any form is objectionable and the removal of this cancer from the body politic must be undertaken at once, since the welfare of the entire community is paramount to the wishes or welfare of any particular element of the community.

From time to time during my administration, as necessity requires, it is my purpose to depart from the custom that has obtained in the past and appear before your honorable body and present for your consideration my views upon such matters as in my opinion may for the welfare of all be deserving of consideration.

It is my purpose, gentlemen of the Council, to administer the affairs of the municipality in a humane, honorable, just, efficient and constructive manner, and in this work I solicit your cooperation and that of every citizen interested in the welfare of Boston, to the end that God may guide our efforts and that at the termination of our service the people whom we have been elected to serve may, in consequence of our labors, enjoy a greater measure of happiness and prosperity.

TELEPHONE SYSTEM IN MILWAUKEE PUBLIC SCHOOLS.

A private "unlimited" telephone system for communication between all the schools of the city, with a "central" at the new school headquarters, is being installed, and will be ready for operation some time this month. It also is for a general connection between school headquarters and the general telephone system of the Wisconsin Telephone Company.—*Municipal Journal*.

LEAVES OF ABSENCE.

On the report of the Superintendent, leave of absence for study, under the provisions of section 317 of the regulations, was granted the following-named teacher for the term specified:—

Department of Manual Arts—Lydia G. Sprague, assistant instructor in manual training, from Sept. 1, 1914, to Aug. 31, 1915.

On motion of the Superintendent, it was ORDERED, That the following leave of absence granted at the meeting of the School Committee on Oct. 6, 1913 (p. 146), is hereby rescinded:—

Continuation School—Mary B. Drown, assistant, elementary course, from Sept. 29 to Nov. 29, 1913, without pay.

Laid on the table.

On motion of the Superintendent, it was ORDERED, That Mary B. Drown, assistant, elementary course, Continuation School, is hereby granted leave of absence from Sept. 29 to Nov. 29, 1913, and that the sum of two hundred dollars (\$200) be deducted from her salary in consequence of said absence.

Laid on the table.

DESIGNATION OF A TEACHER.

A communication was received from the Superintendent, under date of Jan. 30, 1914, reporting the following designation of a teacher to serve in the position indicated, until such time as it shall be filled otherwise in accordance with the rules and regulations:—

Mather District—Stella W. Seymour, assistant, kindergarten, as acting first assistant, kindergarten, to take effect Jan. 19, 1914, vice Ada Cushing, absent on leave.

Placed on file.

EXCESS TEACHER, DORCHESTER HIGH SCHOOL.

The Superintendent offered the following:—

ORDERED, That an excess junior master in place of a master, head of department, is hereby authorized in the Dorchester High School, instead of a substitute, during the remainder of the current school year.

Passed, under a suspension of the rules.

TEMPORARY SUPERVISOR OF DIVISION C CLASSES, EVENING ELEMENTARY SCHOOLS.

A communication was received from the Superintendent, under date of Jan. 30, 1914, stating that he has gone over the situation of appointing a temporary supervisor of Division C classes, evening elementary schools, with representatives of the State Board of Education, the Director of Evening and Continuation Schools and the Assistant Superintendent in charge, and believes that such appointment is necessary; that an agent of the State Board of Education visits these classes, but the duty of immediate supervision devolves upon the School Committee and some one person should have this supervision and be responsible for the quality of instruction and competent to pass judgment upon the general efficiency of its conduct.

Placed on file.

On motion of the Superintendent, it was ORDERED, That the employment of one temporary supervisor of Division C classes, evening elementary schools, is hereby authorized for the remainder of the current evening school term.

On motion of the Superintendent, it was ORDERED, That the salary of the rank of temporary supervisor of Division C classes, evening elementary schools, is hereby established at the rate of four dollars (\$4) per evening of service for the remainder of the current evening school term.

A communication was received from the Superintendent, under date of Jan. 30, 1914, reporting that, subject to the approval of the Board, he has appointed Mabel C. Kinsey, temporary Supervisor of Division C classes, evening elementary schools, to take effect Jan. 29, 1914.

Placed on file, and the appointment approved.

ADDITIONAL ASSISTANTS, SUPERINTENDENT'S OFFICE.

A communication was received from the Superintendent, under date of Jan. 30, 1914, reporting that, subject to the approval of the Board, and with the approval of the Civil Service Commission, he has appointed the following-named persons assistants in his office, to take effect on the dates set opposite their names:—

Alice F. O'Neill, Jan. 26, 1914.

Bertha A. Mann, Jan. 20, 1914.

Placed on file, and the appointments approved.

A communication was received from the Superintendent, under date of Jan. 30, 1914, reporting that, subject to the approval of the Board, and with the approval of the Civil Service Commission, he has appointed the following-named temporary assistants in his office, in connection with the work of evening and continuation schools, to take effect on the dates set opposite their names:—

Emma C. Partridge, Jan. 16, 1914.

Ellen C. Dempsey, Jan. 15 to Jan. 19, 1914, both inclusive.

Margaret F. Lynch, Jan. 27, 1914.

Placed on file, and the appointments approved.

ADDITIONAL TEMPORARY ATTENDANCE OFFICERS.

On motion of the Superintendent, it was ORDERED, That the employment of two additional temporary attendance officers for service in connection with the enforcement of the laws governing evening school attendance is hereby authorized to take effect Feb. 2, 1914, and to continue until the close of the current evening school term.

ATTENDANCE AT ANNUAL MEETING OF DEPARTMENT OF SUPERINTENDENCE.

On motion of the Superintendent, it was ORDERED, That the Superintendent and Assistant Superintendents are hereby au-

thorized to attend the annual meeting of the Department of Superintendence to be held in Richmond, Va., on Feb. 24, 25, 26, and 27, 1914, at an expense to the city not to exceed five hundred dollars (\$500).

Passed, Mr. Corcoran voting in the negative.

ESTABLISHMENT OF ADDITIONAL KINDERGARTENS.

On motion of the Superintendent, it was ORDERED, That the establishment of additional kindergartens, to take effect Feb. 2, 1914, is hereby authorized as follows: Emerson District, new building, corner Trenton and East Eagle streets, morning kindergarten; Samuel Adams District, Samuel Adams School-house, morning kindergarten; Ulysses S. Grant District, James Otis School-house, afternoon kindergarten.

AMENDMENT TO ELIGIBLE LIST.

TRANSFER OF APPROPRIATIONS.

A communication was received from the Business Agent, under date of Jan. 30, 1914, reporting that, pursuant to the authority granted him at the meeting of Dec. 1, 1913 (see p. 201), he has made the following transfers:—

From "Salaries of Instructors" to "Salaries of Officers".....	\$150.00
From "Salaries of Instructors" to "Supplies and Incidentals".....	21,417.92
From "Fuel and Light" to "Salaries of Janitors"	4,532.12
From "Salaries and Expenses of Nurses" to "Supplies and Incidentals".....	160.24
From "Salaries and Expenses of Nurses" to "Physical Education Special".....	254.43
From "Salaries and Expenses of Nurses" to "Salaries of Janitors".....	840.22

Placed on file.

APPROPRIATIONS AND EXPENDITURES FOR 1913-14.

A communication was received from the Business Agent, under date of Jan. 31, 1914, submitting a statement showing the appropriations, expenditures and balances for the financial year, 1913-14.

Placed on file.

DECORATION OF SCHOOL BUILDINGS.

A communication was received from Theodore M. Dillaway, Director of Manual Arts, under date of Jan. 30, 1914, requesting approval by the Board of a plan formulated whereby a master of a public school, through the co-operation of the teachers of the Massachusetts Normal Art School, may have his assembly hall decorated with mural paintings by the advanced students of the Art School, under the supervision of Mr. Richard Andrew, the expense to be assumed by the master, which would merely consist of the cost of materials; and stating that the work will be done in such a professional manner that the Art Commission will not hesitate to accept it.

Placed on file, and the plan approved, with the understanding that the paintings shall be approved by the Art Commission, by the Director of Manual Arts, and as to the manner in which they are attached to the walls of school buildings by the School-house Commission.

LEAVE OF ABSENCE TO AN ATTENDANCE OFFICER.

A communication was received from William H. Marnell, Deputy Chief Attendance Officer, under date of Jan. 28, 1914, transmitting a letter from George W. Bean, accompanied by a physician's certificate, requesting leave of absence on account of personal illness until Feb. 2, 1914, to take effect Jan. 13, 1914.

Placed on file, and leave of absence granted for the period specified subject to the usual conditions.

OCCUPANCY OF WELLS SCHOOL-HOUSE ON SUNDAY.

An application was received from Mitchell Freiman, Superintendent, West End House, under date of Jan. 22, 1914, requesting permission to occupy the assembly hall in the Wells School-house on Sunday afternoon, Feb. 15, 1914, for the purpose of giving a free public concert by the West End House Orchestra.

Placed on file, the application approved subject to the usual conditions.

PROTEST AGAINST DROPPING OF KINGSLEY'S "WESTWARD HO!" FROM AUTHORIZED LIST.

A communication was received from the Guardians of Liberty, Dorchester Centre Court No. 4B, under date of Jan. 13, 1914, protesting against the action of the Board in dropping Kingsley's "Westward Ho!" from the authorized list of text and supplementary books, and requesting that they be given a hearing in regard to restoring it to the authorized list.

Referred to the next Board.

ANNUAL REPORT OF SCHOOL COMMITTEE FOR 1913.

On motion it was ORDERED, That this Board hereby adopts as its Annual Report for the current year, the Annual Report of the Superintendent as contained in School Document No. 10, 1913.

UNFINISHED BUSINESS.

The order laid over at the meeting of Jan. 19, 1914 (see p. 226), making changes in the authorized list of text and supplementary books, was taken up and passed unanimously.

The order laid over at the same meeting (see p. 230), amending sections 102, 111, 126, 131, 132, 133, 134, 150, 299, 306, 330, 422, 426, 427, and 433 of the rules and regulations, was taken up and passed, Mr. Corcoran voting in the negative.

The order laid over at the same meeting (see p. 230), amending section 231 of the regulations, was taken up and passed.

The order laid over at the same meeting (see p. 231), relative to the appointment of a hygiene committee among pupils in order to enforce the regulation with respect to temperature in school rooms, was taken up and passed.

RECESS.

The Board took a recess at 9.24 o'clock P. M.

The members of the Board reassembled in the School Committee Chamber at 10.30 o'clock P. M., and were called to order by the Chairman.

ESTABLISHMENT OF DEPARTMENT OF EDUCATIONAL INVESTIGATION AND MEASUREMENT.

The Board took up the two orders laid over at the previous meeting (see p. 231), one establishing a Department of Educational Investigation and Measurement, and the other establishing the salary of the Director of that Department, at the rate of \$3780 per annum.

The following order was substituted for the original order establishing said Department:—

ORDERED, That a director of promotion and educational measurement be appointed to develop a system of promotion of teachers after appointment on the basis of merit; to conduct such independent investigations as the Superintendent and the School Committee may order, such as the workings of the new child labor law, retardation of children, elimination of pupils in the high schools; and to conserve the benefits of the testing work of recent years.

Dr. Leen presented the following statement which, with the unanimous consent of the Board, was ordered printed in full in the Minutes:—

On Mar. 28, 1911, the following question was sent to principals of the elementary and secondary schools in Boston:—

"Will you kindly send me a brief statement on the effect of the abolition of the ninth grade and include especially the type of boy or girl graduated now compared

with years before, and also his or her fitness to assume secondary school work."

As a result of this, 76 masters reported, having given very careful attention and judgment in their answers. After a careful analysis of these reports, the following are deductions that have been made from these reports favoring a nine grade elementary school course.

1. The great majority of elementary school pupils—surely 60 per cent—do not go to High School. Many of them do stay to graduate from the elementary school. Then the purpose of this school is to provide for this great majority the ground work of an education, consisting of these two essentials:—

- (1) The power of reflective thought.
- (2) The habit of independent study.

Each grade, increasing proportionately from the first, must aim to contribute its share toward the development of the above essentials. Unquestionably nine (9) grades must mean a larger growth in those than eight.

2. In thus aiming to give the right foundation to those who quit school work, the minority has incidentally been equipped to attack, in the best way, the curriculum and methods of the High School.

3. The entrance age, excluding kindergarten, in Boston is five (5) years. The normally healthy average child spends one year in each grade, graduating at fourteen (14). This is the age permitting one to go to work, and also seems to be, in the opinion of most masters, an age providing sufficient maturity for grasping High School work. There need be then no interim of idleness or waste in the pupil's career.

4. The nine (9) grade plan can be sufficiently elastic to permit some few exceptionally bright pupils, intending to go through the High School, to graduate before fourteen (14) years. If there is the least doubt of their continuance in the higher school, then must extra problems be given enriching the regular grade work, that they may quit, not until fourteen (14) years of age, with no meagre foundations.

5. For those pupils taking more time than nine (9) years, the nine (9) grade plan is not inherently responsible. The subject of "Retardation" is quite complex in its causes, as recent investigation along physical defects of children has shown. The early work of the pupil necessarily impaired by those defects must be made up in the later work when the defects have been remedied. The foundation of an education which the elementary school must furnish its graduates, cannot be laid for these retarded pupils if a whole year is cut off at the top. Therefore they gain more by remaining in the familiar atmosphere of the elementary school, even beyond the age of fourteen (14) years, than in hurrying off to the new and strange conditions of the High School.

6. A curriculum, like the present one, not based upon the solution of problems that vitally concern the child's life, is a cause of much of the retardation. Compression of such a curriculum to meet the eight (8) grade plan necessitates superficial treatment of subject matter, thus preventing the growth of that keenness for essential details which is the characteristic of thoroughness, marking the German schools. Under the "8 plan" the teachers' fears of not "covering the ground" have contributed greatly to defeating the purpose for which the elementary schools exist, viz:—the development of right habits of thought and study. "Compression" of the nine (9) grade plan course to eight (8) will increase the teachers' fears and the number of weakling graduates as the immature complaint from the High School proves.

7. The eight (8) plan is said to secure more High School Educations. Under its nine (9) grade plan Boston had more pupils in the High School than any city with

eight (8) grades, even though some of the cities were much larger than Boston.

The question came on the passage of the substitute order, and of the order establishing the salary of the Director of the Department of Educational Investigation and Measurement.

The Chairman directed the Secretary to call the roll.

The two orders passed by the following vote:—

YEAS—Miss Curtis, Messrs. Lee and Leen—3.

NAYS—Messrs. Brock and Corcoran—2.

REFERENCE OF UNFINISHED BUSINESS TO NEXT BOARD.

On motion, all unfinished business was referred to the next Board.

ADJOURNMENT.

The Board adjourned at 11 o'clock P.M.
Attest:—

THORNTON D. APOLLONIO,

Secretary.

PROCEEDINGS OF CITY COUNCIL

Friday, January 30, 1914.

Meeting of the City Council, held in the Council Chamber, City Hall, at three o'clock p. m., President KENNY in the chair. Absent—Coun. Coulthurst and Smith.

The reading of the records of the last meeting was dispensed with, on motion of Coun. BAILANTYNE.

BUILDINGS, TENEAN BEACH.

The following was received:

City of Boston,
Office of the Mayor, January 30, 1914.

To the City Council:

I transmit herewith and recommend for passage by your honorable body the accompanying order transferring the sum of \$2,000 from the Reserve Fund to a special appropriation to be expended under the direction of the Park and Recreation Department for the preparation of plans for suitable buildings on Tenean Beach.

The beach property was purchased by the city a few months ago and it is my opinion that suitable buildings should be erected for occupancy next summer if possible. The use of the beach is increasing all the time and the citizens in the Dorchester district are very anxious that buildings of a permanent nature, adequate to provide accommodations for those who resort to the beach, should be built as soon as possible.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Ordered, That under the provisions of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer the sum of two thousand dollars (\$2,000) from the Reserve Fund to a special appropriation to be expended under the direction of the Park and Recreation Department for Tenean Beach, Buildings, Plans.

Referred to the Executive Committee.

Placed on file.

MINORS' LICENSES.

President KENNY submitted reports on petitions of thirteen newsboys and eight vendors' licenses—recommending that licenses be granted.

Reports severally accepted; licenses granted on usual conditions.

UNFINISHED BUSINESS.

President KENNY called up the following:

1. Ordered, That the sum of ten thousand dollars (\$10,000) be and hereby is appropriated to be added to the appropriation for Municipal Building, Ward 7, and that to meet said appropriation the City Treasurer be and hereby is authorized to issue, from time to time, upon the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

On January 16 the foregoing order was read once and passed, yeas 8, nays 0.

The order was given its final reading and passed, yeas 7, nays 0.

Ordered, That the sum of ten thousand dollars (\$10,000) be and hereby is appropriated to be expended for the laying out and construction of Charles street, between Spring and Hamilton streets, West Roxbury, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

On January 16 the foregoing order was read once and passed, yeas 8, nays 0.

President KENNY—The Chair understood at the last meeting of the Council that in the event of No. 4 receiving the approval of the Council that his Honor the Mayor would be prepared to finance No. 5 out of the money acquired out of No. 4. Therefore the Chair will suggest that before this order is passed that the Mayor be conferred with.

Coun. WATSON—I dislike to disagree with the Chair, but as I understood it the Mayor made some suggestion about using some of the money, that he thought perhaps he might take it out, but didn't say he would take it. However, I have no objections to its laying over and conferring with the Mayor.

President KENNY—If there is no objection this matter will lay over until after the recess.

Later in the session the President called the paper up and it was passed, yeas 7, nays 0.

6. Ordered, That his Honor the Mayor be and hereby is authorized to sell at public auction, at an upset price of not less than twenty-five hundred dollars (\$2,500), the parcel of land on East Ninth street in the South Boston district, containing 6,671 square feet, more or less, now in

charge of the Park and Recreation Department, and upon such sale his Honor the Mayor is hereby authorized in the name and behalf of the city, and by an instrument or instruments satisfactory to the Law Department, to convey said land to the purchaser or purchasers thereof.

On January 16 the foregoing order was read once and passed, yeas 7, nays 0.

The order was given its final reading and passed, yeas 7, nays 0.

7. Ordered, That his Honor the Mayor be and he hereby is authorized to execute an instrument satisfactory to the Law Department by which the restrictions on land of the Franklin Square House, adjoining the South Burial Ground, may be removed, said restrictions being those contained in a deed from the City of Boston to one Davis, dated September 15, 1865.

On January 16 the foregoing order was read once and passed, yeas 7, nays 0.

The order was given its final reading and passed, yeas 7, nays 0.

BUCKLEY offered an order—That the City Messenger be authorized to cause a sufficient number of the City Council Minutes for 1913 to be bound in the usual manner, and to supply one copy to each member of the City Councils of 1913 and 1914, each of the heads of the several city departments, and the usual number of copies to the Boston Public Library, the expense incurred by said binding to be charged to the appropriation for City Council, City Council Proceedings.

Referred to the Executive Committee.

PRINTING OF CITY DOCUMENTS.

Coun. BUCKLEY offered an order—That the City Messenger be authorized to supply each member of the City Councils of 1913 and 1914 and each of the heads of the several city departments with one set and the Boston Public Library with the usual number of sets of the city documents of 1913, when completed and bound.

Referred to the Executive Committee.

SALARIES OF JAIL OFFICERS.

Coun. BUCKLEY offered the following:

A Regulation Relative to Salaries of Jail Officers. Be it ordered by the City Council of Boston, as follows:

Section one, chapter four, of the Revised Regulations of 1898 is hereby amended as follows: By striking out in the second line the word "eighteen," and inserting in place thereof the words "twenty-five," and by striking out in the fourth line the word "eighteen," and inserting in place thereof the word "fourteen," and by inserting after the word "officers" in the fifth line the words "Assistant Clerk," and by striking out in the fifth line the word "twelve," and inserting in place thereof the word "thirteen," and by striking out in the seventh line the word "twelve" and inserting in place thereof the word "thirteen," so said section will read as follows:

"Section 1. The chief officer connected with the County Jail shall be paid an annual salary of twenty-five hundred dollars; the steward and the first inside officer and the clerk, each not exceeding fourteen hundred and fifty dollars; the second and third inside officers, and the assistant clerk, each not exceeding thirteen hundred and fifty dollars; the other regularly employed officers, each not exceeding thirteen hundred dollars; the watchmen and other necessary assistants, each not exceeding one thousand dollars."

Referred to the Committee on Ordinances.

PRISONS.

Coun. ATTRIDGE submitted the following:

The committee of the City Council, appointed in accordance with the provisions of section 1, chapter 224, of the Revised Laws, to inspect the prisons in the County of Suffolk, has attended to that duty and submits the following report: The institutions are the Charles Street Jail, the Parental School for Truant Boys and Girls at West Roxbury, the Deer Island House of Correction, and the Suffolk School for Boys at Rainsford Island, all of which were inspected by the committee.

The committee visited the Charles Street Jail and found everything as far as the care of the inmates was concerned in excellent condition. The committee believes that the officers should be uniformed and, furthermore, that the inmates of the jail should be allowed more exercise and air in the yard.

At Deer Island the committee reiterates its recommendation of last year concerning the segregation of drug fiends from the mass of prisoners. It also believes that the victims of alcohol should be placed in a separate building from prisoners who have been sentenced for criminal acts. New laundry machinery is required, and as soon as the old machinery is removed from the laundry the building should be torn down and a coal pocket erected on its site. This will be a great improvement, and is a matter of necessity.

The stone yard retaining wall is weak and should be immediately replaced. The committee recommends an electrically operated cold storage system for storehouse, butcher shop and morgue, with a separate machine capable of making about two tons of ice a day. The plant will cost from ten to twelve thousand dollars, but in the end would be a matter of economy for the city.

The total cost of the needed improvements is as follows: Laundry machinery, \$6,000; retaining wall at stone yard, \$10,000; new building, \$30,000; barn, \$2,500; total, \$48,500.

The committee visited the Parental School. Everything was found in good condition. It is desirable, however, that the marsh at the school adjoining the playground be filled in. Also a gymnasium should be erected, as there is no suitable place for indoor recreation during the winter months. The committee believes in establishing a trade school for the boys at the school.

The committee visited Rainsford Island, in accordance with the law, and recommends the following: At present the visitors, who are the parents, relatives and friends of the boys, meet them on the wharf and have a visit of less than one-half hour. They have no opportunity to see the institution and gain any knowledge of the treatment and education of the boys. During the winter months weather conditions make it very unpleasant to stand out in the open, as they are obliged to do by the boat schedule. It seems to the committee that a reception building should be erected to accommodate visitors or that the boat-schedule should be changed so as to allow enough time for visitors to walk from the wharf to the institution and remain there long enough to see the charges. An auxiliary engine and dynamo of smaller unit than one now installed should be allowed for use in case of emergency. Where the smaller boys are housed at Point Cottage, repairs are badly needed. The cottage system should be installed, rather than the congregate system which now exists.

Annexed will be found the reports from the various institutions, as required by law.

For the Committee,
JOHN J. ATTRIDGE,
Chairman.

The question came on the acceptance of the report.

The question was upon the acceptance of the report.

Coun. WATSON moved that the report be recommitted to the Committee on Prisons.

The motion was put and declared lost.

Coun. WATSON doubted the vote and asked for the yeas and nays. The roll was called, and the motion to recommit was lost, yeas 1, nays 6, Coun. WATSON voting yea.

The question then came upon the acceptance of the report.

The report was accepted, yeas 6, nays 1, Coun. WATSON voting nay.

RECESS TAKEN.

The Council voted at 4.25 p. m., on motion of Coun. BALLANTYNE, to take a recess subject to the call of the President.

The members of the Council reassembled in the Council Chamber and were called to order by the President at 5.05 p. m.

Last meeting of the City Council, held in the Council Chamber, City Hall, at ten o'clock a. m., President KENNY in the chair. Absent—Coun. Smith.

The Council voted, on motion of Coun. BALLANTYNE, to dispense with the reading of the records of the last meeting.

FOUNTAIN, BRIGHAM HOSPITAL.

The following was received:

City of Boston,
Office of the Mayor, January 31, 1914.
To the City Council:

For some time past I have been discussing with Mr. McInnis, chief engineer in the Water Division, and Dr. Francis Rowley, president of the Society for the Prevention of Cruelty to Animals, the necessity for a fountain in front of the Brigham Hospital.

Plans for such a fountain have been submitted to me at an estimated cost of \$5,000. I therefore recommend the passage of the accompanying order transferring the sum of \$5,000 from the Reserve Fund for fountain in front of Brigham Hospital, plans and estimates.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Ordered, That under the provisions of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer the sum of five thousand dollars from the Reserve Fund to a special appropriation for Fountain in Front of Brigham Hospital, Plans and Estimates.

Referred to the Executive Committee.

CAMPAIGN FUND, POLICE DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, January 31, 1914.
To the City Council:

I transmit herewith a communication from the Police Commissioner, under date of January 30, in reply to the order passed by your honorable body requesting information as to "whether or not the members of the Police Department were assessed, directly or indirectly, for campaign funds in behalf of any candidate for office at the municipal election held in this city on January 13, 1914."

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Police Department, January 30, 1914.
Hon. John F. Fitzgerald,
Mayor of Boston:

Dear Sir,—I have received a copy of an order, "That the Police Commissioner, through his Honor the Mayor, be requested to furnish the City Council with any information it is possible for him to obtain relative to whether or not the members of the Police Department were assessed, directly or indirectly, for campaign funds in behalf of any candidate for office at the municipal election held in this city on January 13, 1914."

The conduct of Boston police officers with reference to matters of politics is governed by section 2 of Rule 35, as follows:

"The police shall not engage in any religious or political discussions in the station houses. They shall not engage in such discussions at any other places while on duty nor when off duty, if in uniform. They shall take no part in politics for or against any candidate or party at any time or place, whether in uniform or not, except to deposit such ballot as they prefer at the primaries and elections. They shall not solicit or make any contribution in money, or otherwise, for political purposes, nor be present at any rally, convention or other political gathering, except as police officers there detailed for duty."

In the seven and a half years of my service as Police Commissioner I have never heard of a viola-

tion of the foregoing rule or of a charge that it had been violated. Should any citizen have evidence of its violation I shall be glad to see him.

Respectfully,

STEPHEN O'MEARA,
Police Commissioner for the City of Boston.

Placed on file.

Coun. WATSON—Mr. President, I would like to ask if it is in order to have that communication referred to the next City Council rather than placed on file at this time.

President KENNY—The Chair understands, Mr. Councilor, that the next City Council may take it from the files at any time.

THANKS TO MR. EDWARD E. MOORE.

Coun. McDONALD offered the following:

Resolved, That the City Council of Boston hereby tenders to Mr. Edward E. Moore, secretary to his Honor Mayor Fitzgerald, their sincere thanks in appreciation of his many courtesies and of the able and efficient manner in which he has discharged those duties of his position which have brought him so often in contact with the members of the City Council.

Coun. McDONALD—Mr. President, in introducing this resolution I wish to say that Mr. Moore, who is the only secretary of the Mayor who is leaving the Hall with him, in my judgment is one of the most courteous officials that was ever in the Mayor's office. He has always treated all the members of the Council—at least they tell me so, he has always treated me anyway—in a courteous manner, always willing to do anything he could for us in any way, shape or manner; and in introducing this resolution I thought that the members of the City Council should at least go on record in appreciation of what Edward E. Moore has done for us at any time we asked him to do anything and I trust the resolution will be unanimously adopted.

Coun. WATSON—Mr. President, I am thoroughly satisfied that there will be a unanimous vote cast in favor of this resolution, because it is deserved. I, too, can reiterate every word spoken by the councilor from Charlestown. Mr. Moore, the Mayor's secretary, has been very, very kind to me, very courteous; this was true of his predecessor, Mr. Field, and I only wish that we could offer something more substantial as a token of our appreciation of his manifold acts of kindness. And I cannot let the opportunity pass without thanking the City Clerk, Clerk of Committees and the City Messenger, and their assistants also.

The resolution was passed by a unanimous vote.

CLOSING PROCEEDINGS.

Coun. BUCKLEY offered the following:

Resolved, That the thanks of the City Council be extended to Thomas J. Kenny for the able manner in which he has presided over the meetings of this body for the municipal year 1913.

The question came on the passage of the resolution.

Coun. BUCKLEY—Mr. President, it is with a great deal of regret that I rise at this time to say my farewell to the City Council, of which I have been a member for the past four years. Coming here four years ago, after a most bitter political campaign and feeling antagonistic to most of the members and a stranger to most of you, I can truthfully say at this time that four years of my life have never been spent among better men, men for whom to-day I have the highest respect. I shall always consider it one of the highest honors to have had the privilege to serve with you, gentlemen, and also to have served with his Honor the Mayor of Boston. Coming here four years ago at the time he did, I feel a good deal of pleasure in closing my municipal service to-day at the same time that he does. Now I do not propose to talk very long at this time, but I do think that I ought to pay a tribute to each one of my colleagues during the past four years. Mr. Ballantyne I have the highest regard for. We have served together on the Committee on Claims. He was careful, considerate and conscientious, and, above all, humane, in the consideration of claims presented to our committee, and I always found him more than helpful. If I could not be there he was always willing to take my place and do everything that he possibly could. I hope that he will serve long in an official capacity for the City of Boston, because he is a high type of citizen and deserves well from the people. Then my colleague, Mr. McDonald, I have the kindest wishes for. You know it is always said that people coming from the same district are jealous of each other, afraid that one will get more credit than the other. But I am glad to say that not only here but in the Legislature, where we served together, there were no jealousies between Mr. McDonald and myself. We always cooperated and I think to-day we can point with pride—and with thanks also—to the City Council, and to his Honor the Mayor, for more improvements for Charlestown in the last four years than that section had received in the previous twenty-five years. And I hope you will elect him president of the next Boston City Council. My real regret is that I cannot give him a vote. I hope his election will be unanimous, and I know that he will serve with credit, not alone to himself but to the district from which he comes. Mr. Smith I campaigned with three years ago on

opposite sides of the ticket. He was an aggressive campaigner, and we learned to like him. He took up a great deal of our time but we did not begrudge it because he was always working in the interest of the city. I hope that in a short time he will be one of the greatest bond brokers in the City of Boston. And Johnny Attridge—to look at him is to see his sincerity. He is sincere, he is able, he is aggressive. He deserves well from every one of us, and I bespeak for him higher honors in this community, which I know he will get and which he richly deserves. When the time comes I hope that I shall be able to do my share in recognizing the integrity and ability of a most sincere young man. It is rather hard to talk about Walter Collins because I have always felt very close to him from the very first day I came to know him. He brought to this Council his great education and his good ability, and he certainly has helped us in close places by giving us of the benefits which he undoubtedly had. He has always been careful, conscientious and honest. The citizenship of Boston has a high regard for him and my hope and prediction for him is that higher honors are coming to him, and I hope ultimately to see him the chief magistrate of this city. Mr. Coulthurst we have been sorry we have not seen more often. I never knew him personally until he came to the City Council, but I knew him by reputation. We have all felt sorry that he has not been able to be with us regularly. I hope that he will have a speedy return to his good health and to his former activity, and that he will become a shining light in the annals of the City of Boston. Mr. Watson I have known for years, but I have been very closely associated with him the past year. He is always desiring to help the unfortunates. The public could not spare him from its service because he always has the interest of humanity at heart. And I hope that he will have a long service also in an official capacity for the City of Boston. Now, our attachés. Mr. Donovan is one of the noblest, ablest and most honorable of men. I never knew him intimately until he became City Clerk, and one of my chief regrets is that I did not vote for him as City Clerk when he was elected here, and if I were again in the City Council of Boston you may rest assured it would be a great deal of pleasure to give him my vote. And Mr. Doyle—quiet, unassuming and painstaking, with his good ability and always willingness to help. We certainly can't spare him, and I hope that the City Council will keep him as long as he lives, because he certainly is a great help to them. And City Messenger Leary of course has good sense, too. He showed his good sense when he came to Charlestown for a wife. And he has always been helpful to us, as have also Mr. Silloway and Mr. Glenn; they all deserve the best we can give them. And Mr. Harnden, the official stenographer, is undoubtedly the best in Boston, and always ready to help us out of any dilemma in which we may find ourselves. And then our Clerk of Committees, Mr. Dever—I feel a peculiar regard for him because he has always given me the kindest advice. I have felt as though he was an older brother and I never hesitated to go to him when I needed advice and assistance and he always gave it. I hope that he will soon recover his former health, and may his shadow never grow less, and I hope that he will continue to advise City Councils for years and years to come. And then his assistant, Frank Chisholm, who is also a painstaking, careful and industrious man, always willing to put himself out in order that he might help us. And we certainly owe him a great deal because he is always willing to do everything in his power. I always thought that if those men who have given their lives to the service of the public, like Mr. Donovan and Mr. Dever and Mr. Chisholm and Mr. Doyle, with their great ability, if they had gone into some private business rather than devoting their lives to the public service, what a tremendous success they would have made, and be a good deal better off in this world's goods than they are at present. The newspaper reporters have always been kind and considerate. I know I will be pardoned if I mention the few whom I have always felt very close to since I knew them because of their faithful sincerity and carefulness not to print anything which they felt would hurt. And if I mention John Kelley of the *Globe*, and Dick Howard of the *Herald*, and Eddie Dunne of the *Post*, and Mr. Hull of the *Transcript*. I know the people will agree with me that they have been very fair. Mr. Kearns has always been fair too, as has Mr. Cuniff. The other men I don't know very well because they have been with us only a short time, but I know they will pardon me if I don't mention their names. And now, sir, last but not least—we always keep the best for the last. When I came to the Council four years ago I did not know you and I did not think that I would like you particularly. But to know you is to like you and one can't help liking you. The opening sentence of the *Globe* about you on the Sunday before election this year fitly describes you. It says, "Tom Kenny is a man who grows upon you." And that is absolutely so. With your admirable qualities, your great abilities, your generous nature, perhaps you are one of the most misunderstood men in public life. But those who know you certainly can testify to your worth. Since I have known you I could not say a word against you and be honest with myself. When men have asked me the sort of a man you were I have told them—even in the recent campaign I have told them frankly how I found you. Defeat at times shows a man in his true worth; it

even means more than victory, and certainly your recent defeat cannot be called a defeat because it shows the manhood in you; it shows the courage with which you can meet a little adversity, the fortitude, courage and the great humanity in your makeup. I know, sir, that even though you were defeated that you are bound to stay in the public service and that you are bound to reach the goal of your ambitions. Now I do not propose to weary you any further to-day, but in behalf of the members and officials of the City Council, with whom I have had the honor and pleasure and privilege of serving for the last four years, and with you, sir, and I consider it a privilege, I want to present you with this watch and chain, and our wish for you is that it may wear out the sands of your life run out. (Presentation of watch and chain.) (Applause.)

Coun. WATSON—Mr. President, I cannot allow the opportunity to pass without paying my humble tribute to you, sir. Words of praise are not on my tongue fit to pay tribute to you as I believe it should be paid. I look back a short year ago when I was sworn in as a member of this body. I also remember one year ago that when they were voting for the presiding officer of this body that my vote was not cast for you, sir. I remember that I changed my vote in your favor after it was shown that you were the choice of the majority, and I believe if I have only cast one proper and right vote in this body this year it was when I changed my vote from another to you for presiding officer. How little I realized at that time how much I would grow to respect and honor you, sir. So to-day I stand here in this body and say without any qualification whatsoever that you, as the presiding officer of this body, in my opinion, and in the opinion of all who know you, are one of the most able, high-minded, honest, public-spirited citizens and noble friends that ever breathed God's pure air or basked in His sunlight. While you are not leaving us—and I pray that you will be with us for many years to come—I cannot close my remarks without reading a line that this morning I saw in a book. It applies, in my opinion, to you, sir. They are the words of Seneca:

"The greatest man is he who chooses right with the most invincible resolution; who resists the severest temptations from within and without; who bears the heaviest burdens cheerfully; who is calmest in storms, and most fearless under menaces and frowns; whose reliance on truth, on virtue and on God is most unflinching."

Speaking on manhood, Pope said:

"Of manners gentle, of affection mild,
In wit a man, simplicity a child."

Those are my tributes, Mr. President, to you. The resolution was passed by a unanimous vote. President KENNY said:

Gentlemen of the City Council,—I beg to offer you my most grateful acknowledgments for this splendid manifestation of your regard. I have no words to adequately express my real appreciation of this gift. I can only say, I thank you all. During the year of my presidency I have been the recipient of the full measure of considerate kindness, courtesy and attention at the hands, not only of the members of the City Council but at the hands of the various officials connected with the City Council as well, including the gentlemen who have been in attendance at our meetings representing the Press of the city. To each and every one I wish to say again—I thank you. This is the last occasion I shall have of addressing you as your presiding officer of the City Council of 1913. It also happens to be a turning point in the history of the city government, since our next reunion will be as participants in the ceremony of inaugurating a new mayor. I trust you will not consider me irrelevant or untimely if on such an occasion I venture a few remarks bearing on certain tendencies and problems of the hour. As we are to continue together, with our ranks almost unbroken, for another year, it may be profitable to pause a moment before we make a fresh start and look soberly and honestly at the drift of things. There is one conclusion that no one can escape, since it is a matter of simple arithmetic, and that is that modern city governments are expensive. They do a great deal for the people, but they also impose heavy charges upon them. When I consider the rise in the cost of government in Boston during the last few years, I cannot help wondering whether, if this matter were put fairly and squarely before the people, they would give their assent to the present policy. I have very little faith in the ordinary comparison of tax rates. Tax rates mean one thing in one city, another thing elsewhere, according to the basis of valuation adopted, and, moreover, they ignore the general income which consists of the proceeds of taxation, more or less disguised. The actual sums expended and the increase by periods should, in my opinion, be placed candidly before the citizens from time to time and before those of us who are charged with the responsibility of directing and, as far as possible, limiting municipal expenditures. Stated in the simplest terms, the cost of maintaining our city government this year has been \$27,000,000. If the water rates and the state and metropolitan charges are added, the figure is \$34,000,000. If the cost of the state and national governments could be computed (and I am assured that this can be done by expert statisticians with approximate accuracy) the whole burden would approach the staggering figure of \$50,000,000 a year. This means little, perhaps, until we bring it home to ourselves by translating it into terms of our own experience. For example,

the average income of the employees of the Boston Elevated Railway has been, according to the published reports, about \$700 a year. It would take nearly 70,000 such men, giving all their earnings, to meet the total cost of government in Boston; and to pay the city expenses alone would take 40,000. Imagine that army filing before us. It would comprise a very large percentage of the adult men of the city. It would require a whole day to pass. And every man in the ranks would be obliged to contribute his entire income, from January 1 to December 31, to keep the government in operation. I think it perfectly fair to picture the distribution of the burden in this way, because we are all inclined to assume that it is the comparatively small group of property owners, the so-called taxpayers, that maintain the government. No conception could be more misleading or more conducive to the prevalent laxity which condones and even applauds public extravagance. It is the average citizen who in this field, as in so many others, plays the role of ultimate consumer. The realty, personality and corporation taxes, besides fees, excises, water rates, assessments of every kind, are all passed along to him. Rents, commodity prices, and the cost of service in various forms contain these invisible elements. The city budget, in fact, is a part of the family budget, yours and mine, and ought to be scrutinized as carefully. It imposes an income tax just as real as any that is so called, but with this radical difference, that there are no exemptions. Unfortunately, this burden is growing heavier all the time. I have made a comparison by two-year periods and find that the appropriations for city and county purposes alone in 1912-13 were greater by about \$10,000,000* than in 1906-07. This is a huge increase in the short space of six years, and no one contends that the city government was parsimonious in 1906-07. Some of this increase can be explained in a perfectly natural manner, by the growth in population, the rising cost of supplies, the high cost of living in so far as it properly influences wages and the payments on serial bonds. But these explanations do not cover the whole ground. They ignore the many economies that have been made possible under the new charter and that ought to show in reductions somewhere. They are no more convincing than the attempts to minimize the seriousness of the condition by a meaningless comparison of tax rates or to shift the responsibility from one department of the city to another. There is no doubt that our municipal outfit, or "plant" if I may use the term, has been expanding rapidly of late and that each new addition involves a continuous and steadily augmenting expenditure for operation. The playgrounds have to be supervised and maintained, and this is true of the municipal buildings, baths, convenience stations, bandstands, branch libraries, and the Aquarium and Zoological Garden. Even the City Hall Annex which, for the proper transaction of the city's business we all agree was necessary, will require, according to the estimate of the Superintendent of Public Buildings, \$77,500 for maintenance in its first year and, probably, more in later years, when the effects of wear and tear begin to be felt. This is much more than the amount of any saving in rentals that can possibly be figured out; and when depreciation and capital charges are added the carrying cost of this one building will be sufficient to effect the tax rate perceptibly. It seems to me there is a real danger in letting the momentum of this tendency carry us too far. We are not poorly equipped at the present time. We have more than the generations that went before us and more than most American cities. May it not be a good time to try to relate the cost of these improvements to their actual value, and to ask ourselves how far the \$50,000,000 a year we pay in Boston for supporting our government, city, state and national, enters into the increased cost of living. No doubt, we get back a good deal of it in services which the government performs, but does the average family of five, paying as it does some \$350, get back that amount of service every year. Nothing is easier than to spend public money. Of late years there has grown up in some quarters a spirit not merely of indifference to lavish expenditure but of resentment against those who endeavor to stem the flood. I trust, however, that the City Council will never be infected by this spirit, or be deterred from imposing such checks on extravagance as its judgment may determine to be necessary. There is another problem to which I should like to advert briefly, as affording material for constructive, rather than merely negative, effort. No one who is familiar with other American cities can doubt that Boston suffers acutely from congestion. Housing conditions are no better than they should be in several of the residential sections, and the narrow streets of the business district have long since reached the limits of their traffic capacity. Tax rates and debt and expenditures respond only too elastically to the pressure of increasing population, but the "downtown" district moves its boundaries very slowly. We are still, as in Mayor Collins' time, trying to conduct all the business of a city larger than the one Mayor Collins knew on less than a square mile of territory. Fully 75,000

persons come into Boston every day from the suburbs to work, and many more to shop or visit or for amusement. Our business section is a vortex of travel and exchange. The trade of a whole state converges here and this intense concentration is reflected in the realty values. Wards 6 and 7, with only a little over 2 per cent of the area of the city, have over 40 per cent of the real estate valuation. Since 1900, the increase in these two wards has been greater than in all the rest of the city combined. This is due, partly of course, to the erection of modern office buildings and department stores, but chiefly to the appreciation of land values. The condition calls for radical measures of relief. We cannot go on building up in the air, because there is a correlation between the height of buildings and the width of streets which makes that plan impracticable in Boston. We cannot keep cutting up the district by new streets which are enormously expensive and, at best, merely palliative in their effect. The business district simply must expand in one direction or another, and the government will fail to do its part if it does not take measures to quicken and facilitate the movement. There is no problem that affects more vitally the welfare of this community or demands more earnest consideration. With these suggestions I lay down the office which your generosity conferred upon me a twelve-month since. No words can quite express my appreciation of this great honor. I like to think that the harmony and cooperation that have prevailed among us rest on a basis deeper and more solid than good fellowship, precious as that is. I believe and I am sure that if, in the main, we have agreed in our general policy, it has been because of our common loyalty to the true interests of the city, as we have understood them. Differences of opinion may have arisen, but differences of purpose and underlying motive have never been apparent to me. To be associated with colleagues so devoted to the public welfare is an inspiration to any man who is in the least degree sensitive to such influences. I thank you warmly and sincerely for your courtesy and cooperation in all our official relations, and, best of all, for your personal confidence and support, which have created an obligation I never can repay.

On motion of Coun. COLLINS the Council adjourned *sine die* at 11:13 a. m.

INAUGURATION EXERCISES.

Monday, February 2, 1914.

Inauguration exercises attendant upon the induction into office of Hon. James M. Curley, Mayor-elect, and Councilors-elect Daniel J. McDonald, George W. Coleman and William H. Woods, held in Tremont Temple, beginning about ten o'clock a. m.

Mayor-elect Curley, Mayor Fitzgerald, the members of the City Council, the Chief Justice, the Chaplain and invited guests, assembled in Room C, Tremont Temple, between 10 and 10:15, o'clock a. m.

At 10:25 a. m. the members and members-elect of the City Council, escorted by the City Messenger, proceeded to the platform.

Chairman BALLANTYNE, senior member, in calling the meeting to order, said:

Ladies and gentlemen, we are assembled here this morning for the purpose of inaugurating a mayor for the ensuing four years, and the City Council for the year 1914. The Chair appoints Coun. Attridge, Collins and Kenny, a committee to escort the Mayor-elect and officials to the hall.

The committee appointed attended to the duties assigned, and presently returned with Mayor-elect Curley, Mayor Fitzgerald, Chief Justice Rugg, Rt. Rev. Monsignor M. J. Spaine, Chaplain, heads of departments and invited guests.

After the party was seated on the platform, Chairman BALLANTYNE called to order and said:

The City Clerk will now read the certificates from the Election Commissioners of the persons elected at the city election.

Certificates from the Election Commission of the election of Hon. James M. Curley, Mayor, and Coun. Daniel J. McDonald, George W. Coleman and William H. Woods, were read and placed on file.

Chairman BALLANTYNE—The audience will now give their attention while the chaplain, Rt. Rev. Monsignor M. J. Spaine, leads us in prayer.

The prayer by the chaplain, Rt. Rev. Monsignor M. J. Spaine, was as follows:

In the name of the Father and of the Son and of the Holy Ghost. Amen. Direct, O Lord, we beseech thee, all our actions by thy holy inspiration, and carry them on by thy gracious assistance, that every thought and work of ours may begin from thee and by thee be happily ended. We ask this through the merits of Jesus Christ our Redeemer, who taught us thus to pray:

Our Father, who art in heaven, hallowed be thy name. Thy kingdom come, thy will be done, on earth as it is in heaven. Give us this day our daily bread and forgive us our trespasses as we forgive those who trespass against us. And lead us not into temptation, but deliver us from evil. Amen.

In the name of the Father and of the Son and of the Holy Ghost. Amen.

Chairman BALLANTYNE—The next business in order is the administration of the oaths of office to Mayor-elect James M. Curley by the Honorable Chief Justice of the Supreme Court of Massachusetts.

Chief Justice Rugg administered the oaths to Mayor-elect Curley. (Applause followed by three cheers for the Mayor of Boston.)

Chairman BALLANTYNE—The City Clerk will now call the roll of the members-elect of the City Council.

The Clerk called the roll of the members-elect of the City Council, as follows: Daniel J. McDonald, George W. Coleman and William H. Woods. Mayor Curley administered the oaths of office to the three councilors-elect.

Coun. BALLANTYNE—I have the honor to introduce to the City Council and to this gathering of citizens his Honor Mayor James M. Curley, who will now deliver his inaugural address.

INAUGURAL ADDRESS.

The Mayor, Hon. James M. Curley, then delivered his inaugural address to the City Council. (See page 89.)

The conclusion of the reading of the inaugural address was followed by great applause and cheering.

The reading of the address was completed at 11.20 o'clock a. m.

Chairman BALLANTYNE—Ladies and gentlemen, the purpose for which we are assembled here this morning being accomplished, the meeting is dissolved, and the City Council stands adjourned to meet in City Hall for organization.

Adjourned, at 11.21 a. m. to City Hall.

MEETING IN COUNCIL CHAMBER.

First meeting of the City Council, held in the Council Chamber, City Hall, at 12.08 p. m.

The members assembled in the Council Chamber and were called to order by Coun. BALLANTYNE senior member.

ELECTION OF PRESIDENT.

Coun. COLLINS offered an order—That the Council proceed to the election of a President for the ensuing year, according to law.

Passed.

President *pro tem.* BALLANTYNE—The Clerk will call the roll.

The Clerk called the roll, and each member announced his choice for President, with the result that Daniel J. McDonald received eight votes, Coun. McDonald not voting, making his election unanimous.

Chairman BALLANTYNE appointed ex-Presidents Kenny, Attridge and Collins a committee to escort President-elect McDonald to the chair.

President-elect McDonald, in taking the chair, said: Fellow members, I desire to say, as other members of other councils have said when elected to the office of president, that I, too, consider it an honor to be a member of this body, but to be elected as its president I think is an honor of which every citizen should feel proud. I may err, may make mistakes, but, to use the old-time phrase, the mistakes will be of the head, not of the heart. I ask the cooperation of all the members to make this year at least as good as the other years under the present charter, and as successful as the last year has been. I thank you from the bottom of my heart for the kind honor you have bestowed upon me in electing me to preside over your deliberations.

ELECTION OF CITY CLERK.

Coun. KENNY offered an order—That the Council proceed to the election of a City Clerk for the term of three years and until his successor is chosen and qualified, according to law.

Passed.

The Assistant City Clerk called the roll and James Donovan was elected as City Clerk for three years, all the members voting for him.

UNFINISHED BUSINESS.

Coun. WATSON offered an order—That the several committees of this City Council, when appointed, be authorized to resume consideration of the unfinished business referred from last year.

Passed.

PRINTING OF MUNICIPAL REGISTER, ETC.

Coun. ATTRIDGE offered an order—That the Statistics Department be authorized, under the direction of the Committee on Rules, to prepare and have printed the Municipal Register for 1914, and that the Clerk of Committees be authorized to prepare and have printed a pocket edition of the organization of the city government and heads of departments, the expense thus incurred to be charged to the appropriation for City Documents.

Passed.

RULES.

Coun. ATTRIDGE offered an order—That the Rules of the City Council of 1913, except Rule 33, be adopted as the rules of this body, until otherwise ordered, and that a special committee of three members be appointed to prepare and report a draft of rules for the government of the City Council of 1914, and to consider such other matters as may, from time to time, be referred to said committee.

Passed.

President McDONALD appointed as said committee, Coun. Kenny, Attridge, Ballantyne.

CARE OF INSANE.

Coun. WATSON offered the following:

Resolved, That the City Council favors the bill now before the General Court authorizing the State Board of Insanity to purchase additional land and the erection of a hospital building thereon for the care of the insane in the metropolitan districts: be it therefore

Ordered, That the Corporation Counsel and the Committee on Legislative Matters be requested to attend any hearing given by any committee of the Legislature on the above subject and advocate the passage of this measure.

Referred to the Executive Committee when appointed.

AMENDMENT TO RULES.

Coun. WATSON offered an order—That in addition to the Rules of the City Council the following be added:

Any petition, resolution or preamble signed by any improvement association, civic organization, club or other similar organization, excepting churches and eleemosynary institutions, through its officers, other than a petition or protest authorized by law, shall not be considered by the City Council, unless a list of the officers and members of such organizations, with their address and place of meeting, is first filed with the City Clerk, said list of membership to be sworn to before a notary public or some other person authorized to administer oaths.

Referred to the Committee on Rules.

SOLDIERS' RELIEF COMMITTEE.

President McDONALD—I appoint as the Committee on Soldiers' Relief, Coun. Watson, Woods and Coleman.

GENERAL RECONSIDERATION.

Coun. COLLINS moved a general reconsideration, hoping that the same would not prevail.

Lost.

NEXT MEETING.

It was voted, on motion of Coun. BALLANTYNE, that when the Council adjourns it be to meet on Monday, February 9, at three o'clock p. m.

Adjourned on motion of Coun. KENNY, at 12.16 p. m.

"Public necessity and convenience require that this work be done after November 15, 1913, for which your authority is requested.

L. K. ROURKE,
Commissioner of Public Works."

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved by the Mayor:

PUBLIC BUILDINGS DEPARTMENT.

Addition, amounting to \$693, on contract with the John F. Griffin Company

\$279. In connection with this addition, the chairman of the commission says:

February 9, 1914.

HON. JAMES M. CURLEY,
Mayor of Boston:

DEAR SIR,—The following clause is part of the specifications of the contract for the erection of the Edmund P. Tilestone Addition, page 25, paragraph 2:

"The drawings show the depths at which foundations are to start, and should it be necessary in order to reach the levels shown to do any blasting, then the city will pay the contractor the difference between the cost of blasting and that of earth excavation; loose stones or boulders measuring less than 2 cubic yards will be considered as earth excavation. If after excavating to levels shown by the drawings it is found necessary in order to reach suitable bottom to go lower than is indicated on plans, or to do piling, then the city will pay the contractor for such excavation or piling. Additional masonry or other foundation work made necessary by the extra excavation mentioned above will be paid for by the city to the contractor as additional work. The prices for the above work to be agreed upon by the architect and the contractor, subject to the approval of the Schoolhouse Department."

On this contract we have had the following amount of blasting and excavation:

514 cubic yards open blasting at \$3.50;
\$3 cubic yards rock trench at \$5; 34 cubic yards trench excavation at \$1.25; 31 cubic yards concrete foundation at \$9; totalling, \$2,535.50.

The quantities have all been checked off by our engineer and the architect, and we would like your Honor's approval of the same.

Very truly yours,
CHARLES LOGUE,
Chairman.

PROPOSALS FOR ROAD OIL.

Sealed proposals will be received at the office of the Supply Department, Room 826, Tremont Building, until 12 o'clock Thursday, February 26, 1914, for the amount of road oil covered by the items specified in this advertisement.

Item 1. 200,000 gallons, more or less, of emulsion oil, which shall possess the following properties: It shall be petroleum, with asphaltum base, containing not less than 35 per cent of asphalt binder; it shall be free of the objectionable coal tar products and sulphurous hydrogen odors; gravity, not lighter than .920; flash-point, not lower than 212 degrees Fahrenheit; soluble in 86 degrees gasoline, at least 90 per cent; when heated in an open vessel to 325 degrees Fahrenheit for five hours, the volatile matter at this temperature shall not be more than 5 per cent; the oil to be furnished under this contract shall have the qualities necessary for the preparation of the emulsion, as below specified.

Item 2. 200,000 gallons, more or less, emulsified road oil, which shall be prepared from oil of the character above specified. The compound must be of an asphaltum petroleum base, so compounded that it is easily miscible with water in varying proportions of 10 per cent to 50 per cent, and when so mixed with water, suitable for applying to the road through the usual sprinkling wagons in current use. The emulsion, when spread upon the street, shall be entirely without odor. The emulsion shall have such drying and penetrating properties that when applied to a macadam street surface, under direct sunlight, at a temperature of not less than 65 degrees and 60 per cent of humidity, it will not adhere to carriage tires or soles of shoes after five (5) hours from the time of its application. The compound shall contain at least 70 per cent of the basic petroleum. When the compound is heated in an open vessel to 212 degrees Fahrenheit for five hours, the loss shall not be more than 30 per cent. The emulsion shall contain not over 1 per cent of inert mineral matter.

A bid in duplicate must be filed with the City Auditor before 12 o'clock February 26. The superintendent reserves the right to reject any or all bids should he deem it for the best interests of the city so to do. The successful bidder must furnish a bond for one-quarter the amount of the contract in a company authorized to do business in Massachusetts.

D. FRANK DOHERTY,
(Feb. 14.) Superintendent of Supplies.

PROPOSALS FOR COAL.

Sealed proposals will be received at the office of the Superintendent of Supplies, Room 826, Tremont Building, Boston, until Tuesday, February 24, 1914, at 12 o'clock noon, at which time and place they will be publicly opened and read, for furnishing and delivering, alongside, 1,500 tons of coal, more or less, on one or both of the following plans:

Plan No. 1.—For big vein Georges Creek Cumberland coal, mined in Maryland, or Pocahontas or New River, each of the best quality.

Plan No. 2.—Alternative plan. For any good steaming coal, to be paid for on a valuation basis, to be delivered as follows: 1,500 tons, more or less, alongside, at Penal Institutions, Deer Island, on or before March 9, 1914.

Proposals will state the particular kind and price per ton of 2,240 pounds delivered as above, same to be satisfactory to the Superintendent of Supplies. Said proposals must be accompanied by a properly certified check for \$1,000, made payable to the City of Boston, said check to be forfeited to the city in case of failure to appear and sign the contract within five days from the date of award. A bid in duplicate, without a check, must be filed with the City Auditor prior to the time for opening bids. Forms of bids and specifications may be obtained at the office of the Superintendent of Supplies, and only bids on those forms will be considered. A bond of a surety company satisfactory to the Superintendent of Supplies will be required for the faithful performance of the contract. The superintendent reserves the right to reject any and all proposals should he deem it for the interest of the city so to do.

D. FRANK DOHERTY,
(Feb. 14.) Superintendent of Supplies.

CITY OF BOSTON.

PROPOSALS FOR COAL.

Notice to Bidders.

The Trustees of the Boston City Hospital invite bids to supply the hospital until August 1, 1914, in lots as required, with 5,000 tons, more or less, of semi-bituminous steaming coal of the best quality, without excess of slate, dirt, moisture or sulphur. The quantity here named is an estimate based upon previous annual consumption, and bids will be made on the understanding that a greater or less quantity may be called for by the trustees according to the actual requirements of the hospital; and that the city shall pay only for the actual quantity delivered and at the contract price. The coal is to be delivered on the hospital wharf, Roxbury canal, either in the old coal pocket or in the space designated in the yard by the engineer of the hospital. The dates of deliveries are as follows: First delivery (300 to 500 tons) not later than February 23, 1914, the remainder in such quantities and at such times as the superintendent may direct. The contractor must keep a reserve supply of seven hundred and fifty (750) tons of coal on the hospital wharf at all times during the continuance of the contract. The bidder must state the name of the coal, the name or other designation of the coal bed or seam, and the name and location of the mine or mines from which the coal is to come. Forms of bids and specifications may be obtained at the office of the superintendent, and only bids made on said forms will be considered. All bids must be signed by the bidder and accompanied by a certified check for \$500, payable to and to become the property of the city if the bid, after acceptance, is not carried out. Sealed bids, marked "Bids for Steaming Coal," will be received at the office of the superintendent of the hospital, 818 Harrison avenue, on or before 12 m. on February 18, 1914, and a sealed duplicate of each such bid must, on or before said time, be delivered to the City Auditor, City Hall. The bids will be publicly opened and read at the office of the superintendent at 12 m. on February 18, 1914. The trustees reserve the right to reject any or all bids. The bidder awarded the contract must furnish a satisfactory bond for twenty per cent (20%) of the estimated amount of the contract. The "Notice to Bidders" shall be considered a part of the contract.

TRUSTEES OF THE CITY HOSPITAL,

PROPOSAL FOR FURNISHING WATERING CARTS.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for furnishing watering carts for watering and oiling streets in districts Nos. 1, 2, 3, 4, 5, 6-9, 7, 8, 10 and 11, and giving bond therefor of a surety company approved by the commissioner, in the sum of one thousand dollars (\$1,000) for each district, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 49, City Hall. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Furnishing Watering Carts," and left at Room 62, fifth floor, City Hall, before 12 m. on Tuesday, February 24, 1914, with a certified check for three hundred dollars (\$300) for each district, or three thousand dollars (\$3,000) for all the districts, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposal will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price of any item appears to the commissioner to be abnormally high or low, it will lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he may deem in the best interests of the city.

of any candidate for office at the municipal election held in this city on January 13, 1914.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Headquarters Fire Department,
Boston, January 31, 1914.

Hon. John F. Fitzgerald,
Mayor of Boston:

Dear Sir,—In accordance with a vote of the City Council I have made a thorough investigation relative to whether or not the members of the Fire Department were assessed, directly or indirectly, for campaign funds in behalf of any candidate for office at the municipal election held in this city on January 13, 1914.

In my opinion no assessments for campaign funds were made, either directly or indirectly, upon any member or officer of the Boston Fire Department, nor do I find any basis for thinking that there have been. The allegation of any assessment implies action by those in authority, and there is no ground for believing that such action was taken or even contemplated.

In this connection I will say further that I have also investigated the statements of assessments of the officers and members of the department for their recent increase in salary, and I find no evidence that any assessments were made in any way, shape or manner. Furthermore, I find no evidence that a member of the department even engaged counsel, and the only parties engaged in the increase were his bonor the Mayor and the Fire Commissioner.

Yours very respectfully,
CHARLES H. COLE,
Fire Commissioner.

Placed on file.

DILAPIDATED BUILDING, WARD 20.

The following was received:

City of Boston,
Office of the Mayor, February 9, 1914.
To the City Council:

I transmit herewith a communication from the former Building Commissioner, under date of January 30, calling attention to the dilapidated condition of the building 142-146 Bowdoin street, Ward 20.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Building Department, January 30, 1914.
Hon. John F. Fitzgerald,
Mayor of Boston:

Sir,—The owner of 142-146 Bowdoin street, Ward 20, has been notified of the dilapidated condition of her building, but it is reported to me that nothing has been done.

I therefore refer the matter to you for such action as you find best under provisions of sections 1 to 5, chapter 101, and sections 67 to 69, chapter 75, of the Revised Laws.

Yours respectfully,
ARTHUR G. EVERETT,
Building Commissioner.

RULES OF THE CITY COUNCIL.

Coun. BALLANTYNE, for the Committee on Rules, submitted the following:

The special committee appointed to prepare rules for the government of the City Council for the current year report herewith the accompanying draft.

Rule 1. Unless otherwise ordered from time to time the regular meeting of the City Council shall be held on every Monday at three o'clock p. m. Special meetings may be called by the president at his discretion, and by the city clerk for the purpose only of drawing jurors.

President.

Rule 2. The president of the council shall take the chair at the hour to which the council shall have adjourned and shall call the members to order, and, a quorum being present, shall proceed with the regular order of business. In the absence of the president the senior member by age present shall preside as temporary president or until a presiding officer is chosen.

Rule 3. The president shall preserve decorum and order, may speak to points of order in preference to other members, and shall decide all questions of order, subject to an appeal. Any member may appeal from the decision of the chair, and, when properly seconded, no other business, except a motion to adjourn or to lay on the table, shall be in order until the question on appeal has been decided. The question shall be put as follows:

"Shall the decision of the chair stand as the judgment of the council?" The vote shall be by a roll call, and it shall be decided in the affirmative unless a majority of the votes are to the contrary.

Rule 4. The president shall propound all motions in the order in which they are moved, unless the subsequent motion shall be previous in its nature, except that, in naming sums and fixing times, the largest sum and the longest time shall be put first.

Rule 5. The president shall, at the request of any member, make a division of a question when the sense will admit.

Rule 6. The president shall, without debate, decide all questions relating to priority of business to be acted upon.

Rule 7. The president shall declare all votes; but if any member doubts a vote, the president shall cause a rising vote to be taken, and, when

any member so requests, shall cause the vote to be taken or verified by yeas and nays.

Rule 8. The president shall appoint all committees, fill all vacancies therein, and designate the rank of the members thereof.

Rule 9. When the president of the council or the president *pro tempore* shall decide to vacate the chair he may call any member to it; but such substitution shall not continue beyond an adjournment.

Motions.

Rule 10. Every motion shall be reduced to writing if the president shall so direct.

Rule 11. A motion to strike out and insert shall be deemed indivisible; but a motion to strike out being lost shall not preclude amendment, or a motion to strike out and insert.

Rule 12. No motion or proposition of a subject different from that under consideration shall be admitted under color of amendment.

Rule 13. When an order or resolution relates to a subject which may properly be examined and reported upon by an existing committee of the city council, such order or resolution shall, upon presentation, be referred to such committee. When a motion is made to refer any subject, and different committees are proposed, the motions shall be put in the following order:

1. To a standing committee of the council.
 2. To a special committee of the council.
- Any member offering a motion, order or resolution, which is referred to a committee, shall be given a hearing on the same by the committee before a report is made thereon, provided he so requests at the time of offering the order or before final action by the committee.

Rule 14. After a motion has been put by the president it shall not be withdrawn except by unanimous consent.

Rule 15. When a question is under debate the following motions only shall be entertained, and shall have precedence in the order in which they stand arranged:

1. To adjourn.
2. To lay on the table.
3. The previous question.
4. To close debate at a specified time.
5. To postpone to a day certain.
6. To commit.
7. To amend.
8. To postpone indefinitely.

Rule 16. A motion to adjourn shall be in order at any time, except on an immediate repetition, or pending a verification of a vote; and that motion, the motion to lay on the table, the motion to take from the table, and the motion for the previous question, shall be decided without debate.

Readings.

Rule 17. Every ordinance, order and resolution shall, unless rejected, have two several readings, both of which may take place at the same session, unless objection is made, provided, however, that all orders for the expenditure of money presented to, or reported upon by a committee of the council, shall lie over for one week before final action thereon. Whenever the second reading immediately follows the first reading the document may be read by its title only; provided, that all orders releasing rights or easements in or restrictions on land, all orders for the sale of land other than school lands, all appropriations for the purchase of land other than for school purposes, and all loans voted by the city council shall require a vote of two-thirds of all the members of the city council, and shall be passed only after two separate readings and by two separate votes, the second of said readings and votes to be had not less than fourteen days after the first.

Reconsideration.

Rule 18. When a vote has been passed any member may move a reconsideration thereof at the same meeting, or he may give notice to the clerk, within twenty-four hours of the adjournment of any meeting except the final meeting, of his intention to move a reconsideration at the next regular meeting; in which case the clerk shall retain possession of the papers until the next regular meeting. No member shall speak for more than ten minutes on a motion to reconsider.

Rule 19. When a motion to reconsider has been decided, that decision shall not be reconsidered, and no question shall be twice reconsidered unless it has been amended after the reconsideration; nor shall any reconsideration be had upon the following motions:

- To adjourn.
 - The previous question.
 - To lay on the table.
 - To take from the table.
 - To close debate at a specified time.
- A motion to reconsider may be laid on the table or postponed indefinitely, and the effect of such action in either case shall be to defeat the motion to reconsider.

Conduct of Members.

Rule 20. Every member when about to speak shall rise, address the chair, and wait until he is recognized, and in speaking shall refrain from mentioning any other member by name, shall confine himself to the question and avoid personalities. Any member who, in debate or otherwise, indulges in personalities or makes charges reflecting upon the character of another member shall make an apology in open session at the meeting when the offence is committed or at the next

succeeding regular meeting, and, failing to do so, shall be named by the president or held in contempt and suspended from further participation in debate until said apology is made.

Rule 21. No member shall speak more than once on a question when another member who has not spoken claims the floor, and no member speaking shall, without his consent, be interrupted by another, except upon a point of order.

Rule 22. No member shall be permitted to vote on any question, or serve on any committee, where his private right is immediately concerned, distinct from the public interest.

Rule 23. Every member who shall be present when a question is put, where he is not excluded by interest, shall give his vote, unless the council for special reason shall excuse him. Application to be so excused on any question must be made before the council is divided, or before the calling of the yeas and nays; and such application shall be accompanied by a brief statement of the reasons, and shall be decided without debate.

Standing Committees.

Rule 24. The following standing committees of the council, and all other committees, unless specially directed by the council, shall be appointed by the president:

1. A committee, to be known as the Executive Committee, to consist of all the members of the council.

2. A committee on Appropriations, to consist of all the members of the council, to whom shall be referred such appropriation orders as may be submitted to the council from time to time.

3. A committee on Public Libraries, to consist of five members of the council.

4. A committee on Claims, to consist of five members of the council, to whom shall be referred all claims against the city arising from the act or neglect of any of its departments. They shall report annually a list of the claims awarded or approved by them, and the amount of money awarded or paid in settlement thereof.

5. A committee on County Accounts, to consist of five members of the council.

6. A committee on Finance, to consist of all the members of the council, to whom shall be referred all applications for expenditure which involve a loan.

7. A committee on Fire Hazard, to consist of five members of the council.

8. A committee on Inspection of Prisons, to consist of five members of the council.

9. A committee on Legislative Matters, to consist of five members of the council, who shall, unless otherwise ordered, appear before the committees of the General Court and represent the interests of the city; provided, said committee shall not appear unless authorized by vote of the city council, and shall not, unless directed so to do by the city council, oppose any legislation petitioned for by the preceding city council.

10. A committee on Ordinances, to consist of all the members of the council, to whom shall be referred all ordinances or orders concerning ordinances.

11. A committee on Parkman Fund, to consist of five members of the council, to whom shall be referred all matters concerning the Parkman property, or the expenditure of the income from the Parkman Fund.

12. A committee on Printing, to consist of five members of the council, who shall have the charge of all printing, advertising or publishing ordered by the city council, as one of its contingent or incidental expenses, and the supply of all stationery or binding for the same purpose. The committee shall fix the number of copies to be printed of any document printed as above, the minimum, however, to be four hundred; and they shall have the right to make rules and regulations for the care, custody and distribution of all documents, books, pamphlets and maps by the city messenger.

13. A committee on Public Lands, to consist of five members of the council, to whom shall be referred all matters relating to public lands.

14. A committee on Soldiers' Relief, to consist of five members of the council, who shall determine the amount of aid to be allowed to soldiers and sailors and their families and submit a schedule of the same to the city council monthly.

Order of Business.

Rule 25. At every regular meeting of the council the order of business shall be as follows:

1. Communications from his honor the mayor.
2. Presentation of petitions, memorials and remonstrances.
3. Reports of city officers, etc.
4. Unfinished business of preceding meetings.
5. Reports of committees.
6. Motions, orders and resolutions.

Spectators.

Rule 26. No person, except a member of the council, shall be permitted to occupy the seat of any member while the council is in session.

Rule 27. No person, excepting heads of departments, officials connected with the city council, and reporters, shall be allowed in the anteroom or upon the floor of the council chamber while the council is in session. Spectators will be allowed in the gallery of the council chamber when the council is in session, and no one will be admitted to said gallery after the seats are occupied. The city messenger shall enforce this rule.

Burial Grounds.

Rule 28. No permission for the use of land for the purpose of burial shall be granted until a public hearing shall have been given by the city council, after due notice has been served upon abutters, on the application for such permission.

Smoking in the Council Chamber.

Rule 29. No smoking shall be allowed in the council chamber when the council is in session.

Meetings.

Rule 30. No meeting of any committee shall, without the consent of all the members thereof, be called upon less notice than twenty-four hours from the time the clerk shall have mailed the notices or despatched them by special messenger.

Form of Votes.

Rule 31. In all votes the form of expression shall be "Ordered" for everything by way of command, and the form shall be "Resolved" for everything expressing opinions, principles, facts or purposes.

Transfers.

Rule 32. Every application for an appropriation to be provided for by transfer shall be referred to the executive committee unless otherwise ordered, and no such appropriation shall be made until the said committee have reported thereon.

Consideration of Petitions.

Rule 33. No petition, remonstrance, resolution or other communication submitted by any improvement association, civic society, club or other unincorporated organization, or its officers, shall be considered by the city council or printed in its proceedings unless such organization shall have filed with the city clerk a statement, sworn to by one of its officers, specifying the number of members in good standing, the time and place of meeting and a list of the officers for the current year.

Amendment and Suspension.

Rule 34. The foregoing rules shall not be altered, amended, suspended or repealed at any time, except by the votes of two-thirds of the members of the city council present and voting thereon.

The report was accepted and the question came on the adoption of the rules.

The rules were adopted.

PETITIONS FROM CIVIC ORGANIZATIONS.

Coun. BALLANTYNE, for the Committee on Rules, submitted a report on order (referred February 7) to amend rules relative to petitions from civic organizations, etc.—that no further action is necessary.

Report accepted.

RECORD OF VOTE.

Coun. ATTRIDGE offered an order—That the City Council, to whom was referred the return of the votes cast at the municipal election in the City of Boston on the thirteenth day of January, 1914, on the following question, viz.: "Shall chapter eight hundred and seven of the Acts of nineteen hundred and thirteen, being an act to provide for compensating laborers, workmen and mechanics for injuries sustained in public employment, and to exempt from legal liability counties and municipal corporations which pay such compensation, be accepted by the inhabitants of this City of Boston?" records its canvass as follows: Yes, 45,547; No, 12,614; and certifies that said act was duly accepted by the voters of said city at said municipal election held as aforesaid.

A DUTCH BUSINESS COLLEGE.

A college has just been completed at Rotterdam where courses are offered in all the higher branches of commerce. This institution is the outcome of serious effort on the part of many of the leading men of the country who felt that such training was invaluable to men who expected to adopt commerce as a profession. The government, as well as the Netherlands universities, were represented at the opening ceremony. Among those present were the Minister of Foreign Affairs, the Minister of Agriculture, the President of the Dutch Bank, the Burgomaster of Amsterdam and delegates from all the chambers of commerce of the Netherlands.—*The American City.*

February 18, 1914.

HON. JAMES M. CURLEY,

Mayor of Boston:

DEAR SIR,—Inclosed please find five (5) copies of an instrument authorizing a change in the contract of Messrs. McGahey & O'Connor for erecting and completing Municipal Building, Ward 7, in the sum of eight thousand five hundred and forty-one (8,541) dollars, which are sent to you for your consideration.

For your information on this subject I would add that almost all of these features were incorporated in the plans of the building, as originally drawn, but were eliminated to keep within the appropriation.

The item of \$971 was caused by a request of the Board of Park Commissioners who, in a communication to me on December 8, 1913, suggested that the side of the building facing the playground should be of a more elaborate nature, as it is a point where the building should appear to good advantage.

As the work on the building progressed the citizens of this section of the city made a protest and, as a result of their endeavors, an additional appropriation in the sum of \$10,000 was approved on January 30, 1914, for covering this work.

Respectfully yours,

M. J. FISH,

Superintendent of Public Buildings.

PUBLIC WORKS DEPARTMENT (Water Service).

An addition, amounting to \$21.28, on contract with John T. Shea, Jr., for laying and relaying water pipe in St. Stephen, Astor, Batavia, Haviland, Dalton, Cambria and St. Cecilia streets, city proper, on account of repairing house drains on Batavia street; teaming four ton 10-inch pipe to yard sent to St. Stephen street by mistake; repairing house drains, Astor street; teaming hydrant, Cambria street. Original contract, \$3,402; total additions, \$39.69; contract as standing, \$3,441.69.

SCHOOLHOUSE DEPARTMENT.

Deduction, amounting to \$195, on contract with A. Varnerin Company for Brighton High School, on account of omitting to provide 112 hooks in dressing rooms, mezzanine floor; remove cardboard from bolt sockets and replace sockets properly; provide hand lifts on sash, mezzanine floor and class rooms,

second and third floors, forty-two in all; provide burlap on walls of commercial rooms; fasten and finish base mold in commercial room, third floor, and furnish and install grilles for opening in wall; repair and rub down joints on blackboards in commercial rooms; provide pane wire glass on second floor; draw and paint putty on window of lunch room, Warren street side; remove patched window casing and replace with new one on window of lunch room, Warren street side; clean burlap in class room, first floor; provide two slate thresholds on opening from old building to new corridors of annex. CIRCULAR FROM THE MAYOR.

Boston, February 10, 1914.

To the Heads of Departments:

You are hereby notified that at the Municipal Election held on January 13, 1914, the voters of this city accepted the following, which was printed on the official ballot:

"Shall chapter eight hundred and seven of the Acts of nineteen hundred and thirteen, being an act to provide for compensating laborers, workmen and mechanics for injuries sustained in public employment, and to exempt from legal liability counties and municipal corporations which pay such compensation, be accepted by the inhabitants of this City of Boston?"

The names of such laborers, workmen or mechanics employed by the city as receive injuries arising out of and in the course of their employment, together with all the facts in connection with the same, should be sent forthwith in duplicate to the Law Department on blanks which may be obtained for that purpose on application to that department.

Your attention is specifically called to the following:

"ACTS OF 1913, SECTION 1, CHAPTER 746.

"... Any employer who refuses or neglects to make the report required by this section shall be punished by a fine of not more than fifty dollars for each offense. ..."

Said chapter 807 becomes effective on February 10, 1914.

JAMES M. CURLEY, Mayor.

ANNUAL HISTORIC EXHIBITION OF THE CITY OF PARIS.

Each year Paris holds an exhibition in the Historic Library of the City of Paris. The subject this year was the promenades and gardens of Paris from 1618 to 1830. It was a thorough study of the famous gardens of Paris, such as the Tuileries and the Luxembourg, and clearly demonstrated the practical and æsthetic value of such breathing spots in a city. A handbook was prepared in connection with the exhibit which forms a compact and valuable reference work.

AMERICANS TO STUDY IN MUNICH SCHOOLS.

By special arrangements between the city authorities of Munich, Germany, and the United States Bureau of Education, a party of American teachers, not to exceed twenty-five, will go to Germany in April, to serve as student-teachers—students preparing to teach—in the trade-continuation schools of Munich. They will remain in Munich from April to July, and will have unusual opportunities for studying the methods by which one of the foremost cities of Europe educates its citizens, particularly in the field of industrial training. The Bureau of Education announces that it will answer inquiries from teachers who may be interested in the plan.—*Municipal Journal*.

PROPOSALS FOR ROAD OIL.

Sealed proposals will be received at the office of the Supply Department, Room 826, Tremont Building, until 12 o'clock Thursday, February 26, 1914, for the amount of road oil covered by the items specified in this advertisement.

Item 1. 200,000 gallons, more or less, of emulsion oil, which shall possess the following properties: It shall be petroleum, with asphaltum base, containing not less than 35 per cent of asphalt binder; it shall be free of the objectionable coal tar products and sulphurous hydrogen odors; gravity, not lighter than .920; flash-point, not lower than 212 degrees Fahrenheit; soluble in 86 degrees gasoline, at least 80 per cent; when heated in an open vessel to 325 degrees Fahrenheit for five hours, the volatile matter at this temperature shall not be more than 20 per cent; the oil to be furnished under this contract shall have the qualities necessary for the preparation of the emulsion, as below specified.

Item 2. 200,000 gallons, more or less, emulsified road oil, which shall be prepared from oil of the character above specified. The compound must be of an asphaltum petroleum base, so compounded that it is easily miscible with water in varying proportions of 10 per cent to 50 per cent, and when so mixed with water, suitable for applying to the road through the usual sprinkling wagons in current use. The emulsion, when spread upon the street, shall be entirely without odor. The emulsion shall have such drying and penetrating properties that when applied to a macadam street surface, under direct sunlight, at a temperature of not less than 65 degrees and 60 per cent of humidity, it will not adhere to carriage tires or soles of shoes after five (5) hours from the time of its application. The compound shall contain at least 70 per cent of the basic petroleum. When the compound is heated in an open vessel to 212 degrees Fahrenheit for five hours, the loss shall not be more than 30 per cent. The emulsion shall contain not over 1 per cent of inert mineral matter.

A bid in duplicate must be filed with the City Auditor before 12 o'clock February 26. The superintendent reserves the right to reject any or all bids should he deem it for the best interests of the city so to do. The successful bidder must furnish a bond for one-quarter the amount of the contract in a company authorized to do business in Massachusetts.

SOLDIERS' RELIEF.

Coun. WATSON, for the Committee on Soldiers' Relief, submitted the following:

(1) Report recommending the passage of an order for the payment of aid to soldiers and sailors and their families in the City of Boston for the month of February.

Report accepted; order passed.

(2) Report on order (referred January 16) to pay \$200 to the Soldiers' Relief Commissioner for petty cash—that no further action is necessary.

Report accepted; said order rejected.

POWERS OF COUNTY COMMISSIONERS.

Coun. WATSON offered an order—That the Corporation Counsel submit forthwith to the City Council an opinion, in writing, as to the rights and powers of the City Council, who are County Commissioners of Suffolk County, in the matter of the management, etc., of the Charles Street Jail.

Referred to the Committee on Inspection of Prisons.

Coun. WATSON—Mr. President, I move reconsideration of that reference and trust that the order will pass at this time.

The motion for reconsideration was carried.

The question came on the passage of the order.

Coun. KENNY—May I ask to have the order read now?

The Clerk read the order.

Upon motion of Coun. BALLANTYNE the order was laid on the table for ten minutes.

Later in the session, on motion of Coun. KENNY, the order of Coun. Watson in regard to the opinion from the Corporation Counsel was taken from the table.

Coun. KENNY—Now, Mr. President, I desire to offer a substitute order. Coun. Watson not being present, I ask that it lie on the table until he comes in.

The order was as follows:

Ordered, That the Corporation Counsel be requested to submit to the City Council his opinion, in writing, as to the rights and powers of the members of the City Council to investigate into the management and administration of the County Jail, and as to the rights and powers of the members of the City Council to visit and examine conditions at the jail.

The order was laid on the table.

On motion of Coun. KENNY the order was later taken from the table and the substitute order read.

Coun. WATSON—Mr. President, I accept it; it is much better than my order.

The substitute order was passed.

PROCEEDINGS OF SCHOOL COMMITTEE.

Feb. 16, 1914.

A regular meeting of the School Committee of the City of Boston was held in the School Committee Chamber, Mason-street Building, at 8.15 o'clock, P. M., the Chairman presiding.

Present: Messrs. Brock, Corcoran, Miss Curtis, Messrs. Lee and Scannell.

APPROVAL OF RECORDS.

The reading of the records of the last meeting was omitted, the Board approving them as printed.

BOUNDARY LINES, OLIVER HAZARD PERRY DISTRICT.

The Chairman announced that the Board was prepared to grant a hearing on the petition received at the meeting of February 2 (see p. 7), from numerous parents of pupils in the Oliver Hazard Perry District that the boundary lines of that district be revised so that pupils who are now attending the Frederic W. Lincoln School, but who live nearer the Oliver Hazard Perry and Benjamin Pope Schools, may attend those schools.

The hearing on the part of the petitioners was conducted by Charles H. Morris, who was the first speaker, and who was followed by Mrs. J. H. Spratt, president of the Sewing Guild, Oliver Hazard Perry District, Mrs. Frank McGrath, Mr. Thomas F. Teevens, Mrs. Peter B. Mooney, Mr. James M. Keyes, Mr. Thomas P. Cotter, and Mr. John J. Toomey, the latter appearing as President of the Trade Association of South Boston.

The petitioners then rested their case, and Mr. Frank V. Thompson, Assistant Superintendent in charge of the districts affected, made a detailed explanation of the matter, stating that the boundary lines had been established as they now are in order to equalize the attendance at the schools affected.

The hearing was then declared closed, the Board taking the matter under further consideration.

VETO OF ORDER ADOPTING RULES AND REGULATIONS INVOLVING EXPENDITURE OF MONEY.

The following communication was received:—

CITY OF BOSTON.

Office of the Mayor.

February 13, 1914.

To the Honorable the School Committee:—

Gentlemen: I respectfully return herewith, without my approval, the following order of the School Committee, adopted Feb. 2, 1914, namely;

Ordered, That the Rules of the School Committee and the Regulations of the Public Schools of last year, which involve the expenditure of money, be adopted for the present year until otherwise ordered.

My objection to the order, in its present form, is that its language is too general either to inform me as to the precise matters which "would involve the expenditure of money" or to indicate the amounts of money involved. The present condition of the City's finances requires that each item of proposed expenditure be given the most careful scrutiny both by the departments for which the money is to be appropriated and by the Mayor who is held responsible for the administration of the City's financial affairs.

If you will kindly pass a similar order and attach thereto a schedule of the matters which involve the expenditure of money and submit the same to me I shall give it the most careful consideration.

On account of the pressure of business immediately following the Inauguration, the order in question was not brought to my attention in time to give me opportunity to act upon it within the ten-day period prescribed for action by the Mayor. But I respectfully request that the order be considered as in effect vetoed, so that your Honorable Board may submit a new order in the form I have suggested.

Respectfully yours,

James M. Curley.

(Accompanying the foregoing communication was the order referred to.)

Referred to the Chairman with the request that he confer with His Honor the Mayor on the subject.

APPOINTMENT.

(Change of date.)

On motion of the Superintendent, it was ORDERED, That the date of appointment of the following-named teacher is hereby changed, to take effect as indicated opposite his name:—

Dorchester High School—Z. Carleton Staples, junior master, Feb. 2 (p 233) to Feb. 24, 1914.

RESIGNATION.

The following resignation, reported by the Superintendent, to take effect on the date stated, was presented:—

Department of School Hygiene—Mary E. Kelly, assistant nurse, Feb. 6, 1914.

Accepted.

The following appointments and transfers by the Superintendent, certified by him as being in accordance with the rules and regulations, to take effect on the dates stated, were presented:—

SPECIAL ASSISTANTS.

FIRE IN WENDELL PHILLIPS SCHOOL-HOUSE.

A communication was received from the Schoolhouse Custodian, under date of Feb. 6, 1914, reporting that on February 4, 1914, shortly after school opened, an overcoat belonging to one of the pupils in the Wendell Phillips School was discovered by the teacher to be on fire; the fire signal was given and the pupils left the building in good order; the overcoats of three pupils were burned, but there was no damage to the school property.
Placed on file, and the Secretary directed to forward a communication to the principal of the Wendell Phillips District commending the manner in which the emergency was met by the teacher discovering the fire, and the prompt and expeditious conduct of the fire drill by the entire teaching staff showing careful preparation and thorough discipline.

APPOINTMENT OF JANITOR TO PORTABLE NO. 90.

A communication was received from the Schoolhouse Custodian, under date of Feb. 16, 1914, recommending that Edward

INAUGURAL ADDRESSES.

REPRINTS OF ADDRESSES DELIVERED BY THE MAYORS OF BOSTON AT THEIR
INAUGURATION FROM THE INCORPORATION OF THE CITY.

William H. Whitmore, formerly City Registrar, started in 1890 a compilation of the inaugural addresses of the mayors of Boston. Up to that time they were available only in odd and scattered municipal documents, kept with indifferent care, or in some instances in privately printed documents.

Because of the fact that the volumes in question are out of print, it is proposed to reprint the addresses in occasional installments in the *City Record*.

No. 26.

Alderman Parker delivered the following address to the City Council on January 23, 1845:

Gentlemen of the City Council:

In the present condition of the government of the city it seems hardly necessary to apprise you of the exigencies which the delay of its complete organization has occasioned. Summoned, as we have been, to the administration of its respective departments, under existing circumstances, I indulge the belief that, on the present occasion, it will not be deemed presumptuous or out of place in one who has been casually called to the chair in the absence of a chief magistrate to communicate to you information of the urgency of such of its affairs as require your immediate notice and action. Without anticipating what is the proper province of the Executive Officer of the city, I beg your indulgence, for a few moments, in making some suggestions upon subjects, which require, imperatively, an immediate supervision.

By a vote of the City Council of the last year it became the duty of the Mayor and Aldermen to cause a petition, in behalf of the City Council, to be presented to the Legislature, asking the sanction of that body to enable the city to introduce a competent supply of soft water from Long pond, in the towns of Natick, Wayland and Framingham—and that a charter should be granted for that purpose. This petition has been duly presented by the proper authorities, and, in the usual course of legislation, was committed to a joint committee of both branches. Notice has been served upon the City Clerk, apprising the petitioners of the hearing preparatory to a decision of the merits of the petition; and orders of notice to the respective towns of Natick, Wayland, Framingham, Weston, Newton, Needham, Brighton, Brookline, and Roxbury, were issued, and directed to be served, personally, upon the town clerks of each of those towns; as, also, newspaper notices in the county of Middlesex, as well as in Boston, to all other corporations and persons in interest, to appear on January 30, to show cause why the prayer of said petition should not be granted. It, thereupon, became the imperative duty of such of the Board of Aldermen as were then elected to represent the interest of the city before the committee on the 16th instant, and to send a special messenger, with the notices and copies of the petitions, to the several towns—and these notices have been served, in a manner pursuant to the legislative order. In these preparatory measures they have called to their aid the able City Solicitor, who has afforded them, at all times, such assistance

and advice as were required. The importance of this measure, after the decided expression of the popular vote in its favor, will appear obvious; and it so occurred to the members of the Board of Aldermen, inasmuch as intimations are made that the session of the Legislature may not be a protracted one. In the matter alluded to it remains for the City Council to determine whether arrangements shall be made for the employment of eminent counsel to present the views of the city, and advocate its interest in the merits of this question. It may reasonably be anticipated that able counsel will be retained by other corporations and individuals, who shall deem themselves aggrieved should the prayer of the petition be granted—and that strong opposition will be made by others who may be adverse to the object sought.

Another subject now pending in the Legislature, and awaiting the action of the city, is a petition for the grant of certain flats, in Brookline and its vicinity, to Sidney Willard and others, petitioners, with a view to construct an island wharf for the deposit of merchandise, and thence to make a road to Charles street in Boston. The hearing of this petition is at an early day, and requires immediate attention. It has been suggested that this measure, if accomplished, will impede the navigation of the harbor of Boston by presenting another obstacle to the natural current of the channel—and that the city has further interests in the premises, which should be protected. Upon several other petitions, not less than five or six, for the extension of wharves to the commissioners' line, the action of the Legislature has been sought, and orders of notice have issued to the city, the subject matters of which involve, directly or remotely, the interest and welfare of the city, and they should be provided for.

Among several other subjects now pending before the Legislature, the following may be found to require some action, viz., the revision of the tax law, so far as it relates to the City of Boston; the alien passenger law, which has recently been called up; and a proper revision of the city charter. Of the importance of the two last it seems hardly necessary to apprise you. There appears to be no good reason why the tax on alien passengers should be paid into the State Treasury, if the City of Boston is to be incumbered with the support of the foreign pauper emigrants who are so continually brought to our shores—and it seems only necessary to present this subject, in its proper light, to the Legislature to obtain a measure of justice, by means of which some adequate indemnity may be secured, for the support of our public charitable institutions, which receive and maintain so large a proportion of alien paupers.

In reference to the amendment of the city charter, during the present session of the Legislature, no reasonable mind can doubt its expediency. Past and present experience of the embarrassments into which we have been thrown is too fresh in the memory to admit of a question of the importance of such revision, and to you I need not urge its importance.

If, in these suggestions, I have trespassed upon the province of the proper Executive Officer, I may be permitted to urge, as an apology, the apparent necessity of immediate action, while the session of the Legislature exists, lest, by further delay, the several subjects there pending shall be prejudiced for want of that degree of vigilance on our part which the welfare, good government and importance of its interest require. It becomes not me to suggest the mode by which these should be granted—and I deem it necessary only to apprise you of the urgency of these subjects, leaving it to your wisdom and discretion to apply the remedy as it may be deemed advisable.

However unfortunate it may be that the requirements of the Legislature should at present demand such prompt attention on the part of the authorities of the city, there seems to be no reason why the subjects alluded to should be further delayed—and, so far as it rests upon the efforts of those to whom they properly appertain, I am warranted in the assurance that such immediate action will be had as will meet the emergencies which so successively array themselves to their observation and notice.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; additions to and deductions from contracts:

SUPPLY DEPARTMENT.

In view of the representations contained in the following communication the Mayor has approved a contract made

without advertising with the New England Coal and Coke Company for furnishing 500 tons of New River coal at \$4.20 per gross ton for the Hospital Department, the estimated total being \$2,100. Notice of permission to award in *City Record*, February 14, 1914.

February 19, 1914.

HON. JAMES M. CURLEY,

Mayor of Boston:

DEAR SIR,—The attached request for authority to purchase 500 gross tons of New River coal from the New England Coal and Coke Company for the sum of \$4.20 per gross ton delivered in the bins at the City Hospital, Boston, Mass., is asked for the reason that the bids for 5,000 tons recently opened have been rejected, and before the opening of new proposals the hospital will need coal.

Respectfully,

D. FRANK DOHERTY,
Superintendent of Supplies.

PLANS MODEL SUBURB.

Cleveland plans to develop a model suburb of 500 houses, on a municipal allotment of ninety-three acres, a project which is said to be new in the history of American cities. The model suburb is to be more than the orthodox suburb of model dwellers as developed by real estate speculators. Cleveland's model suburb is to institute a modified communism upon basic ideas, which will effect a municipal experiment in "deliberate, conscious and orderly city growth." It is to provide enough land to allow full play to every legitimate impulse of its tenant families; a fixed percentage of the land is to be devoted to front-yard and back-yard gardens, and another percentage to playgrounds, including small children's grounds, tennis courts, croquet grounds, baseball diamonds, etc. The experiment provides for grouping dwellings into units, and by the arrangement of these dwelling units it is to seek a complete and harmonious expression of organized community life. A positive community control is to be established over every square foot of its land. The model suburb is to fix a new size and shape of lot, to adapt street widths to building heights, to seek a maximum of narrow streets and to hold improvement costs as low as is consistent with durability.—*Municipal Journal*.

BOSTON'S RANK AMONG AMERICAN CITIES.

The first shoe and leather center, the first wool market, the fourth seaport, the second textile center, third in amount of bank clearings, fifth (close to fourth) in population and sixth in the value of its manufactures.

INAUGURAL ADDRESSES.

REPRINTS OF ADDRESSES DELIVERED BY THE MAYORS OF BOSTON AT THEIR INAUGURATION FROM THE INCORPORATION OF THE CITY.

William H. Whitmore, formerly City Registrar, and a man who delighted especially in the preservation of historical data relating to the city, started in 1890 a compilation of the inaugural addresses of the mayors of Boston. Up to that time they were available only in odd and scattered municipal documents, kept with indifferent care, or in some instances in privately printed documents.

In 1894 he produced the first volume, which contained the addresses from Phillips to Bigelow. In 1896 he published a second volume, with the addresses from Chapman to Norcross. The two volumes make not only substantial but interesting reading for all citizens. Because of the fact that the volumes in question are out of print, it is proposed to reprint the addresses in occasional installments in the *City Record*.

No. 27.

Mayor Davis delivered his inaugural message to the City Council on February 27, 1845.

Gentlemen of the City Council:

I do not propose to go into a review of the doings of the city government for the past year.

Many of you have been actively engaged, under my esteemed predecessor, in bringing about these results which are alike creditable to the government and satisfactory to the people, and which inspire us with the hope that we may be equally successful in the numerous and arduous duties that will devolve upon us.

By a reference to the reports from the various branches of the city government it will be seen that the affairs of the city are in a state of general prosperity. The House of Industry, the House of Correction, the House of Reformation, and the Lunatic Hospital—institutions of estimable value to the poor and unfortunate—reflect great credit upon the city by the continued good management and success of their efficient and experienced officers.

The short time allowed me to make a personal investigation of the financial concerns of the city will render it impracticable for me to give you a detailed report of their condition—and it is the less necessary from the fact that they have been given to you, and through you to the public, somewhat extensively in the closing addresses of my predecessor and the President of the Common Council. The various measures to be submitted for your action will be presented from time to time as I shall become more familiar with them.

The great and important measure to come before the city government for their deliberation and action is the introduction of pure water into the city. It is now some twenty years since the introducing of pure soft water from abroad has been extensively discussed, both in public and private. While the city was comparatively small and confined to the grounds formed by nature, in which wells were easily sunk and springs found, the necessity of introducing a supply from abroad was not so sensibly felt. But of late years we have been gradually extending on all sides by the formation of new lands, till at the present time more than one-third of the whole population

of the city is located on grounds once flowed by the tides. On these made lands great difficulty is experienced in finding good and sufficient springs, and when found they are by filtration of brackish water soon rendered unfit for use.

It has therefore been decided after mature discussion in public meetings held for the purpose, by a vote of about three to one, that it is expedient to have water brought into the city at the public expense, from Long Pond, and, by a vote of seven to one, that it should be introduced from some source—the water, when introduced, to be received and paid for by the citizens on such terms and in such manner as shall be decided upon by the commissioners appointed for that purpose.

In accordance with the will of the people thus expressed the City Council have petitioned the Legislature for an act empowering them to carry out the wishes of the people. When the act shall have been received by the city government it will doubtless proceed forthwith to the consideration of the incipient measures to be adopted in relation to this important subject.

The interesting and able report of the commissioners has been printed and is before you, and it will therefore be unnecessary for me to go into detail. A brief outline, however, of some of the essential results at which they arrive may not be inappropriate.

The population of the city is now estimated at 110,000. It will be, it is computed, 125,000 by the time the water-works can be completed and the water introduced into the city. It is thought desirable to provide for 250,000, double the population the city may be expected to contain at the completion of the works. The quantity of water, it is supposed, that would be sufficient for each individual is 28½ gallons, this being the quantity furnished to the Philadelphians by their works. At this ratio the supply to a population of 250,000 is 7,125,000 gallons per day, being equal to 950,000 cubic feet, or nearly a regular flow of 11 cubic feet per second. Long Pond is estimated to cover an area of about six hundred acres. Various calculations have been gone into by the commissioners to show that by raising the dam at the outlet it is capable of producing a constant flow of 12 feet per second, being sufficient for the city at double its present population.

It is proposed to bring the water from Long Pond to Corey's Hill in Brookline, 4 miles from the city, through an aqueduct of brick of an oval form, 5 feet in width and 6 feet 4 inches in height in the interior. It is proposed that the brick work shall be 8 inches in thickness, and that the whole structure shall be covered with earth to the depth of 4 feet. It is proposed also by the commissioners that the conduit shall incline 3 inches to the mile, that being sufficient, it is believed, to admit of a flow of 11 cubic feet per second—the conduit being filled to a depth of 3 feet 10 inches, leaving a space of two feet and a half empty.

At Corey's Hill it is proposed to construct a reservoir that will contain a day's supply. The water in the reservoir will be 120 feet above the marsh level. From this reservoir the water is to be

conveyed through iron pipes of 30 inches in diameter to the Tremont road near the Roxbury line. At this point it is proposed to send off a branch of perhaps 12 inches in diameter to a reservoir on Dorchester Heights for the supply of South Boston. Another is to be carried through Tremont street to Boylston street. Here two branches are to be sent off to reservoirs on Beacon Hill and Fort Hill. From these reservoirs the water is to be conveyed to all parts of the city and distributed to the citizens, the source being such as to allow the water to flow to the height of 4 feet above the floor of the State House, a sufficient height to allow it to flow into the first story of every house in the city, and over the roofs of most of them. The estimated cost of these works is about two millions of dollars.

The undertaking is one of great magnitude, surpassing anything hitherto entered upon by the city government. It will involve the city in a large outlay, and when completed in a heavy annual expense. It should therefore be proceeded in with great caution and prudence. The advantages of an abundant supply of pure soft water to the health and happiness of the citizens is beyond calculation. I doubt not, should the undertaking be successfully carried through at the cost estimated by the commissioners, it could then be said by our citizens of the Long Pond Water Works, as is now said by those enjoying the benefits of the Croton Water Works, notwithstanding their immense cost, "no one regrets their construction."

The numerous and exaggerated statements that have been freely circulated in reference to the objects and aims of the American Republican party, which has recently sprung into existence, and is so rapidly increasing in many parts of the country, require a word upon this subject. It is not the object of the American party, by word or act, to engender unkind feelings between the native born and foreign citizens. Its object is by the establishment of general and salutary naturalization and registration laws, by educational and moral means, to place our free institutions upon such a basis that those who come after us, the descendants both of the foreigner and American citizen may be free and independent. The foreigner equally with the native citizen, if he has a regard for his posterity, is interested in the recent American movement. If the foreigner's own supposed rights are abridged, it is that his descendants may enjoy them to the full.

Foreigners now on our shores should be treated with kindness and sympathy. Their rights should be protected and their wrongs redressed. Nothing should be done to excite animosity between them and the native citizen. Multitudes of noble and high-minded men have fled to our shores that they might find here that liberty, tranquillity and happiness denied them on their native soil. Those of this class who sleep with our fathers, their memories we cherish, and those that are still with us—and they are interwoven in all our circles—their characters we respect. Our object is to maintain and transmit the blessings of our free institutions to our posterity, that they may not experience the same evils and be subject to the same oppressions that are now so severely felt under the despotic governments of the Old World.

Boston was invested with city powers in 1822. John Phillips, its first Mayor, held the office one year; Josiah Quincy,

six; Harrison Gray Otis, three; Charles Wells, two; Theodore Lyman, Jr., two; Samuel T. Armstrong, one; Samuel A. Eliot, three; Jonathan Chapman, three; Martin Brimmer, two. All these individuals, nine in number, are now living, with the exception of Mr. Phillips, and are receiving from their fellow citizens that respect due to those who have fearlessly discharged their duties and faithfully served their fellow men. Succeeding, in the responsible duties of the mayoralty, to these distinguished individuals, I should do injustice to my feelings did I not express my grateful sense of the high honor so unexpectedly conferred upon me, and also my deep conviction of the utter impossibility of discharging, acceptably, the numerous and complicated duties devolving upon me without the cordial cooperation of my fellow citizens, and more especially of those with whom I shall be officially surrounded. With such aids and a disposition on their part to pass lightly over imperfections, I can only say that if integrity of purpose, concentration of effort and devotion of time will, in any measure, compensate for the experience and ability of my predecessors, nothing shall be wanting in my official capacity to render the city prosperous and happy.

BOSTON'S PUBLIC STREETS.

Total length of paved streets (about 2,200 streets in all), February 1, 1913, 567.51 miles; total area, 10,724,520 square yards, or 8.02 per cent of the city's total land area. This is exclusive of streets not accepted, numbering about 2,400; 381.41 miles, or 67.2 per cent, are paved with macadam; 100.24 miles with granite block; 22.15 miles with asphalt; 41.24 miles with gravel.

PROPOSALS FOR COAL.

Sealed proposals will be received at the office of the Superintendent of Supplies, Room 826, Tremont Building, Boston, until Monday, March 2, 1914, at 12 o'clock noon, at which time and place they will be publicly opened and read, for furnishing and delivering, alongside, 1,500 tons of coal, more or less, on one or both of the following plans:

Plan No. 1.—For high vein Georges Creek Cumberland coal, mined in Maryland, or Pocahontas or New River, each of the best quality.

Plan No. 2.—Alternative plan. For any good steaming coal, to be paid for on a valuation basis, to be delivered as follows: 1,500 tons, more or less, alongside, at Penal Institutions, Deer Island, on or before March 9, 1914.

Proposals will state the particular kind and price per ton of 2,240 pounds delivered as above, same to be satisfactory to the Superintendent of Supplies. Said proposals must be accompanied by a properly certified check for \$1,000, made payable to the City of Boston, said check to be forfeited to the city in case of failure to appear and sign the contract within five days from the date of award. A bid in duplicate, without a check, must be filed with the City Auditor prior to the time for opening bids. Forms of bids and specifications may be obtained at the office of the Superintendent of Supplies, and only bids on those forms will be considered. A bond of a surety company satisfactory to the Superintendent of Supplies will be required for the faithful performance of the contract. The superintendent reserves the right to reject any and all proposals should he deem it for the interest of the city so to do.

Placed on file.

RIGHTS OF COUNTY COMMISSIONERS.

The following was received:

City of Boston,

Law Department, February 24, 1914.

To the Honorable the City Council:

Gentlemen,—In response to your request I respectfully submit my opinion as to "the rights and powers of the members of the City Council to investigate into the management and administration of the county jail, and as to the rights and powers of the members of the City Council to visit and examine conditions at the jail."

The City Council of Boston, acting as County Commissioners for Suffolk County, have authority, under the provisions of chapter 224 of the Revised Laws, to investigate the Suffolk County Jail. Under section 1 of said chapter, the City Council, or a committee of two of its members, is required to visit the Suffolk County prisons twice in each year and "fully examine into everything relative to the government, discipline and police thereof," in all the particulars set forth in said section.

Under section 2 of said chapter, when the members of the City Council, or any of them, visit any of the county prisons for the purpose of inspection, or otherwise, the sheriff or other officer in charge, must, if requested, admit them to any part of the prison, must exhibit the books, papers, etc., relative to the affairs of the prison or to the detention or confinement of prisoners, and must assist in every reasonable way the investigation into any or all of the matters set forth in the preceding section. Under section 2, the City Council, or its committee, may examine, under oath, any officer, keeper, or other person relative to the affairs or management of the prison and may talk with any prisoner apart and without the presence of any officer or keeper.

Under section 3 of said chapter, it is the duty of the City Council to report to the District Attorney any violation or neglect of any provision of law relative to the prisons of Suffolk County.

In addition to the foregoing powers of inspection and examination at the county prisons, the City Council, under the provisions of section 8 of chapter 175 of the Revised Laws, has the right to summon any officer or employee of a county prison to appear before the City Council, to produce all necessary books and papers, and to testify under oath concerning any matter within the authority of the Council to investigate as public officers passing upon appropriations for county expenditures.

Yours truly,

JOHN A. SULLIVAN,
Corporation Counsel.

Referred to the Committee on Prisons.

SIDEWALK SCHEDULES.

A communication was received from the Commissioner of Public Works giving cost of construction of artificial stone sidewalks, with granite edgestones, in front of estates on Woolson street, Ward 24, and McLellan street, Ward 20, recommending the passage of the following:

Ordered, That the persons named be and the same are hereby assessed the sums set against their respective names as their proportional parts of the cost of constructing artificial stone sidewalks, and the same is ordered to be certified and notice given to the aforesaid parties, viz.:

Woolson street, Ward 24, \$2,239.71.

McLellan street, Ward 20, \$46.10.

The order was passed.

MINORS' LICENSES.

President McDONALD submitted reports on petitions for minors' licenses for fifteen newsboys and two vendors—recommending that licenses be granted.

Reports severally accepted; licenses granted on the usual conditions.

CONTROL OF JAILS.

Coun. BALLANTYNE offered the following: Whereas, House Bill No. 1081 provides for the maintenance of jails and houses of correction by the Commonwealth; and

Whereas, The passage of said act would take the control of jails and houses of correction from the several counties of the Commonwealth; be it

Resolved, That the City Council of the City of Boston, acting as County Commissioners, protests against the passage of the proposed act.

Ordered, That a copy of these preambles and resolve be sent to the clerks of the Senate and House respectively.

The question came on the passage of the preambles, resolution and order.

Coun. BALLANTYNE—Mr. President, in presenting this order I am going to ask that it be referred to the Executive Committee for the following reasons. I understand that Corporation Counsel Sullivan has appeared before the Committee of the Legislature in opposition to this bill, but that he made the statement before the committee that he appeared personally, that he had not been authorized by his Honor the Mayor or by the City Council to appear in opposition. My idea in presenting the resolution and order

to-day is that it may go to the Executive Committee and be considered and that, if we see fit, we may authorize the Corporation Counsel to appear in the name of this body.

The preambles, resolve and order were referred to the Executive Committee.

HALF HOLIDAY, EVACUATION DAY.

Coun. KENNY offered an order—That the heads of departments be authorized to allow a half holiday, without loss of pay, on Evacuation Day, March 17, 1914, to all city employees participating in the parade in observance of said day.

Referred to the Executive Committee.

SINGLE FAMILY DWELLINGS.

Coun. WATSON offered an order—That the Committee on Legislative Matters be requested to appear before the Committee on Metropolitan Affairs on February 26, in favor of House Bill No. 1503, entitled "An Act to Encourage the Erection of Single Family Dwellings in the City of Boston."

Ordered, That a copy of this order be sent to the clerks of the Senate and House respectively.

Referred to the Executive Committee.

RESOLUTION CONCERNING CITY CHARTER.

Coun. BALLANTYNE offered the following: Resolved, In the opinion of the Boston City Council that the new city charter which has been in operation for the last four years has been an unexampled success.

Resolved, In the opinion of the Boston City Council that with minor exceptions the charter changes proposed in the present Legislature are in the nature of backward, not forward, steps.

Resolved, In the opinion of the Boston City Council that no substantial changes should be made in the charter during the current session of the Legislature, and that the only changes entitled to consideration are those providing for the abolition of jurats on nomination petitions, the possible change of the date of the city election to April, and the possible reduction of the number of signatures required on nomination petitions for City Council and School Committee to a number not less than twenty-five hundred.

Ordered, That the Committee on Legislative Matters of the City Council be directed to appear before the Committee on Metropolitan Affairs of the Legislature at its hearing appointed for March 2, 1914, and record with the committee the above opinion of the Boston City Council.

Referred to the Executive Committee.

CLAIMS.

Coun. BALLANTYNE, for the Committee on Claims, submitted a report on the petition of John L. Gallagher (referred 1914) for compensation for his act as a police officer—recommending the passage of the following:

Ordered, That there be allowed and paid to John L. Gallagher the sum of \$159.21 for expenses incurred by him in suit against him on account of his act as a police officer, said sum to be charged to the appropriation for Police Department.

Report accepted; order laid over under the rule.

RECESS TAKEN.

The Council voted at 4.26 p. m., on motion of Coun. BALLANTYNE, to take a recess subject to the call of the President.

The members of the Council reassembled in the Council Chamber, and were called to order by the President at 6.52 p. m.

PAYMENT TO MRS. HALLORAN.

The following was received:

City of Boston,
Finance Commission, February 25, 1914.
To the Honorable the Mayor and City Council:
Gentlemen,—The Finance Commission desires to present the following facts, relative to chapter 17 of the Acts of 1914, which authorizes the City of Boston to pay a sum not exceeding \$500 to the widow of Daniel M. Halloran, late an employee of the Sewer Division of the Public Works Department. The act recites that the said Daniel M. Halloran died "from injuries sustained in the performance of his duty as such employee in the month of November, 1908, his injuries having been caused by defective and unsafe machinery used in a sewer on Talbot avenue in the Dorchester district."

On November 24, 1908, Daniel M. Halloran was in the employ of the City of Boston in the capacity of laborer and while working in a sewer trench in Talbot avenue, Dorchester, sustained a fracture of the skull by a falling bucket. In consideration of the sum of \$165, allowed him by the Committee

on Claims of the City Council and paid him by the City Treasurer, as compensation for the wages lost in consequence of this accident, said Halloran signed a release to the City of Boston on the 18th day of March, 1909. Since his recovery early in 1909 from this injury, he continued in the employ of the City of Boston until September, 1913. On September 17, 1913, while riding on the rear platform of a car of the Boston Elevated Railway, he fell from the car and sustained injuries to his skull. He was removed to the City Hospital and died there September 18, 1913. The report of Medical Examiner Leary on file in the office of the district attorney gives the cause of death as fracture of the skull and acute alcoholism.

In this connection the Finance Commission desires to point out that the administrator of the estate of Daniel M. Halloran has brought suit against the Boston Elevated Railway Company in the sum of \$30,000. These papers are on file in the office of the clerk of the Superior Court, Civil Session, and the declaration therein states that said Halloran was thrown from a Boston Elevated Railway car and "received injuries that caused his death."

In view of the above facts the Finance Commission recommends that the act be not accepted by the City Council nor approved by the Mayor.

Respectfully submitted,
THE FINANCE COMMISSION,
by CHARLES L. CARR,
Acting Chairman.

Referred to the Executive Committee.

EXECUTIVE COMMITTEE REPORTS.

Coun. ATTRIDGE, for the Executive Committee, submitted the following:

Reports on various orders, etc.—that the same ought to pass, viz.:

Resolve and order (referred February 2) in favor of Insane Hospital.

Order (referred February 16) to rename Park square Abraham Lincoln square.

The report was accepted, and the question came on the passage of the order.

The order was recommitted to the Executive Committee.

Order (referred to-day) for half holiday Evacuation Day for city employees participating in parade.

Resolution and order (referred to-day) concerning the city charter.

Reports severally accepted; orders and resolutions passed.

NEXT MEETING.

The Council voted, on motion of Coun. BALLANTYNE, that when it adjourns it be to meet on Monday, March 9, at 3 o'clock p. m.

DATE OF HEARINGS.

Coun. BALLANTYNE offered an order—That the hearings on the question of adjudging to be nuisances certain dilapidated buildings, under the orders passed by this Board February 16, be hereby assigned to March 9, at 3 o'clock p. m., instead of March 16, as provided in said orders.

Passed.

FIVE-CENT FARES, BOSTON.

Coun. COULTHURST offered the following: Resolved, That the City Council is in favor of the general policy of a five-cent fare for passenger transportation on street railways from any part of the City of Boston to any other part thereof.

Resolved, That in justice to the City of Boston, and especially to the Hyde Park section thereof, an extension of the five-cent fare zone ought to be made, without further delay, so as to include Hyde Park and thus provide this section with the same transportation advantages now enjoyed by all other parts of Boston.

The resolutions were passed.

READING ROOM, WARD 23.

Coun. COULTHURST offered an order—That the Trustees of the Public Library be requested, through his Honor the Mayor, to report on the advisability of establishing a reading room on Hyde Park avenue, Ward 23, south of Forest Hills.

PRISONS.

Coun. KENNY, for the Committee on Inspection of Prisons, submitted report on order (referred February 9) for investigation of Charles Street Jail—that the order ought to pass.

Report accepted; order passed.

COUNTY ACCOUNTS.

Coun. COLLINS, for the Committee on County Accounts, submitted a report on communication

from Register of Deeds (referred to-day) for payment of clerk hire to the amount of \$4,463.96—that the same be approved.

Report accepted; approved and ordered paid.

SPECIAL ELECTION.

Coun. COLLINS offered an order—That meetings of the citizens of Wards 13, 14, 15, 16, 17, 20 and 24, qualified to vote for state officers, be held at the several polling places in said wards designated for the purpose by the Board of Election Commissioners, on Tuesday, the seventh day of April, 1914, for the election of a Representative in Congress for the Twelfth District.

The polls at said meetings shall be opened at 6 o'clock a. m., and closed at 4 o'clock p. m.

Ordered, That the City Clerk be hereby directed to give notice of said meetings by advertising the same as required by law.

Passed.

GENERAL RECONSIDERATION.

Coun. BALLANTYNE moved a general reconsideration on all business transacted at the meeting, hoping that the same would not prevail. Lost.

Adjourned at 7.01 p. m., on motion of Coun. BALLANTYNE, to meet on Monday, March 9, at 3 o'clock p. m.

SCHOOLHOUSE DEPARTMENT.

The Mayor has approved a contract, made without advertising, with Edwin C. Lewis, Inc., for electrical and gas work at the Andrews School to the amount of \$324.

February 25, 1914.

HON. JAMES M. CURLEY,

Mayor of Boston.

DEAR SIR,—During the building of the addition to the Andrews School this department made a direct contract with Edwin C. Lewis, Inc., for electrical and gas work, at a cost of three hundred and twenty-four (324) dollars.

It seems that we should have had the approval of the Mayor on this contract, on account of work being installed in a new building. The matter was overlooked, and the work has been all completed, and we would now like your Honor's approval of the inclosed contract, so that the auditor may be enabled to pay the bill.

Very truly yours,

J. P. LOMASNEY,
Acting Chairman.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved by the Mayor:

SCHOOLHOUSE DEPARTMENT.

Deduction, amounting to \$344, on contract with Thomas H. Hanlon for Practical Arts High School, on account of order that all floors throughout shall be patched with same flooring as used thereon in a neat and workmanlike manner, cleaned, new patching smoothed to con-

form to old work; new flooring and parts of old flooring not now painted shall be painted three coats linseed oil and color, and the old painted parts two coats linseed oil and color; all floor paint with a little varnish added to the last coat to harden the surface, instead of as specified and painting thereof, deduct \$200; to omit painting on all interior plastered walls, deduct \$80; to use galvanized-iron vent from laundry trays instead of brass as specified; use 22-inch by 27-inch "Ophir" lavatories as per Plate P 3847, Standard Manufacturing Company's catalogue, instead of Mott's Plate 4316A; paint bathtub exterior three coats of linseed oil and white lead, fine sandpapered between coats, instead of as called for, and omit plumbing fixtures in the small toilet room, second floor, north end of building, deduct \$64. Original contract, \$4,787; total deductions, \$344; contract as standing,

Addition, amounting to \$60.50, on contract with the J. E. Locatelli Company for Samuel Adams School, on account of order to install a thermostat and thermostatic valves in the room adjacent to the master's room. Original contract, \$36,183; total additions, \$172.05; contract as standing, \$36,255.05.

Addition, amounting to \$1,300, on contract with the C. S. Cunningham & Sons Construction Company for the E. P. Tileston School, on account of order to build eagle and other ornamental cast-stone work surrounding space for clock on parapet, \$300; do outside grading according to original specifications, \$500; in assembly hall build plaster cornice, ornamental brackets, cartouch over stage opening, panels on walls of stage and window between stage and ante-rooms, \$500. (All these three items were included in the original contract and were deducted on an order dated October 24, 1913. The work is now to be done exactly as described in the original specification). Original contract, \$66,700; total additions, \$4,807.50; total deductions, \$3,750; contract as standing, \$67,757.

All of them are conducted entirely free of charge. Membership in a class in any one of them may be obtained by making application to the instructor. The requirements are simple. Each applicant must agree to observe the rules of the gymnasium, and must provide himself with proper gymnasium costume.

Classes for men will be held on Tuesday and Friday mornings at 10.30 and in the evenings at 8 o'clock. The morning lessons are devoted largely to men who are preparing for civil service examinations for Police and Fire Departments, but in the night classes all grades of instruction are offered.

Classes for women are held on Mondays and Thursdays. At 10.30 in the morning instruction is given in calisthenics, general upbuilding exercises and in gymnastic and aesthetic dancing. At 8 o'clock in the evening similar instruction is given to young ladies and working girls. And at 4.30 in the afternoon school girls' classes are formed for games, dancing and calisthenics.

Wednesday and Saturday afternoons and Saturday mornings classes are held for school boys. They are given gymnastic drills, athletics and play. And on Wednesday and Saturday nights classes are formed for working boys. They are given recreational exercise and athletics. Both school boys and working boys are given much time for free play.

PROPOSALS FOR ROAD OIL.

Sealed proposals will be received at the office of the Supply Department, Room 826, Tremont Building, until 12 o'clock Thursday, March 12, 1914, for the amount of road oil covered by the items specified in this advertisement.

Item 1. 200,000 gallons, more or less, of emulsion oil, which shall possess the following properties: It shall be petroleum, with asphaltum base, containing not less than 35 per cent of asphalt binder; it shall be free of the objectionable coal tar products and sulphurous hydrogen odors; gravity, not lighter than .920; flash-point, not lower than 212 degrees Fahrenheit; soluble in 86 degrees gasoline, at least 80 per cent; when heated in an open vessel to 325 degrees Fahrenheit for five hours, the volatile matter at this temperature shall not be more than 20 per cent; the oil to be furnished under this contract shall have the qualities necessary for the preparation of the emulsion, as below specified.

Item 2. 200,000 gallons, more or less, emulsified road oil, which shall be prepared from oil of the character above specified. The compound must be of an asphaltum petroleum base, so compounded that it is easily miscible with water in varying proportions of 10 per cent to 50 per cent, and when so mixed with water, suitable for applying to the road through the usual sprinkling wagons in current use. The emulsion, when spread upon the street, shall be entirely without odor. The emulsion shall have such drying and penetrating properties that when applied to a macadam street surface, under direct sunlight, at a temperature of not less than 65 degrees and 60 per cent of humidity, it will not adhere to carriage tires or soles of shoes after five (5) hours from the time of its application. The compound shall contain at least 70 per cent of the basic petroleum. When the compound is heated in an open vessel to 212 degrees Fahrenheit for five hours, the loss shall not be more than 30 per cent. The emulsion shall contain not over 1 per cent of inert mineral matter.

A bid in duplicate must be filed with the City Auditor before 12 o'clock March 12. The superintendent reserves the right to reject any or all bids should he deem it for the best interests of the city so to do. The successful bidder must furnish a bond for one-quarter the amount of the contract in a company authorized to do business in Massachusetts.

D. FRANK DOHERTY,
Superintendent of Supplies.

Placed on file.

REPORT OF TRIAL BOARD.

A report was received from the Trial Board, to whom was referred at the meeting of Jan. 19, 1914 (see p. 228), a report of the Schoolhouse Custodian that because of a freeze-up in one of the stacks in the Mechanic Arts High School building the school was dismissed on Jan. 14, 1914; the Board reports that it appears the accident was caused by the breaking of a cord which released one of the top sashes in the duct leading to the heating chamber, the open window and broken cord not being discovered by the engineer until after the damage occurred, and that he had no reason for suspecting that anything was out of order until on inspecting the thermostat, he found it registered between thirty and forty degrees when it should have registered eighty degrees or more. The Trial Board is unanimously of the opinion that the engineer is in no way responsible for this accident, in which opinion the representative of the Schoolhouse Commission agrees, and recommends that the report be placed on file without prejudice to Mr. Drew, the engineer.

In the course of the investigation the Trial Board was informed by the engineer that the accident did not affect the proper heating of the entire building, but resulted only in an insufficient amount of heat being furnished to the forge shop, early in the morning, and that he informed the head master of the school that the building would be sufficiently heated for school purposes as early as 10 o'clock A.M. The head master, however, dismissed the whole school before that hour.

The report was placed on file, the recommendation adopted, and that part of the report relating to the dismissal of pupils on the day in question referred to the Superintendent for investigation and report.

COLLECTION OF TUITION FOR NON-RESIDENT PUPIL, TRADE SCHOOL FOR GIRLS.

A communication was received from the Business Agent, under date of Mar. 2, 1914, transmitting a communication received from Assistant Corporation Counsel Higgins, under date of Feb. 18, 1914, expressing the opinion that tuition due the School Committee in the sum of forty-four dollars twenty-seven cents (\$44.27) for tuition of Louise Palmer in the Trade School for

Girls, cannot be collected inasmuch as it has been discovered that Miss Palmer's parents had acquired no settlement in Massachusetts; the Business Agent recommends that claim be entered against the State for reimbursement of this amount inasmuch as the State Board of Education approved the attendance of Miss Palmer in the Trade School for Girls on the grounds that she was a legal resident of Waltham.

Referred to Miss Curtis for consideration and report.

RE-CERTIFICATION OF AREAS OF DEARBORN SCHOOL-HOUSE.

A communication was received from the Schoolhouse Custodian, under date of Mar. 2, 1914, transmitting a re-certification of the areas of the Dearborn School-house, upon which the compensation for janitor service is based, to take effect Feb. 1, 1914.

Placed on file, and the Chairman authorized to approve such re-certification, to take effect on the date stated.

ACCIDENT TO HEATING APPARATUS, GIRLS' HIGH SCHOOL-HOUSE—JANITOR COMMENDED.

A communication was received from the Schoolhouse Custodian, under date of Mar. 2, 1914, submitting a communication from the Head Master of the Girls' High School, reporting an accident to the heating apparatus in the Girls' High School-house on Feb. 20, 1914, and stating that through the intelligence and faithfulness of the janitor, it was possible to open school at the usual time.

Placed on file, and the Secretary directed to express to said janitor the appreciation of the Board for the prompt and effective manner in which he met the emergency referred to, and thereby obviated the necessity of suspending the session of the school on the day in question.

EXTRA COMPENSATION, JANITOR, ROXBURY HIGH SCHOOL-HOUSE.

A communication was received from the Schoolhouse Custodian, under date of Feb. 19, 1914, recommending that the janitor of the Roxbury High School-house be allowed additional compensation for work required of him in connection with the occupancy of that building by the Placement Bureau, the classes of the High School of Practical Arts and the graduation exercises of the High School of Practical Arts.

Placed on file.

On motion, it was

ORDERED, That there be paid to the janitor of the Roxbury High School-house the sum of two hundred and forty-eight dollars (\$248) in compensation for his services due to the occupancy of that building by the Placement Bureau from Nov. 7, 1912, to Oct. 9, 1913, inclusive.

On motion, it was

ORDERED, That there be paid to the janitor of the Roxbury High School-house the sum of one hundred and fifty-nine dollars (\$159) in compensation for his services due to the occupancy of that building by the High School of Practical Arts from Sept. 10 to Nov. 24, 1913, inclusive.

On motion, it was

ORDERED, That there be paid to the janitor of the Roxbury High School-house the sum of five dollars (\$5) in compensation for his services at the graduating exercises of the High School of Practical Arts held in that building on the evening of June 19, 1913.

JANITORSHIPS, EVERETT-STREET AND JOHN LOTHROP MOTLEY SCHOOL-HOUSES.

Communications were received from the Schoolhouse Custodian, under date of Mar. 2, 1914, stating that he has considered the candidates certified by the Civil Service Commission as eligible for appointment to vacancies existing in the janitor service, and recommending the following appointments of candidates standing at the head of the list of those certified:—

Joseph L. Butler to the janitorship of the Everett-street School-house, to take effect Mar. 3, 1914.

Andrew D. O'Leary to the janitorship of the John Lothrop Motley School-house, to take effect Feb. 17, 1914.

Placed on file, and the appointments approved, to take effect on the dates stated.

Coun. BALLANTYNE was elected as President pro tem. on motion of Coun. WATSON, receiving a unanimous vote.

The Clerk read the call for the meeting, as follows:

City of Boston,
Office of the Mayor, March 2, 1914.

To the City Council:

You are hereby requested to assemble in the Council Chamber, City Hall, on Tuesday, March 3, at three o'clock p. m., for the purpose of receiving the annual appropriation bill, and of providing an appropriation for the Election Department to cover the expense of the special election in the Twelfth Congressional District.

Respectfully yours,
JAMES M. CURLEY, Mayor.

Placed on file.

APPROPRIATION FOR PRIMARY, ETC.

The following was received:

City of Boston,
Office of the Mayor, March 2, 1914.

To the City Council:
I transmit herewith a communication from the chairman of the Board of Election Commissioners, requesting a special appropriation of \$11,500, the amount which is considered necessary to cover the expenses for holding a special primary and special election in the Twelfth Congressional District.

I recommend, therefore, the passage of the accompanying order transferring from the appropriation for Reserve Fund, when made, the amount specified, to the Election Department for Special Election, Twelfth Congressional District.

Respectfully,
JAMES M. CURLEY, Mayor.

Board of Election Commissioners,
Boston, February 27, 1914.

Hon. James M. Curley,
Mayor of Boston:

Dear Sir,—We respectfully request a special appropriation of eleven thousand five hundred (\$11,500) dollars, the amount which will be necessary to cover the expenses for holding a special primary and special election in the Twelfth Congressional District.

Respectfully,
BOARD OF ELECTION COMMISSIONERS,
JOHN M. MINTON, Chairman.

Ordered, That under the provisions of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer the sum of eleven thousand five hundred dollars (\$11,500) from the appropriation for Reserve Fund, when made, to the Election Department for Special Election, Twelfth Congressional District.

Coun. WATSON—Mr. President, I rise to a question of information. What would happen if there were not six votes secured for the passage of the order to-day?

President BALLANTYNE—The order would fail of passage.

The order was passed, yeas 6, nays 0.
Yeas—Coun. Attridge, Ballantyne, Collins, Coulthurst, Watson and Woods—6.

ANNUAL ESTIMATES.

The following was received:

City of Boston,
Office of the Mayor, February 28, 1914.

To the City Council:
In accordance with section 3 of chapter 486 of the Acts of 1909, I have the honor to transmit the estimates of the several departments, with my recommendations thereon.

I also submit the basis of estimates prepared by the City Auditor, which shows the amount that can be raised within the tax limit for general municipal purposes and the amount of estimated income for the present year.

In submitting the budget I must call attention to the extraordinary conditions which confront the city. The limit of taxation for general municipal purposes is \$10.55 on each \$1,000 of valuation, of which \$4.18 must be reserved for the support of the public schools. In the last fiscal year, 1913-14, the existing scale of expenditures resulted in the appropriation of all the money that could lawfully be appropriated within the tax limit except \$52.48.

Instead of keeping the expenditures down so that the present limit for general municipal purposes would suffice, new appointments were made and extraordinary increases of salaries and wages were granted, many of them near the close of the fiscal year, apparently for the purpose, and certainly with the result, of making it impossible for the succeeding administration to live within the limit fixed by law if the increased salary schedules were to be maintained. We have had to face an unpleasant situation, not created by us, and for which we are not in any degree responsible and the remedy for which rests in an appeal to the Legislature to raise the tax limit, or drastic reductions in the pay roll. The former course would entail

new burdens on industry and inevitably retard the city's development. The latter would cause disappointment to hundreds of city employees, many of whom merit, and, under more favorable conditions, should receive, salary increases. The duty I owe to the citizens as a whole impelled me to take the latter course. Many of the salary increases must be revoked. Removals and suspensions will also be unavoidable. The departmental estimates exceed by \$1,876,878.96 the amount the Mayor and City Council can appropriate under the law for general municipal purposes. The estimates have been studied as carefully as possible in the brief periods since my inauguration which I have not been compelled to devote to other pressing business of the city. The problem before me was to distribute as equitably as possible within the too brief time allowed by law the total amount which may be appropriated for general municipal purposes. No less could be appropriated owing to the necessity of maintaining some of the salary increases made last year, such as the laborers', the firemen's and the policemen's increases, the necessity of providing the increased amounts which must by law be reserved for the schools, and to the necessity of maintaining our ever-increasing number of public buildings and other improvements. The departments must live within the amounts appropriated except where extreme hardship would result, in which case the none too large Reserve Fund will afford slight relief.

In addition to the amount which can be appropriated within the tax limit for general municipal purposes I have recommended for other purposes which can be provided for outside the limit, \$188,987.45 less than the estimates. The total reductions in the estimates are \$2,065,866.41.

I recommend the adoption of the accompanying appropriation and tax orders.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston.

Appropriation and Tax Orders for the Financial Year 1914-1915.

Ordered, That to meet the current expenses payable during the financial year beginning with the first day of February, 1914, of performing the duties and exercising the powers devolved by statute or ordinance, or by vote of the City Council during the year, upon the City of Boston, or the County of Suffolk, or the departments or officers thereof, and to meet their respective obligations for interest on debt, sinking fund requirements and maturing debt not provided for by sinking fund, the respective sums of money hereinafter specified be, and the same are, hereby appropriated for the several departments, and for the objects and purposes hereinafter stated.

Ordered, That the appropriations for Water Service, current expenses, and the payments to the state under the provisions of chapter 488 of the Acts of 1895 and acts in addition or amendment thereto, and for the interest and debt requirements for loans issued for water purposes, be met by the income from said works and any excess over income from taxes; that the other appropriations hereinafter specified be met out of the money remaining in the treasury at the close of business on January 31, 1914, exclusive of the money raised by loan or needed to carry out the requirements of any statute, gift, trust, or special appropriation, and by the income of the financial year, beginning February 1, 1914, and by taxes to the amount of \$16,505,124.75, and that said amount be raised by taxation on the polls and estates taxable in the City of Boston.

Ordered, That all sums of money which form no part of the income of the city, but shall be paid for services rendered or work done by any department or division for any other department or division, or for any person or corporation other than the City of Boston, be paid into the general treasury and then credited to the appropriation of the department or division rendering such service or doing such work, and that all contributions made to any appropriation be expended for the objects and purposes directed by the several contributors thereof.

Ordered, That to provide temporarily money to meet the appropriations aforesaid, the City Treasurer issue and sell, at such times and in such amounts as he may deem best, notes or certificates of indebtedness of the City of Boston, not exceeding nine million dollars in the total, in anticipation of the taxes of the current municipal year; that all such notes or certificates of indebtedness be dated the day the money for the same is received, be made payable with the interest thereon at the office of the City Treasurer within the current financial year, from the taxes of said year, and bear interest from their date until the same are made payable at such rate as said treasurer shall deem proper.

Ordered, That all taxes raised to meet the appropriations of the City Council, and all taxes assessed for meeting the city's proportion of the state tax of the year 1914, or of any other taxes or assessments payable to the Commonwealth, be due and payable on the first day of October, 1914; that all such taxes paid after the first day of November, 1914, bear interest from and including said day until paid, at the rate of six per cent per annum, except the taxes assessed upon shares of stock of national banks shall bear interest at the rate of twelve per cent per annum from and including said first day of November until paid; and that all interest which shall have become due on taxes shall be added to and be a part of such taxes.

BALTIMORE'S MUNICIPAL GARAGE.

The city of Baltimore has established a garage for the storage and care of municipal automobiles. It is about 50 by 54 feet, with a ceiling about 12 feet high, and will accommodate 14 automobiles. The walls and ceiling are painted white, and the garage and the courts on the sides are abundantly lighted with tungsten lamps.

The wash table measures 14 by 18 feet,

and has two lines of lights on three sides, and others overhead. The screen around the wash table is of steel and concrete. There is a vacuum cleaner having four outlets for cleaning covers and upholstery, also an air compressor capable of inflating an automobile tire in about 15 seconds. There are tanks for lubricating and cylinder oil, and a self-measuring gasoline pump with underground tanks of 275-gallon capacity. The garage is equipped with eight fire extinguishers.

There is an office, suitably furnished, and a storeroom from which automobile supplies are secured. The shop has a machinist's bench and drawers, lathe, drill press and grinder, and can do all except the heavy automobile repairing.

All the city cars are stored here under the management of an expert mechanic, and are subject to departmental requisition. An accurate record is kept of time in use and supplies consumed.—*American City.*

WITHOUT ADVERTISING.

The Mayor has approved the following additions to and deductions from contracts; also contracts for sidewalks.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved by the Mayor:

PUBLIC BUILDINGS DEPARTMENT.

Deduction, amounting to \$750, on contract with the W. A. Murtfeldt Company for steps at City Hall Annex, on account of order to omit short wall shown on section DD, the excavating for the subway entrance steps and the lowering of the passageway to grade 32.20, construction of the underpinning of the old retaining wall, passageway floor and steps, including retaining walls and hood over stairway. The work to be done by the Boston Transit Commission under agreement. Original contract, \$4,600; total deductions, \$750; contract as standing, \$3,850.

CONTRACTS FOR SIDEWALKS.

Authority has been granted to the Commissioner of Public Works to award contracts to the following named individuals and companies, for the construction of artificial stone sidewalks in the public streets, without advertising for proposals. The estimated amount of labor and materials furnished by the contractor being in excess of \$2,000.

Armor Concrete Construction Company, Hervey F. Arrington, Inc., W. A. Murtfeldt Company, Connolly & Diamond, David M. Biggs & Co., Warren Brothers Company, William J. Rafferty

Company, C. W. Dolloff & Co., Adams Pond Company, Hugh Nawn Contracting Company, William J. Grosvenor & Co., American Architectural Iron Works, Jeremiah J. McCarthy Company, Frank P. REFUSE STATION, ROXBURY.

The following was received:

City of Boston,
Office of the Mayor, March 7, 1914.

To the City Council:
I transmit herewith a communication from the Commissioner of Public Works, asking for the transfer of \$23,000 appropriated May 8, 1912, for Everett street, Brighton, property, for the construction of a refuse station in Roxbury, the site for which has been already secured.

Inasmuch as the owner of the site in Brighton, for the purchase of which this money was appropriated, now refuses to sell, I recommend the passage of the accompanying order transferring the said amount in accordance with the suggestion of the Commissioner of Public Works.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Public Works Department,
February 25, 1914.

To the Honorable the Mayor:

I respectfully call your attention to my letter of January 17, 1913, to his Honor the Mayor, which reads as follows:

"To the Honorable the Mayor:

"On April 10, 1912, \$150,000 was appropriated for Land and Buildings, Refuse Stations. This estimate of \$150,000 was based on the fact that we possessed a site in the Roxbury district for the refuse transfer station of this district. You having prohibited the building of a station on this site, it became necessary to secure another one. This we have been able to do recently, after a long search, and it will cost in the neighborhood of \$24,000. At present there is \$23,000 available for the purchase of a site in Brighton, which the owner has now refused to sell, and I would respectfully suggest that you ask the City Council to transfer this \$23,000, appropriated on May 8, 1912, for Everett street, Brighton, property, for the purchase of a site for a refuse transfer station in the Roxbury district."

This letter was referred to the City Council for action on January 20, 1913, and was referred to the Executive Committee. No action has been taken in this matter as yet.

I would respectfully urge the transfer of this \$23,000 for the construction of a refuse station in

Roxbury, the site for which we have already secured. This station being in operation will mean a saving of approximately \$30,000 per year in our teaming hills.

Yours respectfully,
L. K. ROURKE,
Commissioner of Public Works.

Ordered, That under the provisions of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer the sum of twenty-three thousand dollars from the appropriation for Everett Street, Brighton, Property, to an appropriation for Refuse Transfer Station, Duncan and Wards Streets.

Referred to the Committee on Finance.

DILAPIDATED BUILDING, WARD 1.

The following was received:

City of Boston,
Office of the Mayor, March 9, 1914.

To the City Council:
I transmit herewith communication from the Building Commissioner under date of March 2, 1914, calling attention to dilapidated buildings at No. 273 Border street, Ward 1.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Building Department, March 2, 1914.

Hon. James M. Curley,
Mayor of Boston:
Dear Sir,—The owner, Thomas McCormack, 326 Commercial street, has been notified of the dilapidated condition of his building, 273 Border street, Ward 1, but nothing has been done.

I therefore refer the matter to you for such action as you find best under provisions of sections 1 to 5, chapter 101, and sections 67 to 69, chapter 75, of the Revised Laws.

Yours respectfully,
PATRICK O'HEARN,
Building Commissioner.
Referred to the Executive Committee.

HIGH PRESSURE FIRE SERVICE.

The following was received:

City of Boston,
Office of the Mayor, March 7, 1914.

To the City Council:
I transmit herewith a communication from the Commissioner of Public Works, recommending, as required by chapter 312 of the Acts of 1914, an appropriation of \$150,000 for the High Pressure Fire Service.

It appears expedient that this appropriation be made as soon as practicable in order that the necessary preliminary work may be undertaken without delay, and I therefore recommend the passage of the accompanying loan order appropriating the sum of \$150,000 for High Pressure Fire Service.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Public Works Department,
March 3, 1914.

To the Honorable the Mayor:

I respectfully recommend that, as required by chapter 312 of the Acts of 1914, an appropriation of \$150,000 be made by the city government for the High Pressure Fire Service.

This appropriation should be made as soon as practicable, in order that this department may be authorized to advertise for proposals for laying pipe for this service, aggregating approximately seven miles.

Respectfully,
L. K. ROURKE,
Commissioner of Public Works.

Ordered, That the sum of one hundred and fifty thousand dollars (\$150,000) be and hereby is appropriated, to be expended under the direction of the Commissioner of Public Works, for High Pressure Fire Service, and that to meet said appropriation the City Treasurer be and hereby is authorized to issue, from time to time, upon the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

Referred to the Committee on Finance.

MONEY FOR PLAYGROUND, WARD 2.

The following was received:

City of Boston,
Office of the Mayor, March 9, 1914.

To the City Council:
I transmit herewith a communication from the chairman of the Park and Recreation Department, under date of February 14, 1914, relative to a deficit in amount required to pay awards made by the Board of Street Commissioners, and for the settlement of other claims in connection with playground, Ward 2.

I therefore recommend the passage of the accompanying loan order appropriating the sum of \$4,000 for Playground, Ward 2.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Park and Recreation Department,
February 14, 1914.

Hon. James M. Curley,
Mayor of Boston:

Dear Sir,—We have received notice from the Street Commissioners of the acceptance of two awards, amounting to \$975.25, for land taken for the Paris Street Playground, but owing to an execution of court and settlements made by the Law Department there is no money left of the original appropriation to pay them.

Besides these there are other unsettled cases, for which awards have been made but have not been accepted, and which are now in suit, and for which \$3,000 may be needed, or a total of \$4,000 to settle all the outstanding claims.

We therefore request you to recommend to the City Council a further appropriation of this amount for Playground, Ward 2.

Yours respectfully,
D. H. SULLIVAN, Chairman.

Ordered, That the sum of four thousand dollars (\$4,000) be and hereby is appropriated, to be expended under the direction of the Board of Park and Recreation Commissioners, for Playground, Ward 2, and that to meet said appropriation the City Treasurer be and hereby is authorized to issue, from time to time, upon the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

Referred to the Committee on Finance.

PAYMENT OF COURT EXECUTION.

The following was received:

City of Boston,
Office of the Mayor, March 7, 1914.
To the City Council:

I transmit herewith a communication from the City Auditor with reference to a deficit in amount required to satisfy an execution of court in favor of Stephen Brennan, for the erection and alteration of buildings at Boston City Hospital.

Respectfully,
JAMES M. CURLEY, Mayor.

WATER MAIN, EMMET STREET.

The following was received:

City of Boston,
Office of the Mayor, March 7, 1914.
To the City Council:

I transmit herewith a communication from the Commissioner of Public Works, prepared in compliance with the request of your honorable body, contained in an order passed at the meeting February 17, 1914, that the Commissioner of Public Works be requested to extend the water mains on Emmet street, Hyde Park.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Auditing Department, February 13, 1914.
Hon. James M. Curley,

Mayor of Boston:

Sir,—An execution of court, amounting to \$12,184.94, has been paid on account of damages recovered under contract dated August 3, 1894, of Stephen Brennan, for erection and alteration of buildings, Boston City Hospital, charged to Hospital Buildings, Improvements. As the balance of the appropriation is only \$6,159.98, it leaves \$6,024.96 to be provided for.

Very truly,
J. ALFRED MITCHELL, City Auditor.
Referred to the Committee on Finance.

BORROWING CAPACITY OF CITY.

The following was received:

City of Boston,
Office of the Mayor, March 7, 1914.
To the City Council:

I transmit herewith copy of a communication from the Board of Commissioners of Sinking Funds, with appended tables, estimating the amount which the city will be able to borrow during the present financial year within the debt limit established by law.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Board of Commissioners of Sinking Funds,
February 11, 1914.

Hon. James M. Curley,

Mayor of Boston:

Sir,—In accordance with the provisions of chapter 93, Acts of 1891, it is estimated that the amount which the city will be able to borrow during the present municipal year within the debt limit established by law is \$3,283,045.91, as per schedule annexed.

Respectfully,
JAMES W. DUNPHY,
W. PRENTISS PARKER,
MAX E. WYZANSKI,
WILLIAM G. CARIGAN,
JOHN W. O'MEALEY,
Board of Commissioners of Sinking Funds.
J. ALFRED MITCHELL,
City Auditor.
CHARLES H. SLATTERY,
City Treasurer.

WIDENING OF WASHINGTON STREET.

The following was received:

City of Boston,
Office of the Mayor, March 7, 1914.
To the City Council:

I transmit herewith a communication from the Board of Street Commissioners, prepared in compliance with the request of your honorable body, contained in an order passed at the meeting February 17, 1914, that the Board furnish the City Council with an estimate of the cost of widening Washington street, between Warrenton and Pleasant streets, to a uniform width.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,

Very truly yours,
J. J. O'CALLAGHAN, Secretary.

Referred to the Committee on Finance.

STEEL FILING CASES, LAND COURT.

The following was received:

City of Boston,
Office of the Mayor, March 9, 1914.
To the City Council:

I transmit herewith a communication from the Superintendent of Public Buildings, under date of March 2, 1914, together with copy of a communication to him from the Recorder of the Land Court under date of February 17, 1914.

From this correspondence it would appear that there was immediate and urgent need of additional steel filing cases in the office of the Land Court, and I therefore recommend the passage of the accompanying order, transferring the sum of \$1,125 from the Reserve Fund, when made, to the appropriation for Public Buildings Department.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Public Buildings Department,
March 2, 1914.

Hon. James M. Curley,

Mayor of Boston:

Dear Sir,—Some time ago Mr. Smith, Recorder of the Land Court, made requisition on this department for additional steel filing cases, and on February 16 I wrote him to the effect that, pending the disposition of the Annual Budget, I did not feel at liberty to entail any great expense, which would be necessary were I to provide said filing cases for him at this time. He evidently was not disposed to wait, as you will observe by his letter, a copy of which I inclose.

For your further information I would add that I have received bids from three reputable concerns in this line, and the best figure I could get was in the sum of eleven hundred twenty-five (1,125) dollars. This being rather large to draw against the regular appropriation I feel that some provision should be made to meet this in another way, and I most respectfully request that an appropriation in the sum of eleven hundred and twenty-five (1,125) dollars be provided for this exigency.

Respectfully yours,
M. J. FISH,
Superintendent of Public Buildings.

Commonwealth of Massachusetts,
Land Court, Boston, February 17, 1914.
Mr. M. J. Fish,

Superintendent of Public Buildings:

My dear Sir,—Answering your letter of February 16, I beg to record a mild and respectful dissent from the proposition implied in your letter that it does or does not make any difference in the legal situation as to whether you "feel like doing this work." I think it natural and by no means improper that you personally should not feel like doing this work, but I want to make it clear that in my opinion that is not material. Section 1, chapter 128, of the Revised Laws, makes it obligatory and not optional with the County of Suffolk to do this work. The only question is, therefore, whether the work is reasonably necessary. I assert that it is and submit the situation to the candid consideration of yourself or any other representative of the County of Suffolk. Possibly this official request should not be addressed to you but to the Mayor of the city or the Chief Justice of the Supreme Court as the custodian of the courthouse; but inasmuch as all requests of this kind heretofore have been attended to

City of Boston,
Public Works Department,
February 26, 1914.

To the Honorable the Mayor:

Re attached order of the City Council you are respectfully informed that the water main in Emmet street, Hyde Park, which is a private way, has been extended as far as grade conditions permit. If the abutters would rough grade the street, or if the city would lay it out and accept it as a public highway, we could continue the work.

Respectfully,
L. K. ROURKE,
Commissioner of Public Works.
Placed on file.

through the various occupants of your office, I have considered the matter as somewhat settled by precedent and practice and should have thought it rather improper to go over your head with a request without saying anything to you.

This call for help went out on November 25, 1912, in a letter to you with notice that within six months to a year two additional file cases would be necessary of the kind substantially shown on plan 3606-A of the Bank and Office Equipment Company. Everything is now full in the vault with the exception of the plan case which was installed under your administration, and I have decided that the least valuable of our files, to wit, papers in cases under the miscellaneous jurisdiction, will have to go outside the vault in the general office spaces on wooden shelves to be made by the courthouse carpenter. This I assume to be a technical violation of state laws requiring officials having charge of public records to keep them in fireproof cases and I have accordingly notified the Public Record Commissioner of the situation and have invited him— if endowed with sufficient miraculous powers—to give us a modern scriptural exhibition, not of turning water into wine, but of turning wood into iron. I fear he will fail, however, and so I again urge you to pursue the more practical course and make a contract forthwith for furnishing these new cases. I should even contend that the state of your appropriations is immaterial, as this is work which the County of Suffolk is required by law to do.

Yours truly,
CLARENCE C. SMITH,
Recorder.

Ordered, That under the provisions of chapter 261 of the Acts of 1893 the City Auditor he and hereby is authorized to transfer the sum of eleven hundred and twenty-five dollars (\$1,125) from the appropriation for Reserve Fund, when made, to the appropriation for Public Buildings Department, Filing Cases, Land Court.

Referred to the Executive Committee.

NEW LAUNDRY, DEER ISLAND.

The following was received:

City of Boston,
Office of the Mayor, March 9, 1914.

To the City Council:

I transmit herewith communication from the Penal Institutions Commissioner under date of February 6, 1914, explaining the necessity of an additional appropriation of \$10,000 to complete the new laundry, Deer Island, the old one having been completely destroyed by fire on January 3, 1914.

I therefore recommend the passage of the accompanying order, transferring the sum of \$10,000 from Machinery and Materials for Manufacturing to the appropriation for Penal Institutions Department, House of Correction.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Penal Institutions Department,
February 6, 1914.

The Mayor of Boston:

Sir,—The fire which occurred in the laundry building at the House of Correction at Deer Island on January 3 completely destroyed the old laundry building which was of wood and of small value; in fact, the building I had intended to remove and in its place erect a coal pocket, but the machinery contained therein was also totally destroyed and was of considerable value.

During the past year the old prison building formerly occupied by the women had been remodeled for laundry purposes. The flooring, sewer and water connections, in fact, everything, was prepared to receive the new machinery which we needed and it was intended to have used that which was destroyed by fire.

In order to complete our new laundry and put it in an up-to-date condition it is estimated that we will require at least ten thousand (10,000) dollars, and I respectfully request that you cause to be provided the amount of money necessary for this purpose as soon as it meets your convenience. This money which I ask for is in no way connected with our regular appropriation and no provision has been made in our estimate for its expenditure.

In this connection I would suggest that a fund which is now in the hands of the city might be used for this purpose. I refer to the fund known in the auditor's report as "Machinery and Materials for Manufacturing." This is a fund which in 1899 was established by appropriation of fifteen thousand (15,000) dollars and since then has accumulated. From time to time transfers have been made from it for purposes other than our institution required. At the present time there is a balance of \$40,128, and it would seem to me that a transfer from this fund might now be made for the purpose of supplying and equipping our laundry.

Respectfully,
FRED S. GORE, Commissioner.

Ordered, That under the provisions of chapter 261 of the Acts of 1893 the City Auditor he and hereby is authorized to transfer the sum of ten thousand dollars (\$10,000) from Machinery and

Materials for Manufacturing, to an appropriation for Penal Institutions Department, House of Correction, Laundry Equipment.

Referred to the Executive Committee.

REDUCTION OF CITY DEBT.

The following was received:

City of Boston,

Office of the Mayor, March 9, 1914.

To the City Council:

The debt of the city and the application of methods for its reduction in my opinion warrant serious consideration upon the part of the members of the City Council.

The interest charges on outstanding indebtedness, including metropolitan assessments, this year represents a payment in excess of \$6,000,000, a large percentage of which is taken from the tax levy, and represents money that if not expended in this manner would make possible a reduction in the tax rate or provide the money for necessary public improvements.

It has been the custom in most cases when assets of the city representing land, buildings or other property become cash assets to immediately apply the same not to a reduction of the city's debt, of which in a majority of cases they are a part, but to the creation of additional burdens, carrying with them fixed charges resulting in an increase of maintenance.

In my opinion a definite policy should be established that would in a measure result in a reduction of municipal indebtedness, and I therefore recommend to your honorable body consideration of an amendment to existing ordinances through which, in a measure, it may be possible to conserve the assets of the municipality and reduce fixed charges consequent to increasing interest payments on outstanding indebtedness.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston.

In the Year Nineteen Hundred Fourteen.

An Ordinance Concerning the City Debt.

Be it ordained by the City Council of Boston, as follows:

Section 1. Chapter 35 of the Revised Ordinances of 1898 is hereby amended by adding to said chapter a new section as follows:

Section 5. The proceeds of all sales of land and buildings, other than school land, shall be applied by said commissioners to the reduction and cancellation of any part of any outstanding debt of the city for which there is a sinking fund.

Referred to the Committee on Ordinances.

SALARIES OF PARK COMMISSIONER AND DEPUTY.

The following was received:

City of Boston,

Office of the Mayor, March 9, 1914.

To the City Council:

I transmit herewith and recommend for passage by your honorable body the accompanying ordinance relative to the salary of the chairman and deputy commissioner of the Park and Recreation Department.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston.

In the Year Nineteen Hundred Fourteen.

An Ordinance Concerning the Park and Recreation Department.

Be it ordained by the City Council of Boston, as follows:

Chapter 10 of the Ordinances of 1912, establishing the Park and Recreation Department, is hereby amended, as follows:

In section 1 by striking out the words "seven thousand five hundred" and inserting in place thereof the words "five thousand."

In section 11 by striking out the words "seventy-five hundred" and inserting in place thereof the words "five thousand."

By striking out section 9 of said ordinance and inserting in place thereof the following:

Section 9. The board shall appoint a deputy commissioner who shall receive a salary of not more than thirty-five hundred dollars and who shall devote his whole time to the work, a secretary, engineers, physicians, subordinates and employees, and define their powers and duties and fix the amount of their compensation.

Referred to the Committee on Ordinances.

ROPING OFF HARRISON AVENUE.

Coun. ATTRIDGE offered an order—that the City Messenger be authorized to rope off in the vicinity of Union Park street and Harrison avenue on Saturday, April 11, 1914, for the ten-mile road race under the auspices of the Cathedral Catholic Young Men's Association, the expense thus incurred to be charged to the appropriation for City Council, Incidental Expenses.

Passed.

NEXT MEETING.

The Council voted, on motion of Coun. BALANTYNE, that when it adjourns it be to meet on Monday, March 23, at three o'clock p. m.

GENERAL RECONSIDERATION.

Coun. COLLINS moved a general reconsideration, hoping that the same would not prevail. Lost.

Adjourned at 5.30 p. m., on motion of Coun. COLLINS, to meet on Monday, March 23, at three o'clock p. m.

PUBLIC WORKS LOAN.

England has a Public Works Loan Board which renders valuable service to local authorities and others in England, Wales and Scotland desiring financial assistance on easy terms. In 1912 the Board made 1,712 advances for sums totaling \$22,773,015. In 1911 it made 1,685 loans at a total of \$19,774,495. Of the total referred to for 1912 the sum of \$19,920,555 was advanced on the security of local rates and \$2,852,860 on the security of property.

The report of the Board for 1912-13 shows the destination of the loans. The largest sum, \$7,308,805, came under the head of the Education Acts. The Small Holdings Act had the second largest sum—\$5,261,405. Then follows the Public Health Acts, with \$4,878,905, and the Housing of the Working Classes Acts with \$1,821,375.

The most interesting feature of the report is the increase in the amount borrowed for the housing of the working classes, the total under that head being about four times as much as it was the previous year. The sums advanced for housing and secured on property amounted to \$890,425, as compared with \$991,680 for the preceding year, so there was a falling off here, but it brings the total for housing up to \$2,447,035. The local authorities' total under this head is an index of the greatly increased activity being displayed in the provision of workmen's dwellings.

Section 3 of the Housing, Town Planning, etc., Act, 1909, provides that where a loan is made by the Public Works Loan Board to any local authority for any purpose of the Housing Acts the loan has to be made for the minimum rate allowed at the time being for loans out of the Local Loans Fund. As many as 67 local authorities availed themselves last year of the opportunity of borrowing from the Board at the low rate of 3½ per cent, some of them coming back four and five times. Formerly the Board could not lend for a longer period than 50 years, but under the Act of 1909 the limit was extended to 80 years for housing purposes.—*American City.*

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts; street lighting contract; also an extension of contract.

PERMISSION TO DO WORK WITH DEPARTMENT FORCE.

The Mayor has granted to the Commissioner of Public Works authority to do the following work with the department force without advertising for competitive bids:

Build a 24-inch pipe surface drain across Neponset river reservation and in Board of Survey street No. 522, between Neponset river and River street, Dorchester, the estimated cost for labor and materials being \$2,154.

"This work, in my opinion, can be done as advantageously by day-labor methods as any work now necessary.

"Public necessity and convenience require that the work be done after November 15, for which your authority is requested.

L. K. ROURKE,
Commissioner of Public Works."

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved by the Mayor:

Griffin Company for Everett School, on account of order to cut out fillet on which double-acting doors are hung; fill in door rabbet with new rabbetted section to fit doors when rehung for single acting doors, and furnish and screw in place new fillet to form stop for doors; rejoin doors and place astragal in center; furnish new butts for doors, Von Duprin panic bolt on standing door; standard "City" set on swinging door (furnished by city) and kick plates on one side of each door and door check for swinging door, and refinish paint where damaged by change. Original contract, \$18,944; total additions, \$1,757.41; total deduction, \$1,121; contract as standing, \$19,580.41.

STREET LIGHTING CONTRACT.

Authority has been granted to the Commissioner of Public Works to award a contract, without advertising, to the Edison Electric Illuminating Company of Boston for lighting the streets and alleys of the city for a period of ten years, beginning April 1, 1914. In making request for permission to award the Commissioner of Public Works states:

PUBLIC WORKS DEPARTMENT,
March 17, 1914.

To the Mayor of Boston:

I respectfully request your permission to award a contract, without advertising, for the lighting of a portion of the streets and alleys of Boston by electricity, for a period of ten (10) years, dating from April 1, 1914, to the Edison Electric Illuminating Company of Boston.

My reason for requesting permission to award this contract, without advertising, is that the Edison Electric Illuminating Company of Boston is the only company which can do this work. The new schedule of rates, with the discounts proposed in this contract, will mean an annual saving of \$75,380.81, based on the number of electric lamps in operation on March 9, 1914.

This contract will not become operative until it has, in accordance with the provisions of section 6 of chapter 486 of the Acts of 1909, received your approval, together with that of the City Council, after a public hearing.

Yours respectfully,
L. K. ROURKE,
Commissioner of Public Works.

EXTENSION OF CONTRACT.

Contract with James Doherty, dated August 25, 1913, for building tar macadam roadway in Porter street, between Bismarck and Amory streets, West Roxbury, has been extended until July 1, 1914.

APPOINTMENTS AND CONFIRMATIONS.

APPOINTMENTS.

The following appointments have been made, subject to approval by the Board of Civil Service Commissioners:

March 13, Joseph P. Collins to be a member of the Board of Park and Recreation Commissioners.

March 14, Isaac G. Rosenberg to be a Trustee for Children.

March 14, John R. McVey to be an Overseer of the Poor.

March 14, Charles Gibson to be a member of the Board of Park and Recreation Commissioners.

STREET COMMISSIONERS.

The Board of Street Commissioners has determined that no person sustains damage or derives special benefit by the widening as a highway of Court street, between Court square and Tremont street, on the southerly side.

UNITED STATES CIVIL SERVICE EXAMINATION.

The United States Civil Service Commission announces open competitive examinations for Inspector of Safety Appliances and Inspector of Hours of Service, for men only, on April 24 and 25, 1914. From the registers of eligibles resulting from these examinations certification will be made to fill vacancies in these positions in the Interstate Commerce Commission at salaries of \$1,800 per annum, with necessary allowances for expenses incurred while absent from headquarters in the discharge of official duties, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

It is expected that several appointments will be made to the position of Inspector

of Safety Appliances and to the position of Inspector of Hours of Service.

The duties of the Safety Appliance Inspectors will comprise the making of inspections and reports as required by the Safety Appliance Acts; the duties of the Hours of Service Inspectors will be the making of inspections and reports as required by the so-called Hours of Service Act. Both Safety Appliance and Hours of Service Inspectors may be required to investigate accidents as required by section 3 of the Accident Investigation Act of May 6, 1910.

Persons who meet the requirements and desire either of these examinations should at once apply for application form 1933 to the United States Civil Service Commission, Washington, D. C., or to the Secretary of the United States Civil Service Board, Post Office, Boston, Mass.

FREE PUBLIC LECTURES AT PUBLIC LIBRARY.

Free public lectures will be given in the lecture hall of the Boston Public Library on Monday and Thursday evenings and Sunday afternoons.

The Monday and Thursday lectures are all with lantern illustrations unless otherwise mentioned.

The Sunday lectures are not illustrated unless so mentioned.

The Monday lectures are given under the auspices of the Field and Forest Club.

Notice.—In order to prevent crowding on the temporary bridge and stairs at the entrance to the lecture hall on Boylston street, during the subway construction the doors will be open two hours before each lecture. The entrance is from Boylston street only. The doors will be closed when the hall is filled.
